UNIVERSITY OF SOUTHERN CALIFORNIA

ALMA MATER

All Hail to Alma Mater

To thy glory we sing;

All Hail to Southern California

Loud let thy praises ring;

Where Western sky meets Western sea

Our college stands in majesty;

Sing our love to Alma Mater,

Hail, all hail to thee!

ACADEMIC REGALIA

“(The) wearing of gowns by judges, ministers, teachers and scholars is an ancient and impressive custom.... As the graduating students of American high schools, colleges and universities march in academic procession on Commencement Day to receive their diplomas or degrees, they, too, (and perhaps, for some, only this once in their lives) wear the caps and gowns of this long tradition.... For a moment, they are wearing an ancient regalia, the proud badge of belonging to a great profession, that of student. Holding hands with students past and students present in a chain which goes back into history. Every detail should be keyed to stress the occasion as adventure, a turning point, something memorable and important.”

Frank C. Baxter (1896–1982)
Professor Emeritus of English
University of Southern California

At the end of the 19th century, colleges and universities in the United States were developing the kind of ruleless academic costume that emerged from the centuries in Great Britain. There and in the dominions, each university adopted its own costume without regard to what other institutions had done. The result was a confusing array of caps, gowns and particularly hoods, each one of which must be separately memorized.

Recognizing this problem, American institutions responded in 1895 by creating an intercollegiate commission to consider a uniform code for academic costume. The resulting Intercollegiate Code regulated the design or pattern of gowns and hoods and the colors and materials to be used. The code was subsequently adopted by almost all of the colleges and universities in the country. It is still in use today, although slightly modified by successor committees appointed by the American Council on Education.

Gowns

The code provides for three types of gowns. Those for bachelor's students are made of black material and have long, pointed sleeves. They should be worn closed. The master's gown, also black, is made with an oblong sleeve, open at the wrist. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is also worn closed. In 2018, the university unveiled new custom regalia for bachelor's and master's students. The new gowns feature a cardinal band and the USC shield on the sleeves, along with cardinal piping. The custom regalia highlights the prestigious brand of USC in an elegant and timeless manner.

The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck and by three bars of the same material on the bell-shaped sleeves. It is cut much fuller than

the other gowns and may be ornamented in color. (As a matter of practice, except in the areas of philosophy and law—dark blue and purple, respectively—faculty colors are rarely seen on the gown.)

The standard cap and gown are almost universally worn, but there are some outstanding deviations, including Harvard, Princeton, Yale, Stanford, Columbia, New York University, the University of Chicago and the University of Southern California. Cardinal and gold doctoral gowns were proposed for the university's centennial by Dr. Jerome B. Walker, centennial director, in 1980. Cardinal gowns with yellow velvet panels were first worn during President James H. Zumberge's inauguration in May 1981. For President Steven B. Sample's 1991 inauguration, the design for doctoral gowns was modified, adding red velvet panels framed by bright gold braids.

Caps

Although there is an exception, rarely seen, for women that allows them to wear a soft cap, the mortarboard or Oxford-type cap is worn. Only the doctor's cap may be made of velvet. The tassel worn with the cap has three variations: (1) it may be black for any degree, (2) it may be in the color of the faculty (field of learning) in which the degree was granted or (3) doctors and governing officials, only, may wear a tassel of gold metallic thread. Black tassels are worn at USC for all bachelor's and master's degrees.

The cap is an essential part of the academic costume and is worn with it at all times except, of course, when caps are removed during prayer or during the playing of the national anthem. The gold tassel of the doctor's cap is so fastened that it drapes over the left front quarter of the cap. From this design, it has become customary to leave the tassel draped over the left temple at all times.

Hoods

Of all the components of the costume, the hood is the most symbolic. It makes clear the level of the degree, the faculty in which it was given and, the institution that awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctors, by the shape. The hood is lined with the colors of the school awarding the degree; at USC, the silk lining is gold with a cardinal chevron. The color of the velvet band around the hood shows the department in which the wearer has taken his or her degree. All master of arts (white) and master of science (gold) degrees are bestowed by the Graduate School. The color of the velvet band around the hood for all PhDs is dark blue. Specialty degrees have individual colors based on the degree earned.

The academic regalia worn by the participants in the commencement ceremony is not merely costume. It represents an unbroken chain uniting students and scholars since the Middle Ages.

Presidential Medallion of Office

The medallion of office is worn by the president over their official regalia at ceremonial occasions. It was created by Associate Provost Jerome B. Walker for the inauguration of President James H. Zumberge on May 10, 1981, to serve as a tangible symbol of the authority vested in the president by the Board of Trustees. For his 1991 inauguration, President Steven B. Sample asked Dr. Walker to design the medallion's current chain, which consists of shields identical to that found in the university seal, linked together 16 times.

The front of the medallion depicts the university seal in full, and the back lists the name of the current president and the date of their inauguration. Each president keeps their medallion after retirement. For his 2010 inauguration, Dr. C. L. Max Nikias directed that two copies of the medallion be created: one to be worn by the president at appropriate events, the other to be displayed in the Office of the President. The display medallion includes the name of each of the past presidents of USC engraved on the links of its chain.

University Mace

The mace is a ceremonial scepter symbolizing the authority of the Office of the President. The president of the faculty has the honor of serving as mace bearer in all academic processions for commencements and other official university ceremonies.

The head of the mace depicts the university seal. Encircling the head of the mace is the hand-engraved inscription, "1880 University of Southern California." The names of the university's past presidents and the current president are engraved on the bowl. The crowning ornament is a depiction of the walled city of Troy. The mace is permanently displayed in the Office of the President.

The university mace was first used at the inauguration of President Norman Topping on Oct. 28, 1958. The mace was designed and crafted by the renowned master silversmith, USC alumnus and professor emeritus Hudson Roysler. The

Marshals' Batons

Designed for the inauguration of Dr. C. L. Max Nikias as 11th president of the university, a baton is carried by every marshal in the official procession. The batons are carved from walnut, with the university seal mounted in gold at the top. The fluted shape of the baton evokes the torch of learning, which is also found on the university seal.

At the University of Southern California, marshals are traditionally chosen from the ranks of the faculty to lead the student procession at New Student Convocation and Commencement. The university marshal and the president of the faculty march at the head of the procession.

Trustee Gowns

The cardinal robes of office worn by university trustees were designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration. Reminiscent of the university's doctoral gowns, the trustee robes feature red velvet front panels and chevrons on the sleeves. Bright gold piping outlines both the panels and the chevrons. Each of the front panels features an embroidered shield on the lapel, taken from the university seal.

The trustees wear a doctoral hood lined with USC's traditional gold satin with a cardinal chevron. The hood has a red velvet collar representing the university, in place of a faculty color representing a single discipline.

The university marshal wears a special gown that serves as a bridge between the trustee robes and the university's doctoral gown, with the university seal embroidered on the lapel.

ACADEMIC SYMBOLS OF THE UNIVERSITY

**Original University Seal**

The university's original seal was developed in 1884 to emboss the diplomas of the school's first graduating class. This seal depicted the year of USC's founding (1880) emblazoned on a scroll next to a palm tree (in heraldry, a symbol of righteousness and victory), with the name of the institution inscribed around the border.

**1908 Seal**

At the behest of university administrators in 1908, Jesse Ray Miller devised a new seal that introduced USC's official flower, the California poppy, a heraldic symbol of remembrance, hope, joy and growth. The seal also included a shield bearing a setting sun and three torches. In heraldic tradition, the torch symbolizes learning, and the three torches displayed here represented learning in the arts, the sciences and philosophy. The setting sun signified the West, and according to heraldic symbolism, power and life. Finally, enfolding the shield was a scroll displaying the university's new motto, "Palmam Qui Meruit Ferat." Freely translated, it means: "Let whoever earns the palm bear it."

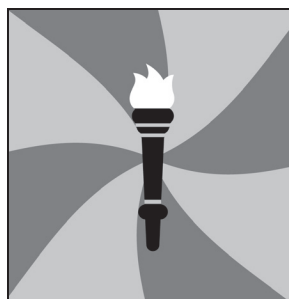

**Current Seal of the University of Southern California**

In 1948, the USC Board of Trustees approved an updated version of the university seal. In this version, the poppies appear next to the shield inside the outer band, which is now formatted as a scroll. The Latin motto is inscribed on a separate scroll at the base of the seal. This seal continues to be the imprimatur, or official signature, of USC to this day.

HERALDIC FLAGS

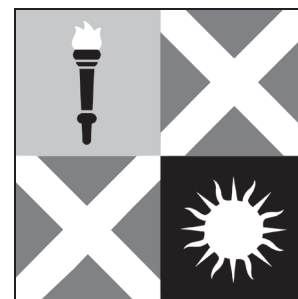

Originally designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration, heraldic flags for each academic degree-granting unit are displayed at commencements and other academic convocations. These flags, carried by students, precede the faculty in the procession. By a long-standing tradition, most academic disciplines have used an identifying color, which is displayed on academic hoods to indicate the subject area in which the wearer obtained the degree. These identifying academic colors are used in the banners of the various schools and divisions of the university.

Found in the university seal, the torch of knowledge is a clear and honorable symbol, well suited to an institution of higher learning, and is one of the charges on the university's official seal. The university seal also contains a sun. Known as a "sun in its splendor," it has a perimeter featuring alternating straight and wavy rays. The straight rays represent the light and the wavy rays the warmth and affection that the university extends to its students and community. The torch and the sun are used to unite these disciplines under the flag of the University of Southern California.

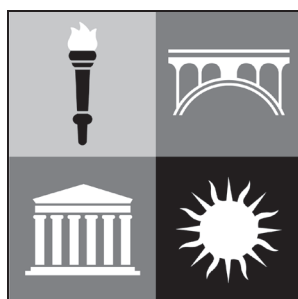

College of Letters, Arts and Sciences

Academic colors: white for letters, gold for sciences. The wide-ranging fields over which this college functions are symbolized by the intimate intertwining of letters, arts and sciences in the heraldic pattern known as "gyronny." The torch of knowledge serves as a reminder that the college is the academic heart of the university.

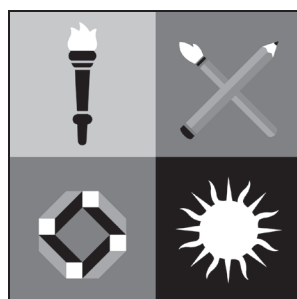

The Graduate School

Academic color: white for arts, gold for sciences, royal blue for the doctorate. In heraldry, the saltire (a corner-to-corner cross) symbolizes the wide range of disciplines over which this school presides and which the saltire unites in one unit.

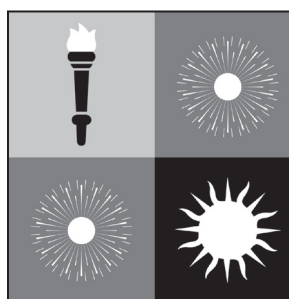

Architecture

Academic color: blue-violet. The Doric portico is used here as a symbol of beauty and proportions inspired by the early Greek architects, who continue to inspire the architect today. The modern bridge represents progress, connections and stability. The blue background, representing the sky, suggests the almost limitless scope of architecture.

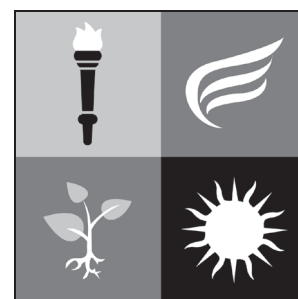

Art and Design

Academic colors: brown for arts, white for letters. Here the symbols reflect two important branches of art and design. The paintbrush and pencil symbolize fine arts, such as painting, drawing and sculpture. The abstract symbol, with its pixel-like design, reflects the emergence and evolution of digital arts.

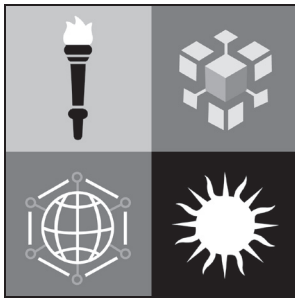

Arts, Technology and the Business of Innovation

Academic color: brown. The supernova, an astronomical event that occurs during stellar evolution causing the sudden appearance of a new, brighter star, represents the idea of disruption and the supreme energy exhibited by the founders and students of the academy. The flag's additional colors are described in heraldic language as metals: gold and bronze.

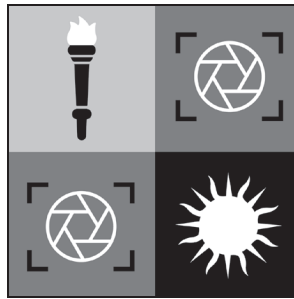

Bovard College

Academic color: white. The soaring sails symbolize confidence and agility in providing a student-centered approach to learning. The rooted plant is a symbol of the stability, growth and abundance of opportunity. Colors featured in the flag are rendered as metals—gold, silver and bronze—in traditional heraldic terms.

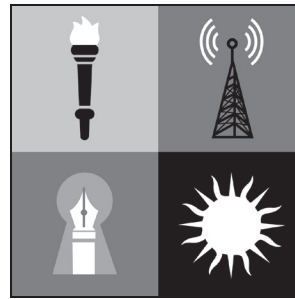

Business

Academic color: drab. The square figures that are symmetrically arranged on this flag are designed to symbolize the organizational characteristics of business in all its complexity. The interconnected sphere represents an enterprising and global approach to business.

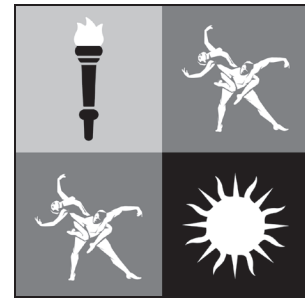

Cinematic Arts

Academic colors: brown for arts, white for letters. The six triangles represent the strength of the individual specialties, such as camera, editing, sound, writing, criticism and aesthetics, that form the larger discipline of cinematic arts. When combined, they form an aperture, at the center of which is the human eye, representing the mediation essential to the discipline.

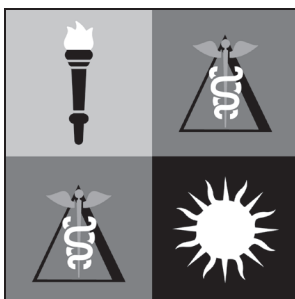

Communication and Journalism

Academic colors: crimson for communication, white for journalism. The three data waves emanating from the transmitter in both directions symbolize the fact that all communication has a threefold aspect—communicator, audience and medium—all of which are involved in the interplay and sharing of a message. The quill tip within the keyhole represents freedom of the press.

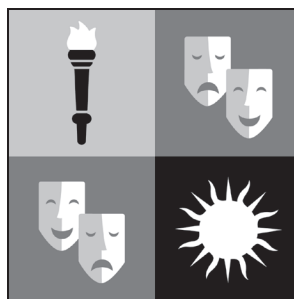

Dance

Academic color: amethyst. Dance is one of the oldest and most central expressions of humanity. The two interlocking figures represent creativity and innovation, and they capture the artistry of bodies in motion. The sun in its splendor represents the courage and power incumbent in authentic artistic creation, and white is the traditional heraldic color representing the arts and humanities.

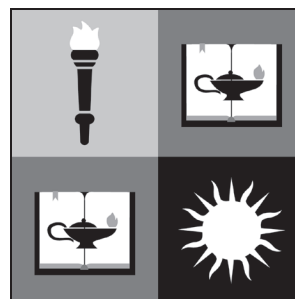

Dentistry

Academic color: lilac. Dentistry, like the other scholarly areas associated with health care, uses the traditional Asclepian staff and serpent—in this case, enclosed in a capital Greek letter, delta, an homage to the official emblem of dentistry.

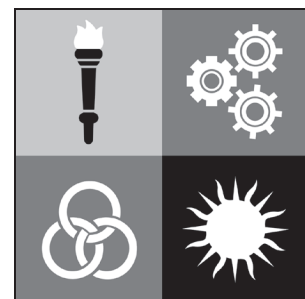

Dramatic Arts

Academic colors: brown for arts, white for letters. The classic emblem of comedy and tragedy is based on masks worn by actors in ancient Greek theater productions. They reflect not only the two main genres of the dramatic arts, but also the duality of the human experience.

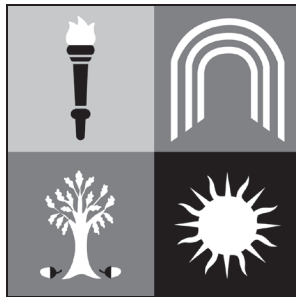

Education

Academic color: light blue. The book, illuminated by the lamp of learning, is a very widely used, traditional symbol for education, and occurs in many shields of arms. The flame from the torch of knowledge illuminates the tip of the lamp.

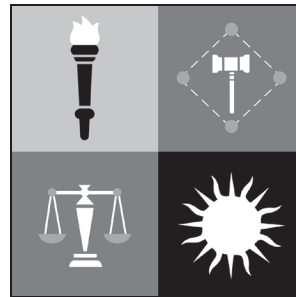

Engineering

Academic color: orange. The interlinked circles, inspired by the classic mathematical Borromean rings, join the cogs and gears in this flag to symbolize the way in which the profession of engineering interacts with math and the applied sciences to solve society's most pressing and wicked problems.

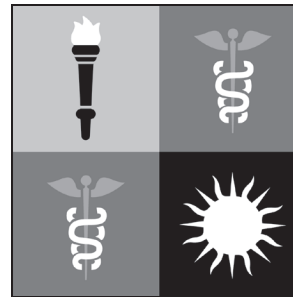

Gerontology

Academic color: white. The very characteristic architecture of this school is incorporated in the flag, along with the oak tree, symbolizing sturdiness and longevity, and acorns, representing the constant renewal of life.

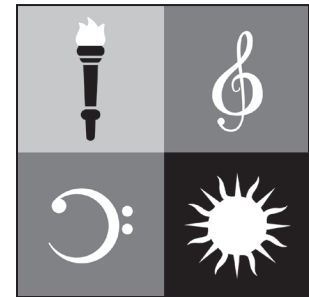

Law

Academic color: purple. The four points surrounding the gavel in this flag symbolize the levels at which the legal profession provides a bulwark and framework for our society: federal, state, county and local. The scales of justice reflect the fair and impartial balance sought by the law.

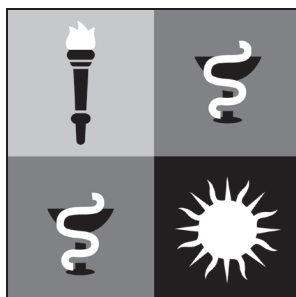

Medicine

Academic color: green. The staff of Asclepius, the Greek god of medicine, around which is entwined the harmless snake being the symbol of medicine for many centuries.

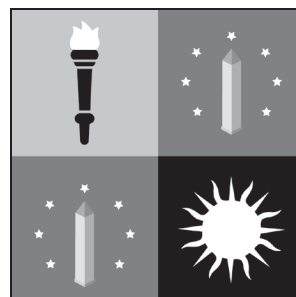

Music

Academic color: pink. Music is a universal means of communication between human beings, linking the past, present and future. The treble and bass clefs symbolize music expressed in all its forms and styles, vocal or instrumental.

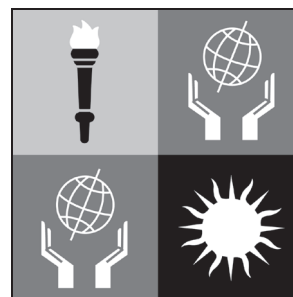

Pharmacy and Pharmaceutical Sciences

Academic color: olive. Pharmacy is symbolized by the bowl of Hygieia, the Greek goddess of health, coupled with the Asclepian serpent, showing the intrinsic relationship between pharmacy and medicine.

Public Policy

Academic color: peacock blue. The school's work is represented in triads, reflecting the intersection of three sectors, three levels of government, three locations and three levels of degree programs. The three shapes that come together to form the obelisk evoke those triads. The symbol of the obelisk surrounded by stars reflects structure, security and liberty.

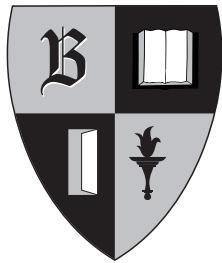

Social Work

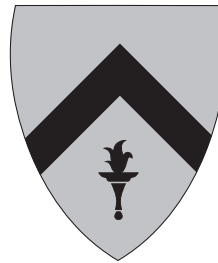

Academic color: citron. As symbolized by outstretched hands cradling the globe, social work by its very nature is about embracing our connections as human beings and inspiring the spirit of compassion and mutual respect that assists individuals and communities in reaching their full potential.

RESIDENTIAL COLLEGES

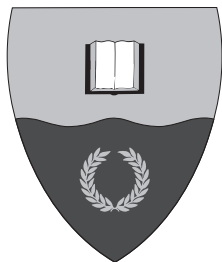

The University of Southern California transformed its first-year student housing into residential colleges in 2012, bringing special cultural programming, academic opportunities and mentoring from faculty members to many more students. Along with this shift, the university unveiled official crests to represent each of these new colleges. Some echo the history of the university and its architecture, whereas others evoke the emerging themes of these new communities. All 14 crests are anchored in USC's identity, echoing elements from the university's official seal and embracing cardinal and gold as their dominant tones.

**Birnkrant**

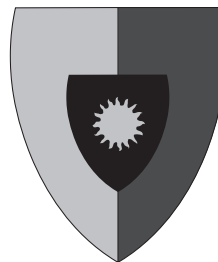

Dubbed “seven floors of open doors” for its social atmosphere, this college currently houses freshmen who are Trustee, Presidential and Mork Family scholars. The crest features a “B” for Birnkrant, the torch of knowledge, a book and an open door.

**Bohnett**

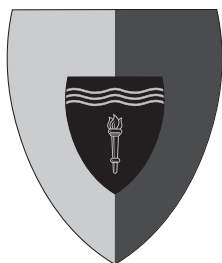

A community built around a core ideal of social action through entrepreneurship, this college embraces students seeking innovative solutions to social issues around the world. The torch of knowledge is framed by a chevron, a classic symbol of dutiful and benevolent service.

**Cale**

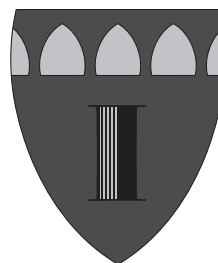

Home to scholars interested in global exploration, this community encourages cross-cultural interaction and critical dialogue regarding the ever-changing international landscape. Its symbols, the book and the wreath, reflect the exchange of ideas and triumph of humanity.

**Cowlings**

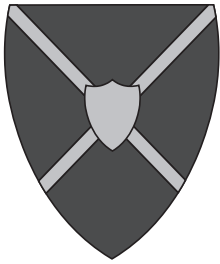

This college has arts and cultures as its thematic focus, with an emphasis on the wealth of cultural experiences at USC and throughout Los Angeles. Residents are inspired to awaken their inner cultural explorer, reflected by the sun in its splendor contained within the crest.

**Ilium**

A community for sophomore honors students, this college brings together scholars who share a commitment to rigorous intellectual and academic achievement. Its crest emphasizes the torch of knowledge, a classic symbol that has been part of the university's graphic identity since its inception.

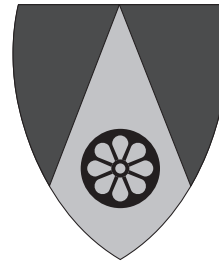

**Irani**

This college focuses on performance science; students living in this community explore their untapped potential in learning how to break down barriers inhibiting leadership, decision-making, resilience or creativity. The pillar reflects stability and strength of character, and the windows along the upper portion of the crest echo architectural details at USC Village.

McCarthy Honors

Endowed by the Thomas and Dorothy Leavey Foundation, this college provides a home for exceptional scholars. The crest's design is inspired by McCarthy Quad, which was named in honor of Leavey Foundation Chair Kathleen Leavey McCarthy '57.

McMorrow

This community is a bastion of innovation, encouraging scholars to embrace their passions for technology, science and design. Residents seek solutions to global challenges through creativity and novelty, a spirit emphasized in the crest's playful symbol.

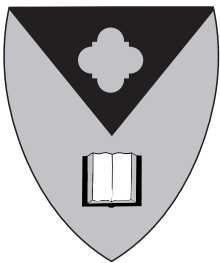

Nemirovsky

This college is home to students dedicated to sustainability and societal engagement. Its crest features the poppy, a symbol of growth and hope featured in the university seal, and pillars and a cornerstone, evoking the foundation of something lasting and monumental.

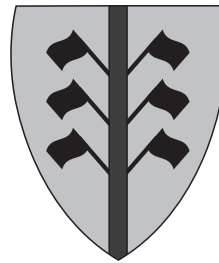

New North

This college is a hub of activity and combines two closely connected buildings. The crest's interlocking angles, a classic heraldic shape, symbolize a collaborative environment.

Parkside Arts and Humanities

This creative community is home to students of music, art and literature. It's known for its performance and practice spaces. The crest draws from the surrounding landscape of Mudd Hall and Hahn and Nazarian Pavilion.

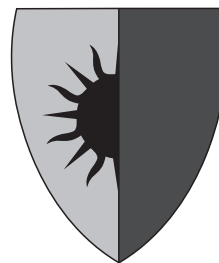

Parkside International

Global issues are a focus for this community, which brings together students from many nations. A display of flags on the crest represents the international traditions celebrated at the college.

South

Home to residents with a passion for social change, this community is represented by a compass rose, signifying exploration. The college includes two neighboring towers, Pardee and Marks, as well as the former Marks and Trojan halls.

West

West comprises Webb Tower and the former Fluor Tower. The college's crest shows two adjoining colors, with the sun setting to the west.

*HONORARY DEGREE***Frances Hamilton Arnold***Doctor of Science*

For her remarkable improvements to the sustainability of chemical processes, for her work's far-reaching economic impact and for her dedication to fostering scientific leadership in our society, the University of Southern California is proud to honor Frances Hamilton Arnold with the degree of Doctor of Science honoris causa.

As a trailblazing chemist and bioengineer, Frances Hamilton Arnold shows how science can build a more sustainable future for our planet. She pioneered directed evolution methods to craft enzymes for myriad applications in sustainable chemistry, a game-changing innovation that earned her the Nobel Prize in Chemistry. Her success has inspired her colleagues across the scientific community to join her in making entire industries cleaner, more efficient and less harmful to the environment.

Dr. Arnold's work is helping change the way we make everything from medicines and consumer products to fuels and chemicals. Her methods replicate processes of evolution that occur in nature—an approach that, as she has said, allows researchers to “breed molecules like you can breed cats and dogs.” This technology has been adopted by laboratories around the world, and has led to the creation of new enzymes that can replace toxic industrial chemicals or turn agricultural waste into greener biofuels, among many other advances.

For more than three decades, Dr. Arnold has mentored students and colleagues at the California Institute of Technology, where she is the Linus Pauling Professor of Chemical Engineering, Bioengineering and Biochemistry. In 2021, she was appointed co-chair of the President's Council of Advisors on Science and Technology by President Biden, a role in which she helps guide the science-based decision-making that takes place at the highest levels of our government. She has also co-founded three companies specializing in sustainable fuels and chemicals, and serves on the boards of numerous companies known for scientific innovation, including Alphabet and Illumina.

Dr. Arnold's breakthroughs have earned her much-deserved recognition from her peers around the world. Among her many honors, she has been elected to the National Academies of Sciences, Engineering, and Medicine—a distinction that very few can claim. She is also a member of the American Academy of Arts and Sciences, as well as the Pontifical Academy of Sciences of the Vatican. For her groundbreaking biochemistry research, she received the prestigious National Medal of Technology and Innovation from President Obama.

 HONORARY DEGREE

Kevin Feige

Doctor of Fine Arts

For his game-changing approach to cinematic storytelling, his historic success across a breadth of media realms and his efforts to build a more diverse and inclusive entertainment industry, the University of Southern California is proud to honor Kevin Feige with the degree of Doctor of Fine Arts honoris causa.

Kevin Feige is a visionary producer and studio executive responsible for bringing scores of fresh, compelling stories into our cultural canon—and bringing joy to billions around the world. As producer and president of Marvel Studios, he is the driving creative force behind several beloved film and television franchises and an unprecedented number of blockbuster feature films, all connected within the Marvel Cinematic Universe (MCU).

A hands-on creative collaborator, Mr. Feige oversees all of Marvel Studios' feature film productions, which include 32 releases that have opened number one at the box office. The MCU has collectively earned nearly \$30 billion worldwide, making it the highest-grossing film franchise of all time. His critically acclaimed projects include *The Avengers*, *Black Panther* and *Spider-Man: No Way Home*—films that unite and inspire people everywhere. Mr. Feige has continued to build on this success by developing a host of celebrated streaming series featuring Marvel characters, including *WandaVision* and *Loki*, among others.

The impact of Mr. Feige's iconic films and series extends to every corner of the entertainment business. He is a true champion of representation in the industry—onscreen in stories such as *Ms. Marvel* and *Shang-Chi and the Legend of the Ten Rings*, as well as in the opportunities he creates for talent in front of and behind the camera. His ever-expanding creative enterprise gives more and more people a chance to see themselves in their heroes, and helps bring real change that transcends his field and is passed down through generations.

Among his many accolades, Mr. Feige received a Best Picture Academy Award nomination for producing *Black Panther*. He is also a recipient of the David O. Selznick Achievement Award from the Producers Guild of America, as well as the Albert R. Broccoli Britannia Award for Worldwide Contribution to Entertainment from the British Academy of Film and Television Arts.

A graduate of the USC School of Cinematic Arts, Mr. Feige is a dedicated mentor and role model to Trojan students and alumni. The creativity of his work sparks their imaginations, and we see them carry that passion into the stories they tell—and will continue to tell—for years to come.

 HONORARY DEGREE

Dolores Clara Huerta

Doctor of Humane Letters

For her historic role in the American labor movement, her determined civil rights activism and her transformative legacy as a Latina advancing political and social change, the University of Southern California is proud to honor Dolores Clara Huerta with the degree of Doctor of Humane Letters honoris causa.

A lifelong champion of labor rights, social justice and the environment, Dolores Clara Huerta breaks barriers for women and immigrants, and lifts up individuals around the globe. She credits her love of service to her mother—a community-minded entrepreneur who opened her own restaurant—and to her participation in the Girl Scouts. In 1955, she met Fred Ross Sr., her mentor, while working for the Community Service Organization (CSO). As the CSO’s political director, she passed groundbreaking legislation that allowed any citizen to register another citizen to vote, and secured the right of legal immigrants to receive public assistance, among other important reforms.

Ms. Huerta and civil rights leader Cesar Chavez used similar grassroots organizing methods to establish the United Farm Workers (UFW). When grape workers went on strike in 1965, she directed the historic grape boycott and negotiated the first farm worker contract in history with the Schenley Corporation. She was also instrumental in the UFW’s efforts to pass the Immigration Reform and Control Act of 1986, which granted legal status to thousands of immigrants.

Ms. Huerta continues to develop leaders through her work as founder and president of the Dolores Huerta Foundation, where she trains future generations of change-makers. She coined the iconic slogan *¡Sí, se puede!*—“Yes, we can!”—and was the first Latina inducted into the National Women’s Hall of Fame, an honor that reflects her tireless advocacy for economic justice, political representation and reproductive rights, particularly for women of color. She is a legendary figure in activism, as she has been arrested many times—and suffered a beating by police in 1988—while fighting for civil rights.

In 1998, Ms. Huerta received the Eleanor Roosevelt Human Rights Award from President Clinton, and in 2012, she received our nation’s highest civilian honor—the Presidential Medal of Freedom—from President Obama. She is a recipient of the Mexican government’s Ohtli Award and Order of the Aztec Eagle, which honors those who have aided and empowered Mexican citizens living in the United States. Her numerous accolades also include the 12 schools and many streets named after her across our country.

Candidates for Degrees and Certificates

December 14, 2022 / May 12, 2023 / August 8, 2023

The University of Southern California has one commencement ceremony per year and provides a program listing all eligible candidates for that year. Only candidates who are eligible for graduation during the semesters listed above are published in the May commencement program.

Engineer

David Anthony Dozal, Electrical Engineering, B.S., M.S.,
California State Polytechnic University, Pomona

Master of Construction Management

Juan Clemente Aleman Chavez, B.A., University of California, Berkeley	Minh Le, B.S., B.A., University of Washington
Ashley Marie Brady, B.S., University of Southern California	Muzi Li, B.Engr., Wuhan Polytechnic University, China
Tianyou Dong, B.A., Southwest Jiaotong University, China	Jerald Mendoza, B.A., University of Southern California
Naixing Duan, B.A., Wuhan Huaxia University of Technology, China	Vamsidhar Reddy Patil, B.Engr., Visvesvaraya Technological University, India
Hsin Yu Huang, B.S., National Ilan University, Taiwan	Samuel Sunito, B.S., University of Southern California
Zihan Huang, B.A., Ningbo Institute of Technology, Zhejiang University, China	Kaichao Yan, B.Engr., Taiyuan University of Technology, China
Salamat Kozhakhmetov, B.Arch., L.N. Gumilyov Eurasian National University, Kazakhstan	Wenkai Yu, B.S., University of Houston

Master of Science

- Ahmed Mohamed Ibrahim Abdelraheem, Electrical Engineering, B.Engr., University of Sheffield, United Kingdom
- Yaseen Abduljawad, Mechanical Engineering, B.Engr., University of Salford, United Kingdom
- Omar Tareq Anees Abdullateef, Engineering Management, B.S., California State University, Long Beach
- Mohammad Saeed Abrishami, Computer Science, B.S., University of Tehran, Iran
- Harshith Raveendra Acharya, Computer Science, B.S., PES University, India
- Pooya Adami, Computer Science, B.S., Sharif University of Technology, Iran
- Pooya Adami, Civil Engineering, B.S., Sharif University of Technology, Iran
- Vaishnav Sai Krishna Addagulla, Computer Science, B.S., Jawaharlal Nehru Technological University, Hyderabad, India
- Sodiq Bidemi Adeniji, Aerospace Engineering, B.S., Purdue University
- Krishna Kamal Adidam, Electrical Engineering, B.Engr., Osmania University, India
- Naman Adlakha, Computer Science, B.S., Guru Gobind Singh Indraprastha University, India
- Phillip Carroll Adler, Computer Science, B.S., University of California, Irvine
- Anish Rajesh Adnani, Computer Science, B.Engr., Vivekanand Education Society's Institute of Technology, India
- Aishwarya Agarwal, Computer Science, B.S., Sardar Vallabhbhai National Institute of Technology, India
- Harsh Agarwal, Electrical Engineering, B.S., Dr. A.P.J. Abdul Kalam Technical University, India
- Kushal Agarwal, Computer Science, B.S., KIIT University, India
- Lavina Lavakumar Agarwal, Computer Science, B.Engr., Savitribai Phule Pune University, India
- Mahak Agarwal, Applied Data Science, B.S., VIT University, India
- Neeti Agarwal, Computer Engineering, B.S., Dr. A.P.J. Abdul Kalam Technical University, India
- Prashant Vibhor Agarwal, Computer Science, B.Tech., Dr. A.P.J. Abdul Kalam Technical University, India
- Shrishti Agarwal, Computer Science, B.S., KIIT University, India
- Tanay Agarwal, Computer Science, B.S., VIT University, India
- Anoushka Agrawal, Computer Science, B.S., Guru Gobind Singh Indraprastha University, India
- Bharat Jitendra Agrawal, Engineering Management, B.Engr., Savitribai Phule Pune University, India
- Ishita Agrawal, Computer Science, B.S., VIT University, India
- Karan Manojkumar Agrawal, Computer Science, B.S., VIT University, India
- Priyanshi Agrawal, Computer Science, B.Engr., Indus University, India
- Rahul Kumar Agrawal, Mechanical Engineering, B.S., VIT University, India
- Sejal Agrawal, Computer Science, B.Tech., National Institute of Technology Raipur, India
- Atharva Ajit Agwekar, Computer Science, B.Engr., University of Mumbai, India
- Trishala Jayesh Ahalpara, Applied Data Science, B.Engr., University of Mumbai, India
- Sohail Ahamed, Computer Engineering, B.Engr., Visvesvaraya Technological University, India
- Zeeshan Ahmad, Computer Science, B.Engr., PES University, India
- Jack Christopher Ahrens, Aerospace Engineering, B.S., University of Southern California
- Yuchen Ai, Analytics, B.S., Syracuse University
- Pragati Mallappa Ajanalkar, Computer Science, B.Engr., Walchand Institute of Technology, India
- Saman Akhtar, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Pranay Rajeev Reddy Akki, Engineering Management, B.S., Jawaharlal Nehru Technological University, Hyderabad, India
- Jerry Allan Akshay, Computer Science, B.Engr., Bangalore University, India
- Sai Sree Yoshitha Akunuri, Computer Science, B.S., Jawaharlal Nehru Technology University, India
- Majd Al Awar, Electrical and Computer Engineering, B.Engr., American University of Beirut, Lebanon
- Karim Al Sebaali, Computer Science, B.Engr., American University of Beirut, Lebanon
- Karthikeyan Alakappan, Electrical Engineering, B.Engr., Anna University, India
- Mohammad Alali, Computer Science, B.S., Embry-Riddle Aeronautical University, Florida
- Anirudh Alameluvari, Computer Science, B.S., Indian Institute of Technology – Madras, India
- Mohammed Lafi Alanazi, Electrical Engineering, B.S., King Saud University, Saudi Arabia
- Mohammed Mammon M Alasker, Petroleum Engineering, B.S., M.Engr., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Christian Javier Alcala, Computer Science, B.A., University of California, Berkeley
- Tyler Alcorn, Applied Data Science, B.S., Thomas Edison State University
- Mohammad Khaled Aldekheel, Civil Engineering, B.Engr., Kuwait University
- Mohammed Nassir Aldossary, Electrical Engineering, B.S., Southern Illinois University, Carbondale
- Mahmood Alfayoumi, Mechanical Engineering, B.S., University of Southern California
- Mariam M M N Alhammad, Civil Engineering, B.S., Loyola Marymount University
- Khalid Alharbi, Electrical and Computer Engineering, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Muhannad Salem Alharbi, Computer Science, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia

Master of Science (continued)

- Waleed Alhayaza, Systems Architecting and Engineering, B.S., Pennsylvania State University
- Rabia Ghulam Ali, Materials Engineering, B.S., University of Southern California
- Loic Plaisant Alini, Mechanical Engineering, B.S., University of Southern California
- Yazeed Aljarbua, Computer Science, B.S., King Saud University, Saudi Arabia
- Reem Mohammad Aljasir, Biomedical Engineering, B.S., Princess Nourah Bint Abdulrahman University, Saudi Arabia
- Basim Aljohani, Industrial and Systems Engineering, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Sai Praneeth Allaboina, Electrical and Computer Engineering, B.S., Jawaharlal Nehru Technological University, Hyderabad, India
- Abdullateef Almajed, Civil Engineering, B.S., California State University, Fullerton
- Reem A. Almijmaj, Applied Data Science, BASC, Qassim University, Saudi Arabia
- Lama Ibraheem Almofeez, Biomedical Engineering, B.S., Imam Abdulrahman Bin Faisal University, Saudi Arabia
- Fatima Almoosawy, Civil Engineering, B.S., California State University, Fullerton
- Abdulaziz Almulaifi, Chemical Engineering, B.S., University of Washington
- Denizhan Yanki Alper, Analytics, B.S., University of Southern California
- Hamad Alrefaie, Civil Engineering, B.S., San Diego State University
- Ziyad Mohammed Alsahlawi, Petroleum Engineering, B.S., Missouri University of Science and Technology
- Ahmed Alsalim, Applied Data Science, B.Engr., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Mohammed Alsayed, Computer Science, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Abdulla Ebrahim Alshabanah, Computer Science, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia; M.S., University of Southern California
- Mohammad Abdulaziz Alshehri, Computer Science, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia
- Ali Abdullah Altammar, Materials Engineering, B.S., University of Alabama, Tuscaloosa
- Abdulaziz F. Altawijri, Engineering Management, B.Engr., King Saud University, Saudi Arabia
- Raven Celeste Althouse, Environmental Engineering, B.S., Furman University
- Joshua Zane Altom, Astronautical Engineering, B.S., University of Oklahoma
- Michael David Alverson, Computer Science, B.S., University of Utah
- Surya Pranav Ambatipudi, Electrical Engineering, B.S., Jawaharlal Nehru Technological University, Hyderabad, India
- Terrence Omondi Amenya, Engineering Management
- Deep Prakash Amin, Computer Science, B.Engr., Maharaja Sayajirao University, Baroda, India
- Devarsh Nikundbhai Amin, Computer Science, B.Engr., Gujarat Technological University, India
- Himani Sunil Amrute, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Robert John Amzler, Astronautical Engineering, B.S., Arizona State University
- Di An, Electrical Engineering, B.Engr., Xi'an Jiaotong University, China
- Guangrui An, Industrial and Systems Engineering, B.S., Northeastern University
- Juanhua An, Electrical Engineering, B.Engr., Hebei University of Technology, China
- Ran An, Financial Engineering, B.A., Zhejiang University of Finance and Economics, China
- Zijian An, Financial Engineering, B.S., University of California, Irvine
- Rhea Anand, Computer Science, B.S., PES University, India
- Shaswat Anand, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Kristina Andreyeva, Astronautical Engineering, B.S., Columbia University
- Tomas Angelini, Electrical Engineering, B.S., University of Southern California
- Avi Lynn Anklesaria, Product Development Engineering, B.S., University of Southern California
- Aditya Raj Gokul Annasaram, Engineering Management, B.Engr., Osmania University, India
- Kruthi Balaji Annigeri, Chemical Engineering, B.S., University of Southern California
- Ziming Ao, Electrical Engineering, B.Engr., South China University of Technology
- Suraj Appemane Raghavendra, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Roupen Nareg Arabian, Mechanical Engineering, B.S., California State University, Northridge
- Samad Arastu, Astronautical Engineering, B.S., California State Polytechnic University, Pomona
- Iman Pasha Arfa-Zanganeh, Computer Science, B.S., University of Southern California
- Mohammed Arfan, Electrical Engineering, B.Engr., Visvesvaraya Technological University, India
- Nancy Arora, Computer Engineering, B.S., Nirma University of Science and Technology, India
- Hoovert A. Arredondo, Computer Science, B.S., University of the Andes, Colombia
- Armen Sevag Arslanian, Systems Architecting and Engineering, B.S., California State University, Northridge
- Harini Ashok, Computer Science, B.Engr., Anna University, India
- Mohit Ashwatha Narayana, Computer Engineering, B.Engr., Visvesvaraya Technological University, India

Master of Science (continued)

- Bhagya Sri Atukuri, Computer Science, B.S., National Institute of Technology – Calicut, India
- Fares Atwan, Electrical Engineering, B.S., University of Toledo
- Savitoj Singh Aulakh, Materials Engineering, B.S., VIT University, India
- Mohamad Awada, Computer Science, B.Engr., M.Engr., American University of Beirut, Lebanon
- Sofia Ayala Reyes, Financial Engineering, B.S., University of California, Merced
- Nayela Ayaz, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Mohammad Hesam Azadjou, Biomedical Engineering, B.S., Sharif University of Technology, Iran
- Zaki Ahmad Azizi, Mechanical Engineering, B.S., California State University, Sacramento
- Aakash Babu Asha, Electrical Engineering, B.Engr., Anna University, India
- Ashish Babu, Computer Engineering, B.Engr., Visvesvaraya Technological University, India
- Neema Rustin Badihian, Quantum Information Science, B.S., University of La Verne
- Andy Bae, Materials Engineering, B.S., University of California, Irvine
- Siddhant Bagga, Computer Science, B.Engr., University of Delhi, India
- Megha Bagri, Computer Science, B.S., Indira Gandhi Delhi Technical University for Women, India
- Riya Manish Bagul, Computer Engineering, B.S., Savitribai Phule Pune University, India
- Sagar Mahesh Bagwe, Computer Science, B.Engr., University of Mumbai, India
- Isha Ashish Bahendwar, Computer Science, B.Equiv., R.T.M. Nagpur University, India
- Chenxu Bai, Computer Science, B.Engr., Dalian University of Technology, China
- Chun Bai, Analytics, B.A., University of Illinois at Urbana-Champaign
- Yang Bai, Electrical Engineering, B.Engr., Shanghai University, China
- Yu Bai, Computer Science, B.S., Wuhan University of Technology, China
- Pranav Rameshwar Bairagi, Mechanical Engineering, B.Engr., Savitribai Phule Pune University, India
- Bela Bairy Ganapayya, Healthcare Data Science, B.Tech., PES University, India
- Stephen Thomas Baker, Astronautical Engineering, B.A., Lewis & Clark College
- Rojin Bakhti, Computer Science
- Prathmesh Jayant Bakshhi, Environmental Engineering, B.Equiv., SVKM's Narsee Monjee Institute of Management Studies, India
- Bidisha Das Baksi, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Rahul Rajesh Balaji, Electrical Engineering, B.Engr., Visvesvaraya Technological University, India
- Someshwar Balaraman, Computer Science, B.S., Manipal Academy of Higher Education, India
- Anna Kathryn Balbach, Product Development Engineering, B.S., University of Southern California
- Sanjana Baliga, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Vedaanti Baliga, Applied Data Science, B.S., Manipal University Jaipur, India
- Santoshi Rakshita Balivada, Computer Science, B.Tech., GITAM University, India
- Julius Max Ball-Heldman, Green Technologies, B.S., University of Southern California
- Kartik Balodi, Financial Engineering, B.S., University of Southern California
- Piyush Bamel, Computer Science, B.S., VIT University, India
- Yuhao Ban, Applied Data Science, B.S., San Diego State University
- Sairam Bandi, Computer Science, B.S., National Institute of Technology, Raipur, India
- Chakradhar Bandla, Electrical Engineering, B.Engr., Visvesvaraya Technological University, India
- Subham Banga, Computer Science, B.S., Guru Gobind Singh Indraprastha University, India
- Gururaju Bangalore Puttaraju, Electrical Engineering, B.Engr., Visvesvaraya Technological University, India
- Priya Santosh Bannur, Computer Science, B.Tech., MIT-World Peace University, India
- Humera Bano, Computer Science, B.S., Guru Gobind Singh Indraprastha University, India
- Raghav Bansal, Computer Science, B.S., Sardar Vallabhbhai National Institute of Technology, India
- Rishibha Bansal, Computer Science, B.S., Lovely Professional University, India
- Lingfan Bao, Mechanical Engineering, B.Engr., Nanjing Tech University, China
- Qianzhi Bao, Analytics, B.B.A., Macau University of Science and Technology
- Tina Yunzhi Bao, Electrical Engineering, B.S., University of Southern California
- Zeyi Bao, Communication Data Science, B.S., Boston University
- Hussain Baqer, Civil Engineering, B.S., Oklahoma State University
- Aarti Deepnarayan Barai, Computer Science, B.S., National Institute of Technology – Warangal, India
- Utkarsh Baranwal, Computer Science, B.Engr., Thapar University, India
- Joseph Anakin Barber, Aerospace Engineering, B.S., University of Minnesota, Twin Cities
- Chaitanya Hanmant Barkate, Engineering Management, B.Engr., Pandit Deendayal Petroleum University, India
- Joy Terence Barnes, Computer Science, B.Engr., Visvesvaraya Technological University, India

Master of Science (continued)

- Maria Guadalupe Barrera Valdez, Applied Data Science, B.S., University of California, Los Angeles
- Timothy James Barrow, Mechanical Engineering, B.S., Loyola Marymount University
- Ali Basirattalab, Chemical Engineering, B.S., Sharif University of Technology, Iran
- Aratrika Basu, Applied Data Science, B.S., West Bengal University of Technology, India
- Param Batavia, Computer Science, B.S., University of Mumbai, India
- Yerkebulan Bauyrzhanov, Applied Data Science, B.S., L.N. Gumilyov Eurasian National University, Kazakhstan
- Brandon Keith Beamon, Astronautical Engineering, B.S., San Diego State University
- Orkun Bedir, Electrical and Computer Engineering, B.S., Bilkent University, Turkey
- Harshali Sandeep Bedmutha, Computer Science, B.Engr., Savitribai Phule Pune University, India
- Kaustubh Kumarpal Bedmutha, Computer Science, B.Equiv., M.S., Savitribai Phule Pune University, India
- Monica Beth Beeferman, Mechanical Engineering, B.S., Northwestern University
- William G. Behenna II, Electrical Engineering, B.S., University of Southern California
- Elizabeth Parker Bellon, Aerospace Engineering, B.S., University of Southern California
- Rohit Pratapa Bernard, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Omar Berra, Mechanical Engineering, B.S., Al Akhawayn University, Morocco
- Jordan Mark Bettencourt, Computer Science
- Eshan V. Bhagat, Electrical Engineering, B.Engr., Savitribai Phule Pune University, India
- Abhilash Bhaktarahalli Subramanya, Computer Science, B.Engr., Visvesvaraya Technological University, India
- Atush Bhalla, Computer Science, B.S., University of Arizona
- Aditya Bharadwaj, Computer Science, B.S., PES University, India
- Ajay Ashok Bharadwaj, Computer Engineering, B.Engr., Visvesvaraya Technological University, India
- Varun Bharadwaj, Computer Science, B.S., PES University, India

Doctor of Philosophy

Mohammad Saeed Abrishami, Electrical Engineering, B.S.,
University of Tehran, Iran
Arian Aghilinejad, Mechanical Engineering, B.S., Sharif
University of Technology, Iran
Dissertation: Impact of Aortic Dynamic Modes on Heart
and Brain Hemodynamics for Advanced Diagnostics and
Therapeutics
Monira Al Rakhis, Economics, B.A., M.A., Kuwait University;
M.A., University of Southern California
Sarah Al-Hussaini, Computer Science, B.S., Bangladesh
University of Engineering and Technology; M.S., University of
Southern California
Dissertation: Automated Alert Generation to Improve
Decision-Making in Human Robot Teams
Nada Ibrahim A Aldarrab, Computer Science, B.S.,
King Abdulaziz University, Saudi Arabia; M.S., University of
Southern California
Ramin Ali Marandi Ghoddousi, Neuroscience, B.A./B.S.,
University of California, Davis
Dissertation: Pleiotropic Influences on Cell Type
Heterogeneity in the Developing Forebrain and Hindbrain
Elmar Raufovich Aliyev, Health Economics, B.S., University of
California, Santa Barbara
Dissertation: Crohn's Disease: Health Outcomes and
Resources Utilization in the Biologic Era
Maria Allayioti, Applied Mathematics, B.S., University of
Cyprus; M.S., University of Southern California
Dissertation: M-estimation and Non-Parametric Estimation
of a Random Diffusion Equation-Based Population Model
for the Transdermal Transport of Ethanol: Deconvolution and
Uncertainty Quantification
Joshua James Allbright, Classics, B.A., Boston University; M.A.,
University of Southern California
Aleique Allen, Chemistry, B.S., Mercyhurst University
Dissertation: Investigation of the Role of DNA Physical
Property on Target Discrimination by CRISPR-Cas12a

Nikita Allgire, Comparative Studies in Literature and Culture,
B.A./B.A., Indiana University, Bloomington
Ian Axel Anderson, Psychology, B.A., Swarthmore College; M.A.,
University of Southern California
Quinn Anex-Ries, American Studies and Ethnicity, B.A., Smith
College; M.A., University of Southern California
Dissertation: Revolution or Regulation? Technology, Federal
Policy, and the Politics of Sexuality in Postwar America
Claire Elizabeth Arata, Development, Stem Cells and
Regenerative Medicine, B.A., University of California,
Santa Barbara
Dissertation: Lifelong Cartilage Regeneration in Zebrafish
Cruz Alberto Arroyo III, English, B.A., Haverford College
Dissertation: I Can't Make This Stuff Up: Fictionality,
Autobiography, and Deviance in American Stand-Up Comedy
Aykut Arslan, Applied Mathematics, B.S., M.S., Middle East
Technical University, Turkey
Dissertation: Matching First Two Moments Can Suffice for
Knockoffs
Mojgan Asadi, Chemistry, B.S., CUNY – New York City College
of Technology
Thomas Stuart Ash, Economics, B.S., M.S., London School of
Economics and Political Science, United Kingdom
Kendra Myers Atkin, Comparative Studies in Literature and
Culture, B.A., New York University; M.A., Lund University,
Sweden; Grad.Cert., M.A., University of Southern California
Abra Atwood, Geological Sciences, B.A., Middlebury College
Dissertation: Critical Zone Response to Perturbations: From
Mountain Building to Wildfire
Romil Audhkhasi, Electrical Engineering, B.Eng., Indian
Institute of Technology – Delhi, India
Dissertation: Microphotonics for Tailored Infrared Emission
and Secure Data Encryption

Doctor of Philosophy (continued)

- Brendan Avent, Computer Science, B.S., Virginia Polytechnic Institute and State University
Dissertation: Practice-Inspired Trust Models and Mechanisms for Differential Privacy
- Elizabeth Shimere Avent, Gerontology, B.A., M.A., Georgia State University
- Brian Barch, Physics, B.S., M.S., University of California, Berkeley
Dissertation: Operator Scrambling and Entanglement in Non-Hermitian Quantum Systems
- Aida Bareghamyan, Neuroscience, B.S., University of Southern California
- Colby Barrett, Chemistry, B.S., University of Kansas
- Kaylan Sheree Baxter, Urban Education Policy, B.A., Wake Forest University; M.A., Teachers College, Columbia University
Dissertation: Institutional Research: A Racialized Profession
- Nicholas Guy Beck, English, B.A., M.A., Queen Mary University of London, United Kingdom; B.A., Cambridge University, United Kingdom
Dissertation: Clique Modernism: Coterie Aesthetics in Midcentury America
- Cynthia Monique Begay, Preventive Medicine, B.S., University of California, San Diego; M.P.H., San Diego State University
Dissertation: A Mixed-Methods Approach Examining Cancer Disparities Among American Indians and Alaska Natives in California
- Mariel Seanne Mercado Bello, Psychology, B.S., University of California, Riverside; M.A., University of Southern California
Dissertation: Effects of Mint, Menthol, and Tobacco-flavored E-cigarettes on Appeal and Sensory Effects, Tobacco Withdrawal, and the Relative Reinforcing Value of Menthol Cigarettes in Menthol Smokers: A Laboratory Study
- Michael Anthony Benitez, English, B.A., University of California, Los Angeles; M.A., California State University, Long Beach
Dissertation: Shakespeare's Archive-in-Action: Queer Futurity in Shakespeare's Plays
- Joshua Eugene Berlind, Development, Stem Cells and Regenerative Medicine, B.A., University of Chicago
Dissertation: Identification of Therapeutic Targets in Human Cerebral Brain Organoid Models of Neurodegeneration
- Xiaopeng Bian, Geological Sciences, B.S., M.S., Nanjing University, China
Dissertation: The Marine Biogeochemistry of Nickel Isotopes
- Christopher Michael Birmingham, Computer Science, B.S., Gonzaga University; M.S., University of Southern California
Dissertation: Multiparty Human-Robot Interaction: Methods for Facilitating Social Support
- Susan Rebekah Subrahmanyam Bissmeyer, Biomedical Engineering, B.S., Master's University and Seminary; M.S., University of Southern California
- Corey David Blanchard, History, B.A., M.A., University of New Hampshire
- Diana Petrova Bojanova, Geological Sciences, B.A., B.S., University of Chicago
- Maria Bolshakova, Preventive Medicine, B.S., University of Florida
Dissertation: A Multi-System Evaluation of Medication for Opioid Use Disorder for People Who Use Opioids
- Alessandra Bonazzi, Engineering, B.Engr., M.Engr., University of Trento, Italy
Dissertation: On the Transport Dynamics of Miscible Fluids in Porous Media Under Different Sources of Disorder
- Clement Boulle, Economics, M.S., Ecole Normale Supérieure Paris-Saclay, France
- Grant Evan Bowling, Mathematics, B.S., University of Michigan, Ann Arbor
Dissertation: Characters of Flagged Schur Modules and Compatible Slides
- Samuel Joseph Boyssel, Economics, B.A., University of California, Los Angeles; M.S., Tufts University
- Charles Bramlett, Development, Stem Cells and Regenerative Medicine, B.S., University of California, Davis; M.S., University of Southern California
Dissertation: Deciphering Heterogeneity of Preleukemic Clonal Expansion
- Juan Ivan Bravo, Biology of Aging, B.S., Yale University
Dissertation: A Computational Approach for the Identification of Novel L1 Transcriptional Regulators
- Adam J. Bregman, Music, B.M., Indiana University, Bloomington
- James Bridgeforth, Urban Education Policy, B.A., Georgia College and State University; M.Ed., University of Georgia
Dissertation: Doing the Business of the District: K-12 School Boards and Racial Crisis Leadership
- Helena Bugacov, Development, Stem Cells and Regenerative Medicine, B.A., University of California, Berkeley
Dissertation: A Deep Dive into Mechanistic Interactions of Wnt Signaling and Cell Behaviors in the Self-renewal and Induction of Nephron Progenitors at the Outset of Mammalian Nephrogenesis
- Elizabeth Burner, Preventive Medicine, B.A./B.S., University of California, San Diego; Grad.Cert., M.S., University of Southern California; M.P.H., University of California, Los Angeles
Dissertation: Addressing Unmet Needs and Harnessing Social Support to Improve Diabetes Self-Care Among Low-Income, Urban Emergency Department Patients with Diabetes
- Conscience Princess Bwiza, Biology of Aging, B.S., California Baptist University
- Cecilia Caballero, American Studies and Ethnicity, B.A., University of California, Berkeley
Dissertation: Porque Sin Madres No Hay Revolution: Spirituality, Gender, and Chicana M(other) work in Chicana Literature and Cultural Production
- Shanshan Cai, Biomedical Engineering, B.Engr., Jilin University, China; Grad.Cert., M.S., M.S., University of Southern California

Doctor of Philosophy (continued)

- Yang Cai, Electrical Engineering, B.Engr., Tsinghua University, China
Dissertation: Efficient Delivery of Augmented Information Services over Distributed Computing Networks
- Andres Camarena, Neuroscience, B.S., University of California, Irvine
Dissertation: Did You Get All That? Encoding of Amplitude Modulations at the Auditory Periphery Predicts Hearing Outcomes
- Emily Campi, Occupational Science, B.S., Santa Clara University; M.A., University of Southern California
Dissertation: Examining Parent Responsiveness to Sensory Reactivity and Regulation Cues of Infants with Developmental Risk Factors
- Valeria Lucia Cardenas, Gerontology, B.A., Marquette University; MASM, University of Southern California
Dissertation: Exploring End-of-Life Care Experiences and Disparities Among Hispanic Populations in the United States
- Jonathan Castillo, Cancer Biology and Genomics, B.S., University of California, Los Angeles
Dissertation: LINC00261 Alters DNA Repair and Confers Resistance to Cisplatin Independent of FOXA2 in Lung Adenocarcinoma
- Silvia Angelica Cervantes Cortes, Medical Biophysics, B.S., California State University, Long Beach; M.S., University of Southern California
- Colin Graham Cess, Biomedical Engineering, B.S., State University of New York at Buffalo
- Melissa Ann Chadburn, Literature and Creative Writing, B.A., New College of California; M.A., Antioch University Los Angeles
Dissertation: Enchanted Opacities
- Suraj Chakravarthi Raja, Electrical Engineering, B.Tech., SRM University, India
Dissertation: Marionette: A Neurobotic Toolchain for the Real-time Neuromorphic Control of Tendon-Driven Systems
- Aaron Chan, Computer Science, B.S., University of Maryland, College Park; M.S., University of Pennsylvania
Dissertation: Generating and Utilizing Machine Explanations for Trustworthy NLP
- Ho-Chun Herbert Chang, Communication, B.A., Dartmouth College; M.S., University of Edinburgh, United Kingdom; M.A., University of Southern California
Dissertation: Improving Information Diversity on Social Media
- Constantin Charles, Business Administration, B.S., Ludwig Maximilian University of Munich, Germany; M.A., University of St. Gallen, Switzerland
Dissertation: Essays on the Effect of Cognitive Constraints on Financial Decision-making
- Dake Chen, Electrical Engineering, B.Engr., Beijing University of Posts and Telecommunications, China; B.S., Queen Mary University of London, United Kingdom; M.S., University of Southern California
Dissertation: Attacks and Defense on Privacy of Hardware Intellectual Property and Machine Learning
- Hsu-Yu Chen, Medical Biology, B.S., National Cheng Kung University, Taiwan; M.S., National Taiwan University; M.S., University of Southern California
Dissertation: Pseudotyped Viral Vectors: HIV Gene Therapy Applications and Basic Studies of SAR-COV-2
- Huandong Chen, Materials Science, B.S., Dalian University of Technology, China; M.S., University of Southern California
Dissertation: Transport Studies of Phase Transitions in a Quasi-1D Hexagonal Chalcogenide
- Hung-Jhen Chen, Development, Stem Cells and Regenerative Medicine, B.S., National Yang-Ming University, Taiwan; M.S., National Taiwan University
Dissertation: Nr5a2 Establishes Neural Crest Multipotency for Diverse Ftes in the Jaw
- Liting Chen, Pharmaceutical Sciences, B.S., Jiangsu University, China; M.S., University of Southern California
Dissertation: Role of the ATAD3A in the Progression of Non-alcoholic Fatty Liver Disease
- Liyu Chen, Computer Science, B.S., Hong Kong University of Science and Technology
Dissertation: Understanding Goal-Oriented Reinforcement Learning
- Christopher Chien, American Studies and Ethnicity, B.Edu., B.A./B.A., University of Toronto, Canada; M.A., Loyola Marymount University; M.A., University of Southern California
Dissertation: New Cold War Visuality: U.S., China, and Hong Kong Entanglement in the Cold War Transpacific
- Vamsikrishna Divyateja Chinta, Mechanical Engineering, B.Engr., National Institute of Technology – Calicut, India; M.Engr., Indian Institute of Science, India; M.S., University of Southern California
Dissertation: Reconstruction and Estimation of Shear Flows using Physics-based and Data-driven Models
- Hayun Cho, East Asian Languages and Cultures, B.A., Yale University; M.A., University of Southern California
Dissertation: Testimonial Emotions: Witnessing and Feeling the 1990s in South Korean Women's Literature and Film
- Elizabeth Choi, Occupational Science, B.A., University of California, Los Angeles; M.S., University of Arizona
Dissertation: Investigating Sociocultural Influences on the Early Caregiving Environment and Likelihood of Autism
- Suk Young Choi, Communication, B.A., M.A., Seoul National University, South Korea; M.A., University of Southern California
Dissertation: When You Can't Trust Your Own Eyes: Deepfakes and Metacognitive Experiences in Manipulative AI-Mediated Communication

Doctor of Philosophy (continued)

- Ukjin Choi, Development, Stem Cells and Regenerative Medicine, B.S., Ajou University, South Korea; M.S., University of Southern California
Dissertation: Defining the Circuits and Mechanisms Mediating a Pacemaker-Controlled Behavior in *C.elegans*
- Soyoon Choo, Urban Planning and Development, B.A., Ewha Womans University, South Korea; M.P.A., University of Southern California
Dissertation: Just Artist: Socially Engaged Artists and Just City Agendas in Seoul, South Korea
- Alisha Niki Chou, Epidemiology, B.A., University of California, Berkeley
Dissertation: Utility of Polygenic Risk Score with Biomarkers and Lifestyle Factors in the Multiethnic Cohort Study
- Nina Caitlin Christie, B.A., University of California, Los Angeles; M.A., University of Southern California
Dissertation: The Interplay Between Social Connection and Substance Use
- Alvin Yano Chuan, Comparative Studies in Literature and Culture, B.S., University of California, San Diego; M.A., University of Southern California
Dissertation: Colonial Ventures: The Poetics of Migration, Colonization, and Labor in Francophone North America
- Serban Ciotlos, Biology of Aging, B.Engr., University of California, Santa Cruz
- Lillian Mary Clark, Electrical Engineering, B.S., Massachusetts Institute of Technology; M.S., University of Southern California
Dissertation: Remote Exploration with Robotic Networks: Queue-aware Autonomy and Collaborative Localization
- Samantha Elyse Cohen, Literature and Creative Writing, B.A., University of Wisconsin – Madison; M.F.A., California Institute of the Arts
Dissertation: Becoming Multiple: Cyborg Aesthetics and the Inversion of Horror
- Christina Cole, Physics, B.S., Tulane University
Dissertation: Electronic, Electrochemical, and Spintronic Characterization of Bacterial Electron Transport
- Haolin Cong, Electrical Engineering, B.Engr., Beijing University of Posts and Telecommunications, China; M.S., University of Southern California
- Grace Taryn Converse, Art History, B.A., Bard College; M.A., State University of New York – College at Purchase; M.A., University of Southern California
Dissertation: Making Belief: Art, Theosophy, and the Creative Production of Truth, 1875-1945
- Brendon Hunter Cooper, Computational Biology and Bioinformatics, B.S., University of California, Davis
Dissertation: Improved Methods for the Quantification of Transcription Factor Binding Using SELEX-seq
- Matthew William Coopilton, Urban Education Policy, B.A., Brown University; M.T.S., University of Notre Dame; M.A.T., Seattle Pacific University
Dissertation: Critical Game Literacies and Afrofuturist Development
- Kameron Joshua Copeland, Cinema and Media Studies, B.F.A., M.A., Valdosta State University; B.A., Savannah State University; M.A., Savannah College of Art and Design
- Claire Crawford, Political Science and International Relations, B.A., George Washington University; M.A., Georgetown University
Dissertation: Hum So the Devil Doesn't Hear You: Southern Black Rural Existences as Otherwise
- Alison Taveau Cribb, Geological Sciences, B.A., Vanderbilt University
Dissertation: The Geobiological Role of Bioturbating Ecosystem Engineers during Key Evolutionary Intervals in Earth History
- Petrina Crockford, Literature and Creative Writing, B.A., Yale University; M.F.A., Johns Hopkins University
Dissertation: Writing the Body: Illness and Health in Jean Stafford's Fiction
- Andrew Xavier Cruz, Biology of Aging, B.S., California State University, Long Beach
Dissertation: Coenzyme A Binding Sites Induce Proximal Acylation
- Chen Cui, Astronautical Engineering, B.Engr., Beihang University, China; M.S., M.S., University of Southern California
- Haoyi Cui, Clinical and Experimental Therapeutics, B.S., Huaqiao University, China; M.S., University of Southern California
Dissertation: Effects of Chemicals on Juvenile Testes, focusing on Macrophages and Spermatogonia
- Jelena Culibrk, Cinema and Media Studies, B.A., B.A., University of Arts in Belgrade, Serbia; M.A., University College London, United Kingdom
Dissertation: Screening the Invisible Hand: State-Sponsored Documentary Media, (Neo)Liberalism, and the Riddle of Politics, 1918-1980
- Alexander Thomas Czaja, Biomedical Engineering, B.S., Boston University; M.S., University of Southern California
- Yannick Darmon, Biokinesiology, B.S., Ecole de Kinesithérapie de Paris (ADERF), France; M.S., Université Paris 5 René Descartes, France
Dissertation: Exploring Control of Interaction Torques in Stroke Survivors
- Pratyusha Das, Chemistry, B.Equiv., Indian Institute of Technology – Madras, India
Dissertation: Design of Dioxythiophene Conducting Polymers as Electrode Binders in Lithium-Ion Batteries

Doctor of Philosophy (continued)

- Agnimitra Dasgupta, Civil Engineering, B.Engr., M.Engr., Indian Institute of Science, India; B.Engr., Jadavpur University, India; M.S., University of Southern California
Dissertation: Model Falsification: New Insights, Methods and Applications
- Gourav Datta, Electrical Engineering, B.Tech., Indian Institute of Technology – Kharagpur, India
- Madhumanti Datta, Linguistics, M.A., University of Southern California
Dissertation: Subject and Adjunct Island Effects through the Lens of Selective Opacity in Bangla Subjects and Adjuncts
- Kurt Wyatt Daum, Urban Planning and Development, B.A., University of Miami
Dissertation: The Image of the (Virtual) City: Unpacking the Motives and Geographies of Queer Virtual World Users in VRChat
- Andrew Dawson, Psychology, B.S., University of San Diego; M.A., University of Southern California
Dissertation: Classroom Are Game Setting: Learning Through and With Play
- Steven Alexander De La Torre, Preventive Medicine, B.S., California State Polytechnic University, Pomona; M.P.H., University of Southern California
Dissertation: Engagement with Digital Behavior Change Interventions: Dynamics, Dimensions, and Data
- Ashley Nicol Del Dosso, Development, Stem Cells and Regenerative Medicine, B.S., San Francisco State University
- Daniel David Depew, Astronautical Engineering, B.S., M.S., M.S., University of Southern California
- Tara-Marie Kirsten Desruisseaux, Urban Education Policy, B.A., Duke University
Dissertation: Culturally Relevant Pedagogy in Khan Academy's Algebra 1 Course
- Susan Helen Dexter, Urban Planning and Development, B.A., University of California, San Diego
Dissertation: Cradle-To-Grave Life Cycle Assessment and Operational Impact Analysis of Zero-Emission Heavy-Duty Trucks
- Sourav Dey, Chemistry, B.Equiv., Indian Institute of Technology – Kanpur, India
- Mattia Di Niro, Chemistry, B.S., Brigham Young University, Idaho
- Graham Thomas DiGuseppi, Social Work, B.S., University of Central Florida; M.S., Brown University
Dissertation: Homelessness and Substance Use Treatment: Using Multiple Methods to Understand Risks, Consequences, and Unmet Treatment Needs Among Young Adults
- Yukun Ding, Economics, B.S., Sun Yat-sen University, China
- Harrison Diskin, History, B.A., Florida State University; Grad.Cert., University of Southern California
Dissertation: Making Manhattan: Sovereignty, Material Culture, and the Politics of Place, 1614-1664
- Bridgette Do, Preventive Medicine, B.S., M.P.H., University of Southern California
Dissertation: Investigating the Associations of Affective Variability and Physical Activity Among Young Adults Using Ecological Momentary Assessment
- Tu Mai Anh Do, Computer Science, B.Engr., Vietnam National University
Dissertation: Optimizing Execution of In Situ Workflows
- Van Do, Chemistry, B.S., California State University, Fullerton
Dissertation: Hydrogen Energy System: Production, Transportation, and Storage via Iridium-based Catalysts
- Caitlin Joy Dobson, Communication, B.A., Michigan State University; M.P.D., M.A., University of Southern California
Dissertation: Multiple Perpetrator Rape: A Critical Intersectional Study of Media and Sexual Violence
- Maria Dominguez Perez, Political Science and International Relations, B.A., Universidad Complutense de Madrid, Spain
- Matthew Gasich Domnauer, Biology of Aging, B.S., University of California, Santa Cruz
Dissertation: Novel Adaptations of the Yeast Proteome to Persistent Environmental Stress
- Erin Kaye Donahue, Neuroscience, B.A., Hamilton College
Dissertation: The Contribution of Perivascular Spaces to Parkinson's Disease Pathophysiology
- Reed Douglas, Business Administration, B.A., B.S., University of California, Los Angeles
Dissertation: Essays in Asset Demand: Dividends, Institutions, and Price
- Eliot Jean Dunn, English, B.A., University of California, Irvine; M.A., University of Virginia
Dissertation: "A Door, an Exit, a Way Out": Trans*Temporality in Hybrid Media
- Zachary Spencer Dunn, Chemical Engineering, B.S., University of California, Riverside; M.S., University of Southern California
Dissertation: Enhancing the Solid Tumor Efficacy of Cell Therapies
- Shubir Dutt, Psychology, B.A., University of California, Berkeley; M.A., University of Southern California
Dissertation: The Role of the Locus Coeruleus in Alzheimer's Disease and Cerebrovascular Function: Insights from Neuroimaging, Neuropsychology, and Biofluid Markers
- Arnab Dutta, Urban Planning and Development, M.S., Indian Statistical Institute, India
Dissertation: Essays on Internal Migration and Housing Markets of Urban India
- Debjani Dutta, Cinematic Arts, B.Equiv., M.Phil., Jawaharlal Nehru University, India
- Brenda Eap, Biology of Aging, B.S., California State University, Los Angeles
- Mark Stephen Ebert, Mathematics, B.A., University of California, Berkeley
Dissertation: The Structure and Higher Representation Theory of Odd Categorified $sl(2)$

Doctor of Philosophy (continued)

- Sarah Ashley Cueva Egan, Political Science and International Relations, B.A., University of Southern California; M.A., Columbia University
Dissertation: Identity Salience and Political Violence: Centering Social Identity in the Study of Intrastate Violence
- Henry Drew Ehrhard, Mathematics, B.A., Grinnell College
Dissertation: Colors, Kohnert's Rule, and Flagged Kostka Coefficients
- Taylor D. Enoch-Stevens, Urban Education Policy, A.B., Dartmouth College
Dissertation: Defunding School Resource Officers: A Multi-Case Examination of District Reallocation Strategies
- Juan Andres Espinosa Torres, Economics, B.A., M.A., Pontifical University Javeriana, Colombia; M.A., University of Southern California
- Natalya Corwin Evans, Ocean Sciences, B.S., Harvey Mudd College
Dissertation: Discerning Local and Long-range Causes of Deoxygenation and their Impact on the Accumulation of Trace, Reduced Compounds
- John Ezaki, Urban Education Policy, B.A., University of California, Berkeley
Dissertation: The Importance of WHY: Teachers' Knowledge of Students' Misunderstandings and its Relation to Student Achievement
- Karim Alfonso Fajury, Economics, B.S., University of the Andes, Colombia
- Gregory Michael Faletto, Business Administration, B.A., Washington University in St. Louis
Dissertation: Leveraging Sparsity in Theoretical and Applied Machine Learning and Causal Inference
- Yue Fang, Economics, B.A., Peking University, China; M.A., University of Southern California
- James Timothy Farmer, Physics, B.S., Georgia Institute of Technology
Dissertation: Bogoliubov Quasiparticles in Andreev Bound States of Aluminum Nanobridge Josephson Junctions
- Joshua Feng, Chemistry, B.A./B.S., California State University, Long Beach
Dissertation: Leveraging Covalent Modification for Diverse Applications in Antiviral Discovery and Kinase Mechanism Deconvolution
- Xidi Feng, Development, Stem Cells and Regenerative Medicine, B.S., The Chinese University of Hong Kong; M.S., University of Southern California
Dissertation: The Sex Specific Mechanisms of Zebrafish Cardiac Lymphatic Vessel Development and Heart Regeneration
- Anthony Michael Fernandez, Molecular Biology, B.S., University of California, Los Angeles
Dissertation: Nanoscale Dynamics and Nuclear Envelope Organization of the Muscular Dystrophy Related Protein Emerin
- Sara Oline Fetherolf, Literature and Creative Writing, B.F.A., Brooklyn College; M.F.A., Hunter College
Dissertation: "Sing into the Hardness of the Heart of the Future": Elise Cowen, Reassembled and Reanimated
- Ilse Flores, Neuroscience, B.A., San Diego State University
Dissertation: Patient-derived SYNGAP1 Mutations Disrupt Excitatory Networks in iPSC Models of Neurodevelopmental Disease
- Grigory Franguridi, Economics, B.S., Finance Academy, Russia; M.A., Pennsylvania State University
- Carlos Alberto Galicia Aguirre, Biology of Aging, B.S., University of Idaho
- Sathish Kumar Ganesan, Cancer Biology and Genomics, B.S., Anna University, India; M.S., University of Southern California
- Jesus Javier Garcia, Comparative Studies in Literature and Culture, B.A., University of San Francisco; M.A., California State University, Long Beach; M.A., University of Southern California
- Jesse Dempsey Gardner IV, Business Administration, B.S., Virginia Polytechnic Institute and State University; M.B.T., M.S., University of Southern California
Dissertation: Implied Equity Duration: International Evidence
- Samuel Kenneth Garza, Molecular Pharmacology and Toxicology, B.S., California State University, Los Angeles
Dissertation: Mitochondrial Dynamics Regulate Leydig Cell Health and Integrity
- Yimin Ge, Public Policy and Management, B.S., University of Illinois at Urbana-Champaign; M.A., Duke University
Dissertation: Essays on the U.S. Market for Substance Abuse Treatment and the Impact of Medicaid Policy Reform
- Emily Geminder, Literature and Creative Writing, B.A., Hampshire College
- Brieuc Gerard, Comparative Studies in Literature and Culture, B.A., Universite Paris X, Nanterre, France; M.A., Universite de La Sorbonne Nouvelle, France; M.A., University of Southern California
- Goran Giudetti, Chemistry, B.S., Universita degli Studi di Camerino, Italy
- Bardia Godazandeh, Economics, B.Eng., Sharif University of Technology, Iran; M.A., University of Southern California
- Jose Luis Godinez Castellanos, Chemistry, B.S., California State University, Stanislaus
- Jesse Lloyd Goldshear, Preventive Medicine, B.A., Boston University; M.P.H., Drexel University
Dissertation: A Mixed-Methods Study of Risk Environment Impacts on Ontological Security Among Unhoused People Who Use Drugs in Los Angeles
- Jorge Luis Gomez Ponce, Electrical Engineering, B.S., M.S., Escuela Superior Politecnica del Litoral, Ecuador; M.S., University of Southern California
Dissertation: Channel Sounding for Next-Generation Wireless Communication Systems

Doctor of Philosophy (continued)

- Clio Gonzalez Zacarias, Neuroscience, M.S., University of Warwick, United Kingdom
Dissertation: Chronic Anemia: Effects on the White Matter of the Brain
- Edward Alexander Gonzalez, Political Science and International Relations, B.A., California State University, Dominguez Hills; M.A., California State University, Long Beach
Dissertation: Pathways to Nuclear Weapon Reversal: Exploring Mechanisms and Understanding Non-Proliferation Policy
- Daniel Charles Goodelman, Mechanical Engineering, B.S., University of Vermont; M.S., University of Southern California
Dissertation: Towards a Fundamental Understanding of Compositional and Microstructural Complexity in Novel Metallic Alloy Films
- Alexis Sara Gorin, Neuroscience, B.S., George Washington University
Dissertation: Spatial and Temporal Precision of Inhibitory and Excitatory Neurons in the Murine Dorsal Lateral Geniculate Nucleus
- Thomas Roy Groechel, Computer Science, B.S., University of Michigan, Ann Arbor; M.S., University of Southern California
Dissertation: On Virtual, Augmented, and Mixed Reality for Socially Assistive Robotics
- Mustafa Can Gursoy, Electrical Engineering, B.S., M.S., Bogazici University, Turkey
- Katherine MacKenzie Hammitt, Comparative Studies in Literature and Culture, B.A., Butler University; M.A., Indiana University, Bloomington; M.A., University of Southern California
- Mohammad Islamul Haque, Economics, B.S., University of Dhaka, Bangladesh
- Jordan Nicholas Harper, Urban Education Policy, B.A., University of Maryland, Baltimore County
Dissertation: On Being Everything to Everyone: Administrative Assistants and Intimacy in Higher Education Organizations
- Seyedeh Hanieh Hashemi, Electrical Engineering, B. Engr., University of Tehran, Iran
Dissertation: Data Privacy in Deep Learning and Recommendation Models using Trusted Hardware
- Sepideh Hassan Moghaddam, Electrical Engineering, B.S., Sharif University of Technology, Iran
Dissertation: Analysis, Design, and Optimization of Large-Scale Networks of Dynamical Systems
- Jessica Lindsay Roan Hatrick, Communication, B.A./B.A., University of California, San Diego; M.A., University of Southern California
Dissertation: Understanding the Carceral Logics of the University: A Dissertation Proposal
- Jingxuan He, Biostatistics, B.S., Wuhan University, China; M.S., Columbia University
Dissertation: Enhancing Model Performance of Regularization Methods by Incorporating Prior Information
- Ixel Carolina Hernandez, Epidemiology, B.A., University of California, Los Angeles; M.P.H., University of Southern California
Dissertation: Prenatal Exposure to Organophosphate Esters and Early Neurodevelopment
- Imogen Rose Neilson Herrick, Urban Education Policy, B.S., University of Kentucky; M.Ed., University of Georgia; M.A., Spalding College
Dissertation: What Do You Notice? What Do You Wonder? A Mixed Methods Investigation into Community Science Data Talks
- Sina Heydari, Mechanical Engineering, B.S., Sharif University of Technology, Iran; M.S., University of Southern California
Dissertation: Mechanical and Flow Interactions Facilitate Cooperative Transport and Collective Locomotion in Animal Groups
- Sydney Rose Hiller, Chemistry, B.A., New York University
Dissertation: Expanding the Chemical Space by Utilizing the Efficiency and Versatility of Click Reactions to Unveil Potent Molecular Scaffolds
- Jean Ho, Literature and Creative Writing, B.A., University of California, Berkeley; M.F.A., University of Nevada, Las Vegas
Dissertation: Sites/Sights/Cites: Racial Violence, Chinese Angelenos, and LA's Lost Chinatown
- Angelina Holcom, Biology of Aging, B.S., University of Hawaii at Manoa
- Eunjin Hong, Clinical and Experimental Therapeutics, B.S., Seoul National University, South Korea
Dissertation: Pharmacokinetic and Pharmacodynamic Optimization of CFTR modulator Therapy to Mitigate Potential Drug Interactions and Adverse Events in People with Cystic Fibrosis
- Emily Diane Howard, Medical Biology, B.S., Wheaton College
Dissertation: Investigating the Modulatory Mechanisms of ILC2s as a Therapeutic Strategy in the Context of Health and Disease
- Dylan Howell, Cinema and Media Studies, B.A., Pomona College; M.A., California Institute of the Arts
Dissertation: The Revisionist West: Placing the Postwar American Avant-garde
- Shu-Man Hsieh Li, Craniofacial Biology, B.S., M.S., National Defense University, Taiwan; National Defense University, Taiwan
Dissertation: The Mechanisms for Skin Regional Specificity Determination
- Han-Lin Hsieh, Electrical Engineering, B.S., National Taiwan University; M.S., University of Southern California
Dissertation: Geometric and Dynamical Modeling of Multiscale Neural Population Activity
- Diyi Hu, Electrical Engineering, B.S., Beijing University of Posts and Telecommunications, China

Doctor of Philosophy (continued)

- Shihao Hu, Biomedical Engineering, B.S., China Pharmaceutical University
Dissertation: Physiologically-Based Modeling to Predict Monoclonal Antibody Pharmacokinetics in Humans from Physiochemical Properties
- Yinghua Hu, Electrical Engineering, B.S., Nankai University, China; M.S., University of Southern California
Dissertation: Security-Driven Design of Logic Locking Schemes: Metrics, Attacks, and Defenses
- Michael Huang, Business Administration, B.S., M.S., Columbia University
Dissertation: Decision-Aware Learning in the Small-Data, Large-Scale Regime
- Ziyu Huang, Astronautical Engineering, B.Eng., Beihang University, China; M.S., University of Southern California
- Shu-Ting Hung, Development, Stem Cells and Regenerative Medicine, B.S., M.S., National Taiwan University
Dissertation: Identification of Therapeutic Targets for Neurons and Microglia in Amyotrophic Lateral Sclerosis
- Samantha Ikehara, American Studies and Ethnicity, B.A., University of Hawaii at Manoa; M.A., University of Southern California
Dissertation: Air and Militarism in the Pacific Ocean
- Jeremy Intrator, Chemistry, B.S., State University of New York at Binghamton
Dissertation: Cobalt Phosphino-Thiolate Complexes: Applications Towards Electrocatalytic Small Molecule Conversion to Synthetic Fuels
- Melih Iseri, Mathematics, B.S., Bogazici University, Turkey
Dissertation: Set Values for Mean Field Games and Set Valued PDEs
- Xanath Ispizua Rodriguez, Chemistry, B.S., Universidad La Salle, Mexico
Dissertation: Harnessing Fluorinated C1 Nucleophilic Reagents for the Direct Fluoroalkylation of Ubiquitous C(sp²)-X and C(sp)-H Centers
- Vahid Jalali Farahani, Engineering, B.S., Islamic Azad University, Iran
Dissertation: Investigating the Role of Urban Emission Sources on Redox-active PM Compounds and the Chemical Analysis of the Standardized Diesel Exhaust Particles
- Ajinkya Anand Jayawant, Electrical Engineering, B.S., M.S., Indian Institute of Technology – Bombay/Powai, India
- Soyoung Jeon, Cancer Biology and Genomics, B.A., University of California, Berkeley
Dissertation: Understanding Acute Lymphoblastic Leukemia in Different Ethnic Groups in the United States
- Kinnari Jhaveri, Psychology, B.A., University of California, Berkeley; M.B.A., University of Chicago; M.A., University of Southern California
Dissertation: Predictors of mHealth Engagement in a Mindful Eating Intervention for Type 2 Diabetes
- Haochen Jia, Industrial and Systems Engineering, B.S., SUNY Stony Brook; M.Eng., Cornell University
Dissertation: A Continuous Approximation Model for the Parallel Drone Scheduling Traveling Salesman Problem
- Qi Jia, Development, Stem Cells and Regenerative Medicine, B.S., Sun Yat-sen University, China; M.S., University of Southern California
Dissertation: Endogenous H₂O₂ Signaling Regulates the Release of Neuropeptides in a Brain-Intestine Axis in Anti-Oxidative Stress Response in *C. elegans*
- Anyue Jiang, Chemical Engineering, B.S., Purdue University
Dissertation: Deep Learning for Subsurface Characterization and Forecasting
- Yusheng Jiao, Mechanical Engineering, B.S., Nanjing University, China; M.S., University of Southern California
Dissertation: Evaluating Sensing and Control in Underwater Animal Behaviors
- Ennuri Jo, Cinema and Media Studies, B.A., University of Chicago; M.A., University of Southern California
Dissertation: Aqueous Image: Cinema and the Rhetoric of Water at the End of the World
- Elizabeth Ashley Johnson, Literature and Creative Writing, B.A., Claremont McKenna College; M.F.A., Columbia University
Dissertation: The Erotics of the Fragment in 20th Century American Women's Long Poems
- Malcolm Jamal Jones, Biokinesiology, B.A., Emory University; M.S., University of Southern California
Dissertation: Manipulating Cognitive Intensity During Aerobic Exercise
- Sushant Joshi, Public Policy and Management, B.Equiv., Jawaharlal Nehru University, India; M.A., University of Notre Dame
Dissertation: Topics in U.S. Healthcare
- Alan Juarez Zuniga, Geological Sciences, B.S., M.S., National Autonomous University of Mexico
Dissertation: Stress and Strain Characterization of Complex Earthquakes and Seismic Sequences
- Pranav Aniruddha Kadam, Electrical Engineering, B.Eng., Savitribai Phule Pune University, India; M.S., University of Southern California
- Benjamin S. Kameran, Physics, B.A., Occidental College
Dissertation: Magnetic Deflections of Doped Helium Nanodroplets
- Ichigo Mina Kaneko, Comparative Studies in Literature and Culture, B.S., New York University; Grad.Cert., M.A., University of Southern California
- Byungkwon Kang, Communication, B.A., M.A., University of Southern California
Dissertation: Machine Audibility: On its Imaginaries, Ontologies, and Limitations
- Lanja Karadaghi, Chemistry, B.A., University of California, Santa Barbara
Dissertation: Sustainable Methods for Manufacturing Catalytically Active Nanomaterials

Doctor of Philosophy (continued)

- Abdullah Harun Karakus, Mathematics, B.S., Bogazici University, Turkey
Dissertation: First Passage Percolation in a Correlated Environment
- Rio Katayama, East Asian Languages and Cultures, B.A., Waseda University, Japan; M.A., Indiana University, Bloomington
Dissertation: Narrative Bodies: (De)Constructing Affective Japan Through Nuclear Disasters
- Negar Kazerouni, Chemistry, B.Engr., Amirkabir University of Technology, Iran; M.S., Friedrich Alexander Universitat, Germany
Dissertation: Improving the Efficiency and Stability of Organic Solar Cells through Ternary Strategies
- Ruth Rosalie Kelly, Communication, B.A., San Diego State University; M.A., University of Southern California
Dissertation: What We Think About When We Think About Polls: Exploring Lay Theories of Public Opinion
- Kate Kennedy, Urban Education Policy, B.A., The Ohio State University; M.Ed., Teachers College, Columbia University; M.A., Loyola Marymount University
Dissertation: Care and Social-Emotional Well-Being: Organizational Conditions in Policy and Practice
- Taraq Mohammad Abu Bakar Khan, Economics, B.S., M.S., London School of Economics and Political Science, United Kingdom
- Ian Kim, Preventive Medicine, B.A., Sejong University, South Korea; M.F.A., Pennsylvania State University
Dissertation: Linking Objectively Measured Outdoor Walking with Objectively Measured Activity Space Walkability
- Steffie Sofia Kim, Communication, B.A., M.A., Seoul National University, South Korea; M.A., University of Southern California
Dissertation: Virtually Acceptable and Feasible: Towards Developing Efficacious Virtual Reality Interventions for Individuals with Social Anxiety Disorder
- Yehsong Kim, Psychology, B.A., Northwestern University; Grad.Cert., M.A., University of Southern California
Dissertation: Links Between Discrimination and Sleep Difficulties: Romantic Relationships as Risk and Resilience Factors
- Gulnaz Kiper, Psychology, B.A., University of California, Los Angeles; M.A., University of Southern California
Dissertation: Believing that Difficulties are Character-building Supports Wellbeing and Positively Frames Daily Life
- Deirdre Mary Klokow, Classics, B.A., Columbia University
- Kelby Knox, Biomedical Engineering, B.A., University of Vermont; M.S., University of Southern California
- Joseph Ko, Engineering, B.S., M.S., University of California, Berkeley
Dissertation: Beyond Greenhouse Gases and Towards Urban-scale Climate Mitigation: Understanding the Roles of Black Carbon Aerosols and the Urban Heat Island Effect as Local to Regional Radiative Forcing Agents
- Christopher J. Koch, Chemistry, B.S., Butler University
Dissertation: Advances in Carbon Dioxide Capture and Conversion to C1 Products Utilizing Heterogeneous Catalysts
- Rajat Kochhar, Economics, M.S., London School of Economics and Political Science, United Kingdom
- Elizabeth Jane Kochinski, Religion, B.A., University of Hawaii at Manoa; M.A., Kyushu University, Japan
Dissertation: Saving the Myriad Spirits: The Development and Diversification of the Segaki Ghost-Feeding Ritual in Medieval Japan
- Valerie Nicole Komatsu, Molecular Biology, B.A., Northwestern University
Dissertation: Identifying the Hand2-dependent Cardiac Progenitor Epithelial Maturation Network
- Eun Sang Koo, Biomedical Engineering, B.S., University of California, Berkeley
- Sophia Catherine Krag Kosloski-Oh, Chemistry, B.S., University of Utah
Dissertation: Rational Design of Simple and Complex Rare Earth Metal Catalyst Systems to Enable Reactive, Controlled and Selective Block Copolymerization of Chemically Dissimilar Monomers
- Alexandra Lanjewar, Neuroscience, B.S., University of Miami
Dissertation: Dynamic Developmental Processes Underlying Cerebral Cortical Development with Lifespan Impact
- Jacob Albert Lashner, Physics, B.A., Wesleyan University
Dissertation: Data Acquisition Systems and Detector Characterization for Simons Observatory
- Jung Hyuk Lee, Economics, B.A., Seoul National University, South Korea; M.A., University of Southern California
- Woo Jung Lee, Social Work, B.A., University of California, Los Angeles; M.A., San Diego State University
Dissertation: Neighborhood Context and Adolescent Mental Health: Development and Mechanisms
- Youngwoon Lee, Computer Science, B.S., M.S., Korea Advanced Institute of Science and Technology, South Korea
Dissertation: Scaling Robot Learning with Skills
- Hannes Leipold, Computer Science, B.A., M.S., University of Pennsylvania
Dissertation: Imposing Classical Symmetries on Quantum Operators with Applications to Optimization
- Colby Lenz, American Studies and Ethnicity, B.A., Wellesley College; M.A., University of Southern California
Dissertation: Organizing in the Impossible: The Movement to End Life Without Parole in California
- Jiawei Li, Pharmaceutical Sciences, B.S., Purdue University
Dissertation: Harnessing poly-ADP-ribose to Combat Nicotine Addiction and to Explore PARylation Dependent Interacting Proteins
- Linfeng Li, Applied Mathematics, B.A., Jilin University, China; M.S., University of Southern California
Dissertation: Mach Limits and Free Boundary Problems in Fluid Dynamics

Doctor of Philosophy (continued)

- Tianye Li, Computer Science, B.Engr., Xidian University, China; M.S., University of Southern California
Dissertation: Scalable Dynamic Digital Humans
- Xi Li, Electrical Engineering, B.S., University of Science and Technology of China; M.S., University of Washington
Dissertation: Multi-Phase Clocking and Hold Time Fixing for Single Flux Quantum Circuits
- Xiongfei Li, Economics, B.A., Nankai University, China; M.S., University of Wisconsin – Madison
- Felice Lin, Epidemiology, B.A., Wellesley College; M.P.H., University of Southern California
Dissertation: Subclinical Carotid Atherosclerosis, Psychosocial Measures, and Cognitive Function in Middle- to Older-Aged Adults
- Wan-Zhen Lin, Chemical Engineering, B.S., University of Southern California
- Wen Wei Lin, Chemistry, B.S., University of Southern Maine
- Yuchen Lin, Computer Science, B.Engr., Shanghai Jiao Tong University, China
Dissertation: Evaluating and Improving the Commonsense Reasoning Ability of Language Models
- Thomas Matthew Linker, Physics, B.S., California Polytechnic State University, San Luis Obispo
Dissertation: Multi-Scale Quantum Dynamics and Machine Learning for Next Generation Energy Applications
- Calvin Liu, Communication, B.S., M.S., University of California, Irvine; M.A., University of Southern California
Dissertation: Gathering Understanding: Players, Systems and Developers in Magic: The Gathering
- Jiahui Liu, Biology of Aging, B.S., Peking University, China
- Kuang Liu, Computer Science, B.Engr., Xidian University, China; M.S., University of Southern California
Dissertation: Simulation and Machine Learning at Exascale
- Lawrence Liu, Physics, B.S., University of Southern California
Dissertation: Emerging Jordan Forms, with Applications to Critical Statistical Models and Conformal Field Theory
- Mingxuan Liu, Communication, B.A., University of Macau; M.A., University of California, Davis; M.A., University of Southern California
Dissertation: The Rise and Fall of Toxicity and Prosociality in Online Games: Consumer Behavior in Social Dynamics
- Yunsong Liu, Electrical Engineering, B.Engr., M.Engr., Xiamen University, China
Dissertation: Optimization Methods and Algorithms for Constrained Magnetic Resonance Imaging
- Mairym Llorens Monteserin, Linguistics, B.A., SUNY Albany; M.A., University of Barcelona, Spain; M.A., University of Southern California
Dissertation: The Phonetics of Co-speech Vocal Tic Production in Tourette Syndrome
- Rodrigo Lobos, Electrical Engineering, B.S., M.S., University of Chile; M.A., University of Southern California
Dissertation: New Theory and Methods for Accelerated MRI Reconstruction
- Tanisha Denise London, Neuroscience, B.A., Spelman College
Dissertation: Understanding the Spatial and Temporal Dynamics of NE Signaling during Sensory Integration
- Jaime Israel Lopez, Urban Planning and Development, B.A., University of California, Los Angeles
Dissertation: The Role of Social Media for Environmental Justice Community Based Organizations in Southeast Los Angeles
- Gengxi Lu, Biomedical Engineering, B.S., Nanjing University, China
Dissertation: Ultrasound Neuromodulation and its Applications for Noninvasive Vision Restoration
- Thomas Luckie, Geological Sciences, B.S., Colorado State University; M.S., University of New Mexico, Albuquerque
Dissertation: Crustal Structure and Seismotectonic Patterns of the Northern Hikurangi Margin, New Zealand, from a Dense, Short-period Seismic Deployment
- Steven Luna, Mechanical Engineering, B.S., University of California, Riverside
Dissertation: Re-Assessing Local Structures of Turbulent Flames via Vortex-Flame Interactions
- Daniel Lundstrom, Applied Mathematics, B.S., Biola University
Dissertation: A Rigorous Study of Game-Theoretic Attribution and Interaction Methods for Machine Learning Explainability
- Lauren Alyssa Lutzke, Psychology, B.A., M.S., University of Michigan, Ann Arbor
Dissertation: Climate Change Communication: Challenges and Insights on Misinformation, New Technology, and Social Media Outreach
- Jun Lyu, Linguistics, B.A., M.A., Shanghai International Studies University, China; M.A., University of Southern California
Dissertation: Syntactic and Non-Syntactic Factors in Reflexive Pronoun Resolution in Mandarin Chinese
- Jiahui Ma, Electrical Engineering, B.Engr., Tsinghua University, China; M.S., University of Southern California
Dissertation: Discovering Electronic Devices Based on Low-dimensional Materials for Advanced Computing
- Jenny Mariana Magallanes, Development, Stem Cells and Regenerative Medicine, B.S., University of Southern California
Dissertation: Dissecting the Molecular Mechanisms that Lead to Arthrofibrosis
- Amy Catherine Mahler, Economics, B.A., B.A., The College of New Jersey; M.A., California State University, Los Angeles; M.A., University of Southern California
- Anwasha Maitra, Chemistry, B.Equiv., M.S., Indian Institute of Technology – Bombay/Powai, India
- Yvonne Manjarrez, Chemistry, B.S., Arizona State University
Dissertation: Using Lewis Acid Catalysts to Control the Ring-Opening Copolymerization for Polyester Synthesis and the Deconstruction of Polyethylene

Doctor of Philosophy (continued)

- Octavio Marin Pardo, Biomedical Engineering, B.Eng., National Autonomous University of Mexico; M.S., University of Southern California
Dissertation: Development and Implementation of a Modular Muscle-Computer Interface for Personalized Motor Rehabilitation After Stroke
- Narcis Alexyss Marshall, Psychology, B.A., University of California, Los Angeles; M.A., University of Southern California
- Beatrice Martinez, Social Work, B.A., University of California, San Diego; M.S.W., University of Southern California
Dissertation: Alzheimer's Disease and Related Dementias Research Communication Practices with Minoritized Racial and Ethnic Groups: A Multiple Case Study
- Bibiana Margarita Martinez, Preventive Medicine, B.A., University of Florida; M.P.H., Columbia University
Dissertation: Exploring Geography and Multi-level Factors Associated with Disparities in HPV Vaccination Among Latino Adolescents in Los Angeles County
- Brooke Kaleigh McCallum, Comparative Studies in Literature and Culture, B.A., Harvard University
- Russell McDermott, Cinema and Media Studies, B.A., Metropolitan State College, Denver; M.A., New York University
Dissertation: Six Walks Through Virtual Worlds: Video Games, Virtual Reality, and Neuroludology
- Ryan Stuart McMullen, Chemistry, B.S., University of Bristol, United Kingdom
Dissertation: Liquid Phase Photoelectron Spectroscopy as a Tool to Probe Excess Electrons in Liquid Ammonia along with Birch Chemistry Carbanions: From Dilute Electrolytic Solutions to the Metallic Regime
- Andrew James Mead, Clinical and Experimental Therapeutics, B.A., University of California, Berkeley
Dissertation: Small Molecule Lipoxin Analogue for Prevention of Retinal Degeneration
- Mohammad Mehrabi, Business Administration, B.A., B.S., Sharif University of Technology, Iran
Dissertation: Topics on Statistical Reliability and Adversarial Robustness for Trustworthy Data-driven Models
- Ninareh Mehrabi, Computer Science, B.S., University of Southern California
Dissertation: Responsible Artificial Intelligence for a Complex World
- Sevan Menachekanian, Chemistry, B.S., Isfahan University of Technology, Iran
Dissertation: Potential Dependent Formation and Dissociation of Interfacial Lewis Adducts on a Gold Surface Probed by Vibrational Spectroscopy
- Austin Robert Mencke, Chemistry, B.S., Seattle Pacific University
Dissertation: Utilization of N-Heterocyclic Chromophores for Solar Energy Conversion
- Deming Meng, Electrical Engineering, B.S., University of Science and Technology of China; M.S., University of Southern California
Dissertation: Nano-Engineered Devices for Optical Application, Biomedical Detection and Circuit Accelerator
- Amanda Stevens Meyer, Molecular Biology, B.S., University of Vermont
Dissertation: Mammalian Secretome Profiling to Identify Adaptive and Maladaptive Adipocyte Signaling in Homeostasis and Diet Induced Obesity
- Noah Miller, Public Policy and Management, B.A., University of California, Davis; M.P.P., University of Southern California
Dissertation: Climate Change, Air Pollution and Health: How Policy Can Induce Adaptation
- Sydney Nicole Miller, Preventive Medicine, B.S., University of North Alabama
Dissertation: Social Networks, Neighborhood Environments, Dietary Patterns and Obesity
- Sonia Misra, Cinematic Arts, B.A., Wellesley College; Grad.Cert., Grad.Cert., University of Southern California; M.A., New York University
Dissertation: Queer (Post-)Cinematic Futures: Temporality, the Digital, and the Limits of Representation
- Triton Mobley, Cinematic Arts, B.F.A., University of Florida; M.F.A., Rhode Island School of Design
Dissertation: Surveillance Architectures: Land, Labor, Class + Composite Data [Trace Information, Opacified Castes, and Radical Optics for New Ways of Computational Seeing]
- Hesameddin Mohammadi, Electrical Engineering, B.S., Sharif University of Technology, Iran; M.S., Arizona State University
Dissertation: Robustness of Gradient Methods for Data-driven Decision Making
- Sara Mohammadinejad, Computer Science, B.S., Sharif University of Technology, Iran
Dissertation: Learning Logical Abstractions from Sequential Data
- Syamil B. Mohd Razak, Petroleum Engineering, B.S., University of Michigan, Ann Arbor; M.S., M.S., University of Southern California
Dissertation: Deep Learning Architectures for Characterization and Forecasting of Fluid Flow in Subsurface Systems
- Gary Molano, Molecular Biology, B.A./B.S., University of California, Santa Cruz
Dissertation: Developing Genetic Tools to Assist in the Domestication of Giant Kelp
- Stuart Patrick Moon, Chemistry, B.S., Auburn University
Dissertation: Understanding the Roles of Posttranslational Modifications in Aggregation Using Synthetic Proteins
- Carlos Adrian Mora Perez, Chemistry, B.S., California State University, San Bernardino
- Alyssa Rae Morris, Psychology, B.S., University of Minnesota, Twin Cities; M.A., University of Southern California
Dissertation: Pregnancy in the Time of COVID-19: Effects on Perinatal Mental Health, Birth, and Infant Development

Doctor of Philosophy (continued)

- Laura Cecilia Mugica Sanchez, Chemistry, B.Engr., National Autonomous University of Mexico
Dissertation: Diamond Surface Chemistry for NV Quantum Sensing
- Daniel James Mullen, Cancer Biology and Genomics, B.A./B.S., University of Washington
Dissertation: Application of Tracing Enhancer Networks using Epigenetic Traits (TENET) to Identify Epigenetic Deregulation in Cancer
- Collin Nicholas Muniz, Chemistry, B.S., Oregon State University
Dissertation: Designing Coinage Metal Complexes for Solar Fuels and Organic LEDs
- Humberto Munoz Bauza, Physics, B.S., Texas A&M University
Dissertation: Simulation and Error Suppression of Hamiltonian Quantum Computation
- Zachary William Murdock, Neuroscience, B.Engr., Tulane University
Dissertation: Transferring Biological Visual Systems to Computer Vision Tasks
- Dina Igorevna Murokh, Art History, B.A., Princeton University; M.A., University of Southern California
Dissertation: "A Sort of Picture Gallery": Encounters with Print in Antebellum US Society
- Masaru Nakajima, Physics, B.A., Soka University of America; B.S., University of Saskatchewan, Canada
Dissertation: Studies of Symmetries in RNA Secondary Structures
- Joseph Nakpil, Slavic Languages and Literature, B.A., Pennsylvania State University; M.A., University of Southern California
Dissertation: Configurations of Kinship in the Work of Andrei Tarkovsky
- Anju Nalikezhathu, Chemistry, B.S., M.S., Indian Institute of Science Education and Research, Thiruvanan, India
Dissertation: Ruthenium Catalyzed Hydrogen-Borrowing Amine Alkylation Reactions
- Nicholas Gianni Napolio, Political Science and International Relations, B.A., Northeastern University
Dissertation: Bureaucratic Politics and Power Building in the Administrative State
- Krishna Narayanamurti, Literature and Creative Writing, B.A., University of California, Santa Barbara; M.P.W., University of Southern California
Dissertation: An Almost Unbroken Place: Desert Aesthetics and Environmental Connection in Southwestern Literature
- Elke Michele Nash, Classics, B.A., University of California, Los Angeles; M.A., University of Southern California
Dissertation: The Monopoly on Value: Reading Honor and Women in and through Aeschylean Tragedy
- Padideh Nasser, Neuroscience, B.S., University of Tehran, Iran
Dissertation: Investigating the Regulatory Effects of Paced Respiratory Oscillations on Locus Coeruleus-Norepinephrine System
- Carlos Navarro, Chemistry, B.S., California State University, San Bernardino
Dissertation: Chemical Depolymerization of Amine-Epoxy Cured Carbon Fiber Reinforced Polymer Composites and their Re-use
- Stephanie Navarro, Epidemiology, B.A., Stanford University
Dissertation: Investigating Racial and Ethnic Disparities in Patient Experiences with Care and Outcomes for Older Adults with Colorectal Cancer and Comorbid Chronic Conditions
- Christine Hotaru Naya, Preventive Medicine, B.S., University of California, Los Angeles; M.P.H., University of California, Berkeley
Dissertation: Prenatal Sleep Health, Cortisol, and Gestational Weight Gain
- Libere Jensen Ndacayisaba, Medical Biophysics, B.S., Syracuse University
Dissertation: Multimodal Single-Cell Biology and Machine Learning to Characterize Plasma Cell Neoplasms
- Stefanie Anna Neumeier, Political Science and International Relations, B.A., University of Idaho; M.A., University of Oklahoma
Dissertation: Refugee Protection and Empowerment Joint Venture: Understanding How and Why Public and Private Actors Cooperate to Tackle the Global Refugee Crisis
- Chau Dan Ngo, Chemistry, B.S., University of California, San Diego; M.S., University of California, San Diego
Dissertation: Exploration of Latent Warheads for Covalent Inhibition of Proteins
- Bryan Hoang Nguyen, Chemical Engineering, B.S., University of Texas at Austin
Dissertation: Fabrication of Silicon-based Membranes via Vapor-phase Deposition and Pyrolysis of Organosilicon Polymers
- Dat Xuan Nguyen, Political Science and International Relations, B.A., Princeton University
Dissertation: Identity and Regional Integration: Case Studies on Central Asia and Southeast Asia
- John Duc Nguyen, Development, Stem Cells and Regenerative Medicine, B.S., University of California, Los Angeles
Dissertation: DNA Methylation and Heterochromatin Remodeling Promote Switch from Embryonic to Mature Supporting Cell States and Impedes Hair Cell Regeneration
- Tai Nguyen, Chemistry, B.S., University of Washington
Dissertation: Optimization and Mechanistic Investigation of Small-Molecule Agents for Long-Term Ex Vivo Expansion of Granulocyte-Monocytes Progenitors
- John Niman, Physics, B.A., Occidental College
Dissertation: Experiments in Electrostatic Deflection of Doped Helium Nanodroplets
- Clare Noble O'Connor, Communication, B.S., M.A., York University, Canada; M.A., University of Southern California
Dissertation: Angel Dreams: Collective Desire, Resonant Myth, and Political Possibility Today

Doctor of Philosophy (continued)

- Divana Olivas, American Studies and Ethnicity, B.A., University of New Mexico, Albuquerque; Grad.Cert., University of Southern California
Dissertation: Red or Green?: Chicano Food Imaginaries in New Mexico from Statehood to Climate Crisis
- Hilary Olson, Public Policy and Management, B.A., Occidental College; Grad.Cert., M.P.P., University of Southern California
Dissertation: Outcomes-Based Contracts: Ties to Social Innovation, Program Evaluation, and International Development
- Kayla Ashlyn Orlinsky, Mathematics, B.S., University of California, San Diego
Dissertation: An Indicator Formula for a Semi-Simple Hopf Algebra
- Jaymon T. Ortega, Urban Education Policy, B.A., University of California, Berkeley; M.Ed., University of Southern California

Dissertation: Diversity and Dynamics of Giant Kelp Seed-bank Microbiomes: Applications for the Future of Seaweed Farming
- Merrick Osborne, Business Administration, B.A., University of North Carolina – Chapel Hill
Dissertation: A Costly Penny for your Thoughts?: Allies Cause Harm by Soliciting Disadvantage Group Members' Voice When Confronting Prejudice
- Justin Overhulse, Chemistry, B.A., Ohio Wesleyan University
Dissertation: Design and Synthetic Studies of Novel Inhibitors for Viral and Fungal Pathogens
- Eunjeong Paek, Sociology, B.A., M.A., Korea University, South Korea; M.A., University of Southern California
- Jan Ernest Paguyo, Applied Mathematics, B.S., University of California, Davis
Dissertation: Limit Theorems in Three Random Discrete Structures via Stein's Method
- Sheila Pakdaman, Preventive Medicine, B.S., University of California, Santa Barbara; M.S., University of Southern California
Dissertation: The Impact of Childhood Trauma on Substance Use and Mental Health During the Sars-Cov-2 Pandemic Among Young Adults
- Xiaoying Pan, Civil Engineering, B.Engr., M.Engr., Hunan University, China
Dissertation: Development of a New Self-Healing Concrete Using Engineered Aggregates
- Soowang Park, Electrical Engineering, B.S., Seoul National University, South Korea; M.S., University of Southern California
Dissertation: Custom Hardware Accelerators for Boolean Satisfiability
- Bo Peng, Neuroscience, B.A., University of Iowa
- Kerui Peng, Clinical and Experimental Therapeutics, B.S., China Pharmaceutical University; Pharm.D., University of Minnesota, Twin Cities
Dissertation: Developing and Benchmarking Computational Tools to Facilitate T Cell Receptor Repertoire Analysis
- Aleksei Vladimirovich Petrenko, Computer Science, B.S., Nizhny Novgorod State University, Russia
Dissertation: High-Throughput Methods for Simulation and Deep Reinforcement Learning
- Minh Tran Xuan Pham, Computer Science, B.Engr., Ho Chi Minh City University of Technology, Vietnam
Dissertation: Robust and Proactive Error Detection and Correction in Tables
- Jaclyn Elise Pittman, Geological Sciences, B.S., San Diego State University
Dissertation: Carbonate Dissolution on the Seafloor: Interpretations from a Novel In Situ Porewater Sampler
- Cord-Heinrich Richard Karl Plinke, Comparative Studies in Literature and Culture, B.A., Freie Universität Berlin, Germany; Grad.Cert., University of Southern California
- Brock R. Pluimer, Neuroscience, B.A., Hendrix College
Dissertation: Lose Yourself: Consequences of Altered States of Consciousness on Default Mode Network Connectivity
- Bibek Babu Pokharel, Physics, B.A., Carleton College
Dissertation: Demonstration of Error Suppression and Algorithmic Quantum Speedup on Noisy-Intermediate Scale Quantum Computers
- Ellyn Bethany Pueschel, Psychology, B.A., San Diego State University; M.A., University of Southern California
Dissertation: The Development of Error Monitoring and Relations to Social-Emotional Functioning
- Tyler Spence Quick, Communication, B.A., University of Colorado Boulder; M.A., University of Chicago; M.A., University of Southern California
Dissertation: #Instagay: Libidinal Economics versus Representational Politics on Instagram
- Alicia Marguerite Quihuis, Neuroscience, B.S., Arizona State University
- Christian A. Rabot, Pharmaceutical Sciences, B.S., University of Richmond
Dissertation: Genomics-Guided Small Molecule Drug Discovery in Filamentous Fungi
- Jingyi Ran, Chemistry, B.S., Tohoku University, Japan; M.S., University of Edinburgh, United Kingdom
- Gregory F. Randolph, Urban Planning and Development, B.A., University of North Carolina – Chapel Hill
Dissertation: Urbanization Beyond the Metropolis: Three Papers on Urbanization Patterns and their Planning Implications in the Contemporary Global South
- Hannah Faith Rasmussen, Psychology, B.A., Pomona College; M.A., University of Southern California
Dissertation: Aggression in Close Relationships and Responses to Stress

Doctor of Philosophy (continued)

- Emily Rosemary Rauber Rodriguez, Cinema and Media Studies, B.A., Barnard College; Grad.Cert., M.A., University of Southern California
Dissertation: Speculative Latinidades: Imagining Latinx Identities in Science Fiction-Fantasy Media and Activism
- Tisha Marie Reichle-Aguilera, Literature and Creative Writing, B.A., University of California, Los Angeles; M.F.A., Antioch University Los Angeles
Dissertation: Claiming Our Space
- Jose Luis Reyes Hurtado, Social Work, B.A., California State University, Dominguez Hills; M.S.W., University of Southern California
Dissertation: A Descriptive Study of Advocacy Engagement as an Area of Organizational Performance in the Human-Service Sector
- Mahsa Rezaian, Chemistry, B.S., M.S., Sharif University of Technology, Iran
Dissertation: Thermoresponsive Hydrogel Biomedical Application for Ocular and Burn Wounds
- Samantha Bianca Riemann, Chemistry, B.S., Georgia Institute of Technology
Dissertation: Design, Synthesis, and Antiviral Activities of Lipophilic Amino Acid Nucleoside Prodrugs
- Ian Alexander Rigby, Linguistics, B.A., University of California, Los Angeles; M.A., University of Southern California
- Matthew Paul Ripley, Sociology, B.A., University of Bath, United Kingdom
Dissertation: How to be a Social Media Influencer: The Work Process of the Entrepreneurial Labor Force
- Kendrick Bilal Roberson, Political Science and International Relations, B.A., M.S., Pepperdine University; M.S., M.A., University of Southern California
Dissertation: Pernicious Racism and the Impacts of Intentional Racist in a Color Blind Society
- Nicolas Agustin Roig, Economics, B.A., University of San Andres, Argentina
- Megan Kristen Rommelfanger, Computational Biology and Bioinformatics, B.S., University of California, Santa Barbara
Dissertation: Investigating Hematopoietic Stem Cells via Multiscale Modeling, Single-Cell Genomics, and Gene Regulatory Network Inference
- Marcelo Ramon Rosales, Biokinesiology, B.S., California State University, Northridge; M.S., University of Southern California
Dissertation: Learning Self-Agency During A Contingency Paradigm in Infants at Community and Elevated Risk of Autism
- Kasey Valerie Rose, Neuroscience, B.A., Occidental College
Dissertation: The Impact of Light on Photoreceptor's Structure and Function in Normal and Diseased States
- Jenna Katherine Ross, History, B.A., University of Southern California
Dissertation: War of Emotions: Fear and the European Soldier, 1914-1918
- Ezekiel Saber, Cinema and Media Studies, B.A., University of North Carolina – Chapel Hill; M.A., University of Southern California
Dissertation: Exit Ontology: Cinema and the Morphological Tradition
- Gozde Sahin, Computer Science, B.S., Middle East Technical University, Turkey
Dissertation: Towards More Occlusion-Robust Deep Visual Object Tracking
- Steven Weiss Samols, History, B.A., New York University; M.S., London School of Economics and Political Science, United Kingdom
Dissertation: Capturing Difference, Making History: The Photobook as a Jewish Artifact
- Adam Samuel, Chemistry, B.S., Arizona State University
- Fatimata Sanogo, Epidemiology, B.S., University of California, San Diego
Dissertation: Investigating a Physiological Pathway for the Effect of Guided Imagery on Insulin Resistance
- Karina Santellano, Sociology, B.A., Duke University; M.A., University of Southern California
- Ronit Sarangi, Chemistry, M.S., Indian Institutes of Science Education and Research, India
- Jonas Schaab, Chemistry, B.S., M.S., Ludwig Maximilian University of Munich, Germany
- Hannah Lynn Schlaerth, Engineering, B.S., Kent State University; M.S., University of Southern California
Dissertation: From Tugboats to Trees: Investigating the Coupled Systems of Urban Air Pollution and Meteorology
- Alexander Schmitt, Chemistry, B.S., Technische Universität München, Germany
Dissertation: Synthesis of Stereoregular Non-Conjugated Electroactive Polymers
- Leslie Patrice Schnyder, Social Work, B.A., University of California, Los Angeles; M.S.W., University of Southern California
Dissertation: Broken Promises: Gaining an Understanding of Policy-Practice and Means-Ends Decoupling Within Diversity and Inclusion
- Robert Edward Schuler, Computer Science, B.S., M.S., University of Southern California
Dissertation: Schema Evolution for Scientific Asset Management
- Amber Lynn Marie Scott, Communication, B.A., Southern Oregon University; M.A., University of Oklahoma; M.A., University of Southern California
Dissertation: Forests, Fires, and Flight: Examining Safety and Communication Practices Within Aerial Wildland Firefighting Teams
- Sara Maria Semborski, Social Work, B.A., Eastern University; M.S.W., Temple University
Dissertation: Understanding Emotional Regulation and Mood of Young Adults in the Context of Homelessness using Geographic Ecological Momentary Assessment

Doctor of Philosophy (continued)

- Debtanu Sen, Mathematics, B.Equiv., Indian Statistical Institute, India
Dissertation: The Z/p Gysin Sequence in Symplectic Cohomology
- Young Jin Seong, Infectious Diseases, Immunology and Pathogenesis, B.A., Occidental College; M.S., University of Southern California
Dissertation: Pathological Lymphatic-to-Blood Endothelial Dedifferentiation Caused by a Viral G-protein-coupled Receptor Produces Lymphatic-origin Hemangioma
- Rahul Sharma, Electrical Engineering, B.Engr., M.S., Indian Institute of Technology – Kanpur, India
Dissertation: Establishing Cross-Modal Correspondences for Media Understanding
- Kristina Shkirkova, Neuroscience, B.S., Royal Holloway, University of London, United Kingdom
Dissertation: Neurotoxicity of Air Pollution Interacts with Chronic Cerebral Hypoperfusion
- Isaiah Jamal Simmons, Urban Education Policy, B.A., College of William & Mary; Grad.Cert., M.P.P., University of Southern California
Dissertation: But Who Really Wins? College Athletes' Analysis of Name, Image and Likeness Policy Narratives
- Kelsey Anne Simpson, Preventive Medicine, B.A., University of California, Santa Cruz; M.A., California State University, Northridge
Dissertation: Opioid Withdrawal Symptoms, Opioid Use, and Injection Risk Behaviors Among People Who Inject Drugs (PWID)
- Shruti Singh Kakan, Pharmaceutical Sciences, B.S., Birla Institute of Technology and Science, India; M.S., University of Southern California
Dissertation: Exploring Serum and Tear Based Micro-RNA as Diagnostic Biomarkers for Sjogren's Syndrome
- Jaideep Singh, Chemistry, B.S., California State University, Fresno
Dissertation: Site-Directed Spin-Labeling Studies of Nucleic-Acid Target-Recognition by Genome Engineering Enzymes
- Callie Siskel, Literature and Creative Writing, B.A., Yale University; M.F.A., Johns Hopkins University
Dissertation: "Supposed to Carry Grief?": A Study of Post-WWII American Women's Elegy
- Jinhyun So, Electrical Engineering, B.S., M.S., Korea Advanced Institute of Science and Technology, South Korea
Dissertation: Coding Centric Approaches for Efficient, Scalable, and Privacy-preserving Machine Learning in Large-scale Distributed Systems
- Elisa Solinas, Business Administration, B.S., M.S., Bocconi University, Italy
Dissertation: Disclosure of Changes in Taste: Implications for Companies and Consumers
- Hao Song, Electrical Engineering, B.Engr., Zhejiang University, China; M.S., University of Southern California
Dissertation: Optical Communications, Optical Ranging, and Optical Signal Processing using Tunable and Reconfigurable Technologies
- Jina Song, Linguistics, B.A., Ewha Womans University, South Korea; M.A., Seoul National University, South Korea; M.A., University of Southern California
Dissertation: Dynamics of Multiple Pronoun Resolution
- Monica Ying Song, Neuroscience, B.S., University of California, Los Angeles
Ruozi Song, Economics, B.S., Fudan University, China; M.A., New York University
- Paul Louis Sparks, Communication, B.S., Manchester College; M.A., American University; M.A., University of Southern California
Dissertation: How "Reducing" Affective Polarization Increases Politically Motivated Reasoning
- Serban Andrei Stan, Computer Science, B.S., Yale University
Dissertation: Unsupervised Domain Adaptation With Private Data
- Jesse Harrison Storbeck, Linguistics, B.A., Yale University; M.A., University of Southern California
- Dimitrios Stripelis, Computer Science, B.S., Athens University of Economics, Greece; M.S., University of Southern California
Dissertation: Heterogeneous Federated Learning
- Julian Rawson Suhr, English, B.A., Williams College
Dissertation: Settler Colonialism and Indigenous Sovereignty in the 19th Century U.S.
- Anne Elizabeth Sullivan, English, B.A., University of California, Santa Barbara; Grad.Cert., University of Southern California; M.A., American University
Dissertation: Immersive Shakespeare
- Oskar Sundberg, Chemistry, B.S., Wagner College
- Ying Tan, Applied Mathematics, B.S., Fudan University, China
Dissertation: Stochastic Two-Point Boundary Value Problems and Applications in Kyle-Back Model
- Amal Thomas, Computational Biology and Bioinformatics, B.Engr., Indian Institute of Technology – Kharagpur, India
Dissertation: Orthogonal Shared Basis Factorization: Cross-species Gene Expression Analysis Using a Common Expression Subspace
- Jingyi Tian, Economics, B.S., University of Hong Kong
- Armen Tokadjian, Physics, B.S., University of California, Los Angeles
Dissertation: Tides and Exomoons: Orbital Evolution, Detection, and Habitability
- Christina Diem Mi Trang, Chemistry, B.S., University of Oregon
- Cindy Tseng, Chemistry, B.S., University of Washington
Dissertation: Probing Charge Transfer and Electric Fields at the Bulk and Interface Using Infrared Spectroscopy

Doctor of Philosophy (continued)

- Marisa Turesky, Urban Planning and Development, B.A., Brandeis University
Dissertation: Locating Lesbian Lives: Housing, Neighborhoods and Gathering Spaces Across the Lifespan
- Adam B. Ung, Chemistry, B.S., California State University, Sacramento
Dissertation: PSSA-PVDF Semi-IPN Blends for Direct Methanol Fuel Cells
- Dario Urbina Melendez, Biomedical Engineering, B.Eng., National Autonomous University of Mexico; M.S., University of Southern California
Dissertation: Exploiting Mechanical Properties of Bipedal Robots for Proprioception and Learning of Walking
- Anthony Gianni Vaccaro, Psychology, B.A./B.S., University of Rochester; M.A., University of Southern California
Dissertation: The Neuroscience of Ambivalent and Ambiguous Feelings
- Ryan Daniel Van Damme, Pharmaceutical Sciences, B.S., University of California, Merced
Dissertation: Developing New Tools for the Determination of RNA Structures and Interactions in Cells
- Anne Marieke Van Wijk, Political Science and International Relations, B.A., Universiteit Utrecht, Netherlands
Dissertation: The IO Contestation Project: A Multi-Method Approach Towards Understanding the Different Ways States Contest International Organizations
- David Velasquez, Urban Education Policy, B.A., University of California, Berkeley; M.Ed., University of California, Los Angeles
Dissertation: Policy and Practice for the People: An Asset-Based Examination of Trends, Conditions, and Experiences of Latinx Community College Students
- David Alberto Velazquez, Chemistry, B.S., California State Polytechnic University, Pomona
- Vanessa Angelica Villarreal, Literature and Creative Writing, B.A., University of Houston; M.F.A., University of Colorado Boulder
Dissertation: Magical/Realism
- Binh Le Thanh Vu, Computer Science, B.Eng., Ho Chi Minh City University of Technology, Vietnam
- Isabel Frampton Wade, Art History, B.A., University of Chicago; M.A., University of Southern California
Dissertation: Exposing Urban Form: Commercial Architectural Photography in Los Angeles, 1938-1981
- Douglas Charles Wadle, Philosophy, B.A., New York University; M.A., University of California, Los Angeles; M.F.A., California Institute of the Arts
- Casandra Walker, Molecular Pharmacology and Toxicology, B.S., Florida A&M University
Dissertation: Identification of Functional Pathways Altered In Testis by In Utero Exposure to Low Doses of Genistein and DEHP Mixtures
- Qingpei Wan, Chemistry, B.Eng., Shenzhen University, China; M.S., University of Southern California
- Anqi Wang, Epidemiology, B.S., Peking University Health Science Center, China; M.S., Johns Hopkins University
Dissertation: Life-Style and Genetic Risk Factors for Prostate Cancer
- Chao Wang, Computer Engineering, B.Eng., Beijing University of Posts and Telecommunications, China; M.S., Lehigh University
Dissertation: Leveraging Remote Memory in Distributed Systems
- Lijia Wang, Applied Mathematics, B.S., University of California, Irvine; M.S., University of Southern California
Dissertation: Asymmetric Statistical Learning in Testing, Classification, and Network Analysis
- Menglin Wang, Biostatistics, B.Eng., Sichuan University, China; B.S., Eastern New Mexico University; M.S., University of Southern California
Dissertation: Statistical Downscaling with Artificial Neural Network
- Peiyu Wang, Biomedical Engineering, B.Eng., Harbin Institute of Technology, China; M.S., University of Southern California
Dissertation: Machine Learning and Image Processing of FLIM Microscopy Enables Tracking and Analysis of Subcellular Metabolism
- Phillip Wang, Engineering, B.S., University of California, Santa Cruz
Dissertation: Wastewater-based Epidemiology for Emerging Biological Contaminants
- Pu Wang, Biomedical Engineering, B.Eng., Communication University of China; M.S., University of Southern California
- Shirlene D. Wang, Preventive Medicine, B.A., Vanderbilt University
Dissertation: Developing and Testing Novel Strategies to Detect Inattentive Responding in Ecological Momentary Assessment Studies
- Shiyun Wang, Mathematics, B.S., Central South University, China; M.P.A., University of Southern California
Dissertation: Applications on Symmetric and Quasisymmetric Functions
- Xuechun Wang, Biomedical Engineering, B.S., North Carolina State University
Dissertation: Smart Microdevices for In Vivo Physiological Sensing
- Ying Wang, Chemistry, B.S., University of Science and Technology of China
Dissertation: Superconductivity in Low Dimensional Topological Quantum Systems
- Yu-Hsuan Wang, Gerontology, B.S., M.S., National Taiwan University
- Yunwen Wang, Communication, B.S., University of Macau; M.S., Purdue University; M.A., University of Southern California
Dissertation: Gamification + HCI + CMC: Effects of Persuasive Video Games on Consumer's Mental and Physical Health

Doctor of Philosophy (continued)

- Shane William Ward, Philosophy, B.A., University of Southern California
- Benjamin Hanson Weekley, Cancer Biology and Genomics, B.S., Wake Forest University
Dissertation: The Role of MMP-2 Facilitated Histone H3 N-Terminal Tail Proteolysis in Gene Regulation in Myogenesis and Cancer
- Chao Wei, Neuroscience, B.S., Baylor University
Dissertation: Transient Receptor Potential Melastatin 8 is Required for Nitroglycerin- and Calcitonin Gene-related Peptide-induced Migraine-like Pain Behaviors in Mice
- Nicholas Alexander Welchert, Chemical Engineering, B.S., University of Arizona; M.S., University of Southern California
Dissertation: Controlling Polymer Film Patterning, Morphologies, and Chemistry Using Vapor Deposition
- Brandi Michelle Wells, Literature and Creative Writing, B.A., Georgia Southern University; M.F.A., University of Alabama, Tuscaloosa
- Lisa Welter, Molecular Biology, B.S., M.S., Universiteit Maastricht, Netherlands
Dissertation: Heterogeneity and Plasticity of Malignant and Non-malignant Circulating Analytes in Carcinomas
- Casey Wiens, Integrative and Evolutionary Biology, B.S., Nebraska Wesleyan University; M.S., University of Nebraska at Omaha
Dissertation: Using Biomechanics to Understand How an Individual Accomplishes a Task in a Variety of Contexts
- Jason Ezra Williams, Physics, B.S., Columbia College
Dissertation: Detecting Atmospheres through our Atmosphere: Reaching the Fundamental Limits of Spectrophotometry with Henrietta
- Emily Williamson, Chemistry, B.S., University of Miami
Dissertation: The Implementation of Data-Driven Techniques for the Synthesis and Optimization of Colloidal Inorganic Nanocrystals
- Kristi Michelle Wisniewski, Gerontology, B.S., University of Alabama, Tuscaloosa
Dissertation: Subjective Memory Complaint: A Screening Measure for Cognitive Decline
- Pawel Wojcik, Chemistry, B.S., University of Warsaw, Poland
- Zachary Wood, Chemistry, B.S., University of Kansas
- Charles Henrik Woolley, Geological Sciences, B.S., University of Colorado Boulder
Dissertation: Assessing the Quality of the Fossil Record using a Phylogenetic Approach
- Chou-Chun Wu, Industrial and Systems Engineering, B.S., M.S., National Tsing Hua University, Taiwan
Dissertation: Optimizing Chronic Disease Screening Frequencies Considering Multiple Risk Factors and Patient Behavior
- Yihao Xia, Electrical Engineering, B.Engr., Sichuan University, China; M.S., University of Southern California
- Qiangeng Xu, Computer Science, B.Engr., Beihang University, China; M.S., University of Pennsylvania
Dissertation: Point-based Representations for 3D Perception and Reconstruction
- Liyang Yang, Economics, B.A., Central University of Finance and Economics, China
- Nina Yang, Biology, B.A., Barnard College
Dissertation: Iron-dependent Response Mechanisms of the Nitrogen-fixing Cyanobacterium *Crocospaera* to Climate Change
- Shaoshuang Yang, Economics, B.A., Peking University, China; M.A., University of Southern California
- Shunan Yao, Applied Mathematics, B.A., Beihang University, China; M.S., University of Southern California
Dissertation: Asymptotic Analysis for Asymmetric Classification and Robust Statistics
- Siyuan Yao, Industrial and Systems Engineering, B.Engr., Wuhan University of Technology, China; M.S., University of Southern California
Dissertation: Models and Algorithms for the Freight Movement Problem in Drayage Operations
- Xiaozhe Yin, Biostatistics, B.Engr., M.Engr., Nanjing University of Technology, China
Dissertation: Uncertainty Quantification in Extreme Gradient Boosting with Application to Environmental Epidemiology
- Jeong Sang Yoo, Economics, B.S., M.S., University of Southern California
- Joon Sang Yoon, Business Administration, B.S., M.S., Duke University
Dissertation: Social Movements and Access to Credit
- Jeffrey Yu, Health Economics, B.A., Bowdoin College
Dissertation: Alzheimer's Disease: Risk Factors, Value for Money, and Alternative Payment Models
- Sheila Yu, Preventive Medicine, B.S., University of Texas at Austin; M.P.H., University of Texas Health Science Center at Houston
Dissertation: The Moderating Effect of Post-Traumatic Growth in the Association Between Stress and Compulsive Internet Use
- Bo Yuan, Pharmaceutical Sciences, B.S., University of California, Davis
Dissertation: Genome Mining of Biosynthetic Gene Clusters of Secondary Metabolites Produced in Filamentous Fungi Using CRISPRCas9
- Jessica Mae Zaiss-Bowman, Geological Sciences, B.S., Rose-Hulman Institute of Technology; M.S., University of Hawaii at Manoa
- Jeanette Zambrano, Urban Education Policy, B.A., California State University, Long Beach
Dissertation: Culturally-Relevant, Autonomy Supportive Instruction: Toward an Integration for Enhancing the Motivation of Racially and Ethnically Diverse Learners

Doctor of Philosophy (continued)

Kaylie Rebekah-Marsh Zapanta, Biokinesiology, B.S., California State University, Fullerton; M.S., San Francisco State University
 Dissertation: The Role of the Gut Microbiota on Physical Fitness, Motor Function, and Cognition in Parkinson’s Disease

Ingrid Karina Zeledon, Preventive Medicine, B.S., University of California, Los Angeles; M.S., Chapman University
 Dissertation: Contextualizing Experiences and Developmental Stages of Immigration and Cultural Stressors in Hispanic/ Latinx Adolescent Youth

Hanqing Zeng, Computer Engineering, B.Engr., University of Hong Kong
 Dissertation: Scaling up Deep Graph Learning: Efficient Algorithms, Expressive Models and Fast Acceleration

Zipeng Zeng, Development, Stem Cells and Regenerative Medicine, B.S., University of Alabama, Tuscaloosa
 Dissertation: Generation of Patterned Kidney Organoids that Recapitulate the Adult Kidney Collecting Duct System

Chi Zhang, Computer Science, B.Engr., Southeast University, China; M.S., University of Southern California
 Dissertation: Acceleration of Deep Reinforcement Learning: Efficient Algorithms and Hardware Mapping

Haimeng Zhang, Electrical Engineering, B.S., University of Science and Technology of China

Min Zhang, Electrical Engineering, B.S., Nanjing University of Science and Technology, China; M.S., University of Southern California
 Dissertation: Explainable and Green Solutions to Point Cloud Classification and Segmentation

Wensi Zhang, Business Administration, B.A., Fudan University, China; M.A., Vanderbilt University
 Dissertation: Essays on the Economics of Digital Entertainment

Junteng Zhao, Urban Planning and Development, B.A., Peking University, China
 Dissertation: Health Impact Assessment, the Concept, Science, and Application in China

Yinqi Zhao, Biostatistics, B.S., China Agricultural University; M.S., Columbia University
 Dissertation: Integrative Analysis of Multi-View Data with Applications in Epidemiology

Eugene Zhou, Clinical and Experimental Therapeutics, B.A., University of California, Berkeley; M.S., University of Southern California

Hao Zhou, Biomedical Engineering, B.Engr., M.S., University of Science and Technology, Beijing, China
 Dissertation: Metabolic Profiling of Single Hematopoietic Stem Cells for Developing Novel Ex Vivo Culture Strategies

Jian Zhou, Mathematics, B.S., Boston College
 Dissertation: Categorical Link Closure in Partially Wrapped Fukaya Categories

Wei Zhou, Economics, B.A., Shanghai University of Finance and Economics, China

Yixian Zhu, Electrical Engineering, B.Engr., Tsinghua University, China
 Dissertation: Information Design in Non-Atomic Routing Games: Computation, Repeated Setting and Experiment

Yujun Zhu, Gerontology, B.A., Shanghai University of Traditional Chinese Medicine, China; M.S., University of Southern California
 Dissertation: Racial Disparities in Advance Care Planning and Directives Completion and End-of-Life Outcomes in the United States

Ziyue Zhu, Chemistry, B.S., Pennsylvania State University

SPECIAL AWARDS

Academic Honors

Valedictorian

Every university has its own set of traditions for selecting commencement speakers and honorees. The custom at the University of Southern California is to name one student as the valedictorian and one or more students as salutatorians. The valedictorian delivers the address on behalf of the graduating class at the university's commencement ceremony.

The selection process at USC differs considerably from that of most high schools, where recognition is based solely on cumulative grade point average. Under that system, the valedictorian and salutatorian are ranked first and second, respectively, in their class. USC's process recognizes the highest levels of academic achievement, while taking a more holistic view of a student's time at the university.

All graduating students who have earned a cumulative USC grade point average of 3.98 or higher as of the conclusion of the fall semester are invited to apply to be named valedictorian. A panel of senior faculty members, drawn from across the university, reviews all applications, with the selection based on the following factors:

- Grade point average
- Number of course units completed at USC
- Breadth of academic program
- Challenge of academic program
- Contribution to university and community life

Isha Sanghvi, *Neuroscience/Social Entrepreneurship*

Salutatorians

Carina Lee Robles, *Political Science & Law/Dance*

Liam Richard Tsao, *History & Social Sciences/Marine Biology*

University Trustees Award

This honor is granted to graduating seniors who have attained the highest scholarship average since their first year at the University. The recipients of this award have earned a perfect 4.0 grade point average for their entire undergraduate course of study at USC.

Steven and Kathryn Sample Renaissance Scholars

Steven and Kathryn Sample Renaissance Scholars are students who graduate with a major and minor or two majors that are in widely separated fields of study. A faculty panel certifies the breadth of their academic programs. To earn this academic honor, students must graduate with no less than a 3.5 overall grade point average and no less than a 3.5 grade point average in at least two distinct fields of study. Each year, 10 Renaissance Scholars are selected to receive a \$10,000 prize toward graduate study.

Warren Bennis Scholars

The Warren Bennis Scholars Program is a university-wide initiative offered by the Office of the Provost through the Brittingham Social Enterprise Lab at the USC Marshall School of Business. Each year, 20 students across academic disciplines are selected at the end of their sophomore year to receive intensive leadership training and access to top USC professors. The program honors USC Distinguished University Professor Warren G. Bennis, an internationally recognized authority on leadership who mentored countless students during his distinguished 35-year career at USC.

David L. Boren Scholarship for International Study

The David L. Boren Scholarship for International Study provides funding for U.S. undergraduate students studying in Africa, Asia, Central and Eastern Europe, Eurasia, Latin America and the Middle East. Boren Scholarships require rigorous language study, and the majority of awardees spend a full academic year overseas. In exchange for funding, Boren Scholarship recipients commit to working in the federal government for at least one year after graduation.

Student Recognition Awards

Order of the Laurel and the Palm

Exemplary leadership and high achievement characterize those selected for the Order of the Laurel and the Palm, the highest honor accorded to undergraduates completing their programs of study. Recipients display significant leadership that touches multiple facets of university life and have made notable contributions that leave a lasting impact on the university community or the world at large through their commitment to service and valuing of the university's highest goals and ideals. Less than one percent of undergraduates earning their degrees are selected for this honor.

Order of Troy

Recipients of the Order of Troy have distinguished themselves beyond their peers in at least one facet of university life and have made notable contributions to the university community as active leaders or critical contributors in service to their peers, the university community or the world at large. These students have pursued academic excellence while devoting extensive time and energy to service outside the classroom.

Order of Areté

Areté, taken from the Greek, means virtue or excellence in attaining one's utmost human potential. Members of the Order of Areté have distinguished themselves among their peers through campus or community leadership roles beyond those required for their programs of study, often making notable contributions to the university, academic discipline, community or world at large. In these leadership roles, members demonstrate significant depth and scope of responsibility, and they are recognized for upholding value and meaning over individual achievement. The award represents the highest honor accorded graduate students upon completion of their academic programs.
