CEREMONY

UNIVERSITY OF SOUTHERN CALIFORNIA | MAY 2025

ALMA MATER

All Hail to Alma Mater

To thy glory we sing;

All Hail to Southern California

Loud let thy praises ring;

Where Western sky meets Western sea

Our college stands in majesty;

Sing our love to Alma Mater,

Hail, all hail to thee!

ACADEMIC REGALIA

“(The) wearing of gowns by judges, ministers, teachers, and scholars is an ancient and impressive custom.... As the graduating students of American high schools, colleges, and universities march in academic procession on Commencement Day to receive their diplomas or degrees, they, too, (and perhaps, for some, only this once in their lives) wear the caps and gowns of this long tradition.... For a moment, they are wearing an ancient regalia, the proud badge of belonging to a great profession, that of student. Holding hands with students past and students present in a chain which goes back into history. Every detail should be keyed to stress the occasion as adventure, a turning point, something memorable and important.”

Frank C. Baxter (1896–1982)
Professor Emeritus of English
University of Southern California

At the end of the 19th century, colleges and universities in the United States were developing the kind of ruleless academic costume that emerged from the centuries in Great Britain. There and in the dominions, each university adopted its own costume without regard to what other institutions had done. The result was a confusing array of caps, gowns, and particularly hoods, each one of which must be separately memorized.

Recognizing this problem, American institutions responded in 1895 by creating an intercollegiate commission to consider a uniform code for academic costume. The resulting Intercollegiate Code regulated the design or pattern of gowns and hoods and the colors and materials to be used. The code was subsequently adopted by almost all of the colleges and universities in the country. It is still in use today, although slightly modified by successor committees appointed by the American Council on Education.

Gowns

The code provides for three types of gowns. Those for bachelor's students are made of black material and have long, pointed sleeves. They should be worn closed. The master's gown, also black, is made with an oblong sleeve, open at the wrist. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is also worn closed. In 2018, the university unveiled new custom regalia for bachelor's and master's students. The new gowns feature a cardinal band and the USC shield on the sleeves, along with cardinal piping. The custom regalia highlights the prestigious brand of USC in an elegant and timeless manner.

The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck and by three bars of the same material on the bell-shaped sleeves. It is cut much fuller than the other gowns and may be ornamented in color. (As a matter of

practice, except in the areas of philosophy and law—dark blue and purple, respectively—faculty colors are rarely seen on the gown.)

The standard cap and gown are almost universally worn, but there are some outstanding deviations, including Harvard, Princeton, Yale, Stanford, Columbia, New York University, the University of Chicago, and the University of Southern California. Cardinal and gold doctoral gowns were proposed for the university's centennial by Dr. Jerome B. Walker, centennial director, in 1980. Cardinal gowns with yellow velvet panels were first worn during President James H. Zumberge's inauguration in May 1981. For President Steven B. Sample's 1991 inauguration, the design for doctoral gowns was modified, adding red velvet panels framed by bright gold braids.

Caps

Although there is an exception, rarely seen, for women that allows them to wear a soft cap, the mortarboard or Oxford-type cap is worn. Only the doctor's cap may be made of velvet. The tassel worn with the cap has three variations: (1) it may be black for any degree, (2) it may be in the color of the faculty (field of learning) in which the degree was granted, or (3) doctors and governing officials, only, may wear a tassel of gold metallic thread. Black tassels are worn at USC for all bachelor's and master's degrees. Students wear their tassels on the right side before symbolically turning them to the left during the conferral of degrees.

The cap is an essential part of the academic costume and is worn with it at all times except, of course, when caps are removed during prayer or during the playing of the national anthem. The gold tassel of the doctor's cap is so fastened that it drapes over the left front quarter of the cap. From this design, it has become customary to leave the tassel draped over the left temple at all times.

Hoods

Of all the components of the costume, the hood is the most symbolic. It makes clear the level of the degree, the faculty in which it was given, and the institution that awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctors, by the shape. The hood is lined with the colors of the school awarding the degree; at USC, the silk lining is gold with a cardinal chevron. The color of the velvet band around the hood shows the department in which the wearer has taken his or her degree. All Master of Arts (white) and Master of Science (gold) degrees are bestowed by the Graduate School. The color of the velvet band around the hood for all PhDs is dark blue. Specialty degrees have individual colors based on the degree earned.

The academic regalia worn by the participants in the Commencement ceremony is not merely costume. It represents an unbroken chain uniting students and scholars since the Middle Ages.

Presidential Medallion of Office

The medallion of office is worn by the president over their official regalia at ceremonial occasions. It was created by Associate Provost Jerome B. Walker for the inauguration of President James H. Zumberge on May 10, 1981, to serve as a tangible symbol of the authority vested in the president by the Board of Trustees. For his 1991 inauguration, President Steven B. Sample asked Dr. Walker to design the medallion's current chain, which consists of shields identical to that found in the university seal, linked together 16 times.

The front of the medallion depicts the university seal in full, and the back lists the name of the current president and the date of their inauguration. Each president keeps their medallion after retirement. For his 2010 inauguration, Dr. C. L. Max Nikias directed that two copies of the medallion be created: one to be worn by the president at appropriate events, the other to be displayed in the Office of the President. The display medallion includes the name of each of the past presidents of USC engraved on the links of its chain.

University Mace

The mace is a ceremonial scepter symbolizing the authority of the Office of the President. The president of the faculty has the honor of serving as mace bearer in all academic processions for Commencements and other official university ceremonies.

The university mace was first used at the inauguration of President Norman Topping on Oct. 28, 1958. The mace was designed and crafted by the renowned master silversmith, USC alumnus and professor emeritus Hudson Roysner. The

head of the mace depicts the university seal. Encircling the head of the mace is the hand-engraved inscription, "1880 University of Southern California." The names of the university's past presidents and the current president are engraved on the bowl. The crowning ornament is a depiction of the walled city of Troy.

Marshals' Batons

Designed for the inauguration of Dr. C. L. Max Nikias as 11th president of the university, a baton is carried by every marshal in the official procession. The batons are carved from walnut, with the university seal mounted in gold at the top. The fluted shape of the baton evokes the torch of learning, which is also found on the university seal.

At the University of Southern California, marshals are traditionally chosen from the ranks of the faculty to lead the student procession at New Student Convocation and Commencement. The university marshal and the president of the faculty march at the head of the procession.

Trustee Gowns

The cardinal robes of office worn by university trustees were designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration. Reminiscent of the university's doctoral gowns, the trustee robes feature red velvet front panels and chevrons on the sleeves. Bright gold piping outlines both the panels and the chevrons. Each of the front panels features an embroidered shield on the lapel, taken from the university seal.

The trustees wear a doctoral hood lined with USC's traditional gold satin with a cardinal chevron. The hood has a red velvet collar representing the university, in place of a faculty color representing a single discipline.

The university marshal wears a special gown that serves as a bridge between the trustee robes and the university's doctoral gown, with the university seal embroidered on the lapel.

ACADEMIC SYMBOLS OF THE UNIVERSITY

Original University Seal

The university's original seal was developed in 1884 to emboss the diplomas of the school's first graduating class. This seal depicted the year of USC's founding (1880) emblazoned on a scroll next to a palm tree (in heraldry, a symbol of righteousness and victory), with the name of the institution inscribed around the border.

1908 Seal

At the behest of university administrators in 1908, Jesse Ray Miller devised a new seal that introduced USC's official flower, the California poppy, a heraldic symbol of remembrance, hope, joy, and growth. The seal also included a shield bearing a setting sun and three torches. In heraldic tradition, the torch symbolizes learning, and the three torches displayed here represented learning in the arts, the sciences, and philosophy. The setting sun signified the West and, according to heraldic symbolism, power and life. Finally, enfolding the shield was a scroll displaying the university's new motto, "Palnam Qui Meruit Ferat." Freely translated, it means: "Let whoever earns the palm bear it."

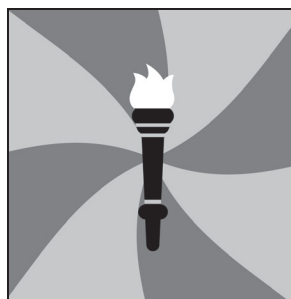

Current Seal of the University of Southern California

In 1948, the USC Board of Trustees approved an updated version of the university seal. In this version, the poppies appear next to the shield inside the outer band, which is now formatted as a scroll. The Latin motto is inscribed on a separate scroll at the base of the seal. This seal continues to be the imprimatur, or official signature, of USC to this day.

HERALDIC FLAGS

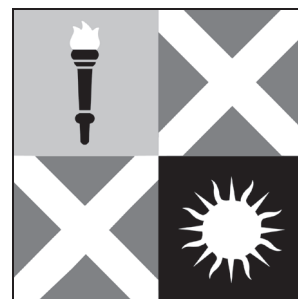

Originally designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration, heraldic flags for each academic degree-granting unit are displayed at Commencement and other academic convocations. These flags, carried by students, precede the faculty in the procession. By a long-standing tradition, most academic disciplines have used an identifying color, which is displayed on academic hoods to indicate the subject area in which the wearer obtained the degree. These identifying academic colors are used in the banners of the various schools and divisions of the university.

Found in the university seal, the torch of knowledge is a clear and honorable symbol, well suited to an institution of higher learning, and is one of the charges on the university's official seal. The university seal also contains a sun. Known as a "sun in its splendor," it has a perimeter featuring alternating straight and wavy rays. The straight rays represent the light and the wavy rays the warmth and affection that the university extends to its students and community. The torch and the sun are used to unite these disciplines under the flag of the University of Southern California.

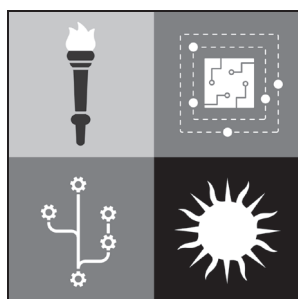

College of Letters, Arts and Sciences

Academic colors: white for letters, gold for sciences. The wide-ranging fields over which this college functions are symbolized by the intimate intertwining of letters, arts, and sciences in the heraldic pattern known as "gyronny." The torch of knowledge serves as a reminder that the college is the academic heart of the university.

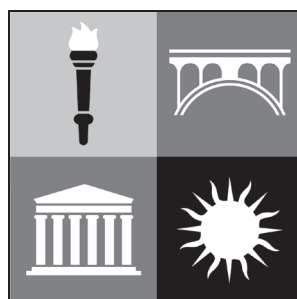

The Graduate School

Academic color: white for arts, gold for sciences, royal blue for the doctorate. In heraldry, the saltire (a corner-to-corner cross) symbolizes the wide range of disciplines over which this school presides and which the saltire unites in one unit.

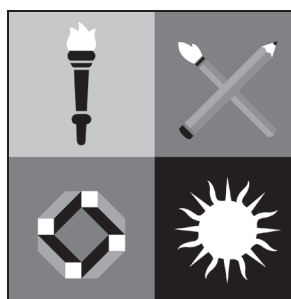

Advanced Computing

Academic color: orange. The circuit board and branching nodes of the flow chart signify the collaborative bonds that spark groundbreaking discoveries in advanced computing. The electrons orbiting the circuit board refer to quantum computing, and the gears in the Git branch nod to a tight-knit relationship with the USC Viterbi School of Engineering.

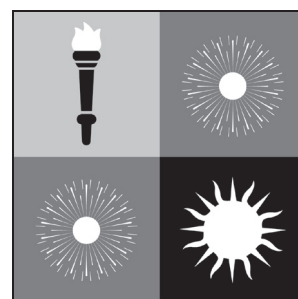

Architecture

Academic color: blue-violet. The Doric portico is used here as a symbol of beauty and proportions inspired by the early Greek architects, who continue to inspire the architect today. The modern bridge represents progress, connections, and stability. The blue background, representing the sky, suggests the almost limitless scope of architecture.

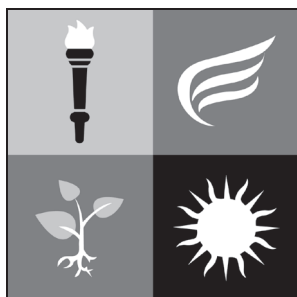

Art and Design

Academic colors: brown for arts, white for letters. Here the symbols reflect two important branches of art and design. The paintbrush and pencil symbolize fine arts, such as painting, drawing, and sculpture. The abstract symbol, with its pixel-like design, reflects the emergence and evolution of digital arts.

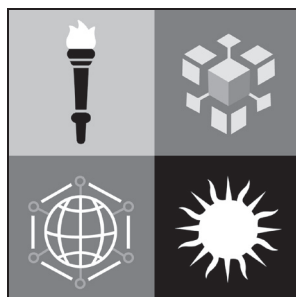

Arts, Technology and the Business of Innovation

Academic color: brown. The supernova, an astronomical event that occurs during stellar evolution causing the sudden appearance of a new, brighter star, represents the idea of disruption and the supreme energy exhibited by the founders and students of the academy. The flag's additional colors are described in heraldic language as metals: gold and bronze.

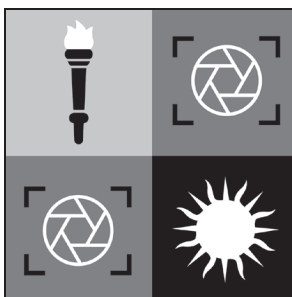

Bovard College

Academic color: white. The soaring sails symbolize confidence and agility in providing a student-centered approach to learning. The rooted plant is a symbol of the stability, growth, and abundance of opportunity. Colors featured in the flag are rendered as metals—gold, silver, and bronze—in traditional heraldic terms.

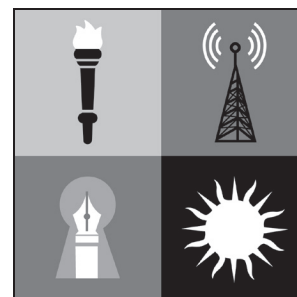

Business

Academic color: drab. The square figures that are symmetrically arranged on this flag are designed to symbolize the organizational characteristics of business in all its complexity. The interconnected sphere represents an enterprising and global approach to business.

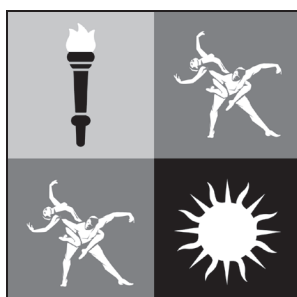

Cinematic Arts

Academic colors: brown for arts, white for letters. The six triangles represent the strength of the individual specialties, such as camera, editing, sound, writing, criticism, and aesthetics, that form the larger discipline of cinematic arts. When combined, they form an aperture, at the center of which is the human eye, representing the mediation essential to the discipline.

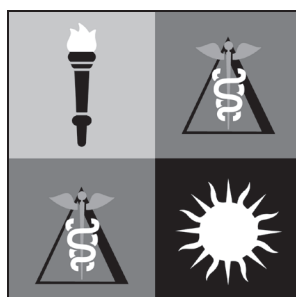

Communication and Journalism

Academic colors: crimson for communication, white for journalism. The three data waves emanating from the transmitter in both directions symbolize the fact that all communication has a threefold aspect—communicator, audience, and medium—all of which are involved in the interplay and sharing of a message. The quill tip within the keyhole represents freedom of the press.

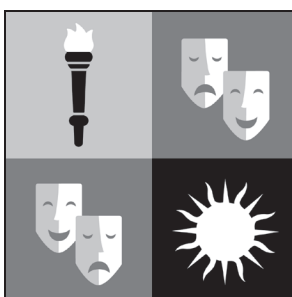

Dance

Academic color: amethyst. Dance is one of the oldest and most central expressions of humanity. The two interlocking figures represent creativity and innovation, and they capture the artistry of bodies in motion. The sun in its splendor represents the courage and power incumbent in authentic artistic creation, and white is the traditional heraldic color representing the arts and humanities.

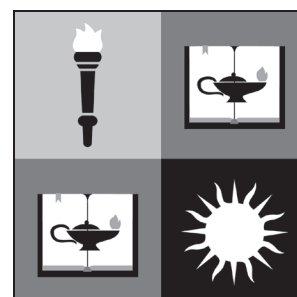

Dentistry

Academic color: lilac. Dentistry, like the other scholarly areas associated with health care, uses the traditional Asclepian staff and serpent—in this case, enclosed in a capital Greek letter, delta, an homage to the official emblem of dentistry.

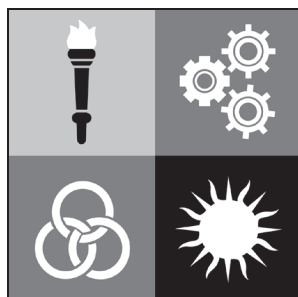

Dramatic Arts

Academic colors: brown for arts, white for letters. The classic emblem of comedy and tragedy is based on masks worn by actors in ancient Greek theater productions. They reflect not only the two main genres of the dramatic arts, but also the duality of the human experience.

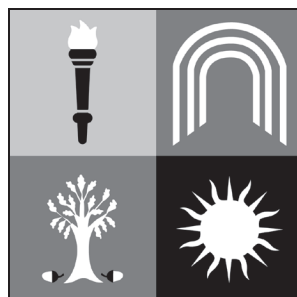

Education

Academic color: light blue. The book, illuminated by the lamp of learning, is a very widely used, traditional symbol for education, and occurs in many shields of arms. The flame from the torch of knowledge illuminates the tip of the lamp.

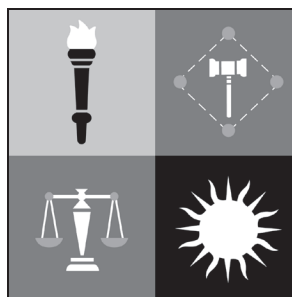

Engineering

Academic color: orange. The interlinked circles, inspired by the classic mathematical Borromean rings, join the cogs and gears in this flag to symbolize the way in which the profession of engineering interacts with math and the applied sciences to solve society's most pressing and wicked problems.

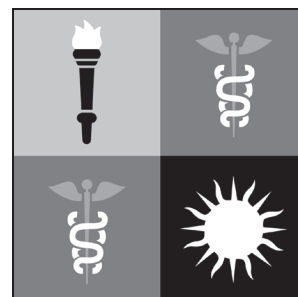

Gerontology

Academic color: white. The very characteristic architecture of this school is incorporated in the flag, along with the oak tree, symbolizing sturdiness and longevity, and acorns, representing the constant renewal of life.

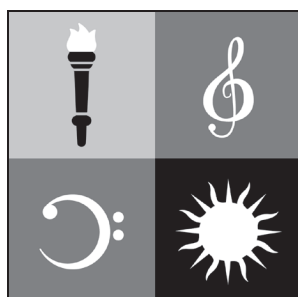

Law

Academic color: purple. The four points surrounding the gavel in this flag symbolize the levels at which the legal profession provides a bulwark and framework for our society: federal, state, county, and local. The scales of justice reflect the fair and impartial balance sought by the law.

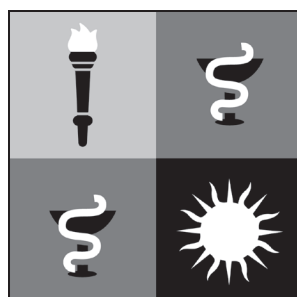

Medicine

Academic color: green. The staff of Asclepius, the Greek god of medicine, around which is entwined the harmless snake beloved of Asclepius, has been the symbol of medicine for many centuries.

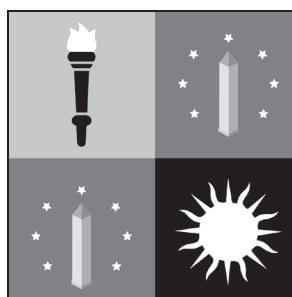

Music

Academic color: pink. Music is a universal means of communication between human beings, linking the past, present, and future. The treble and bass clefs symbolize music expressed in all its forms and styles, vocal or instrumental.

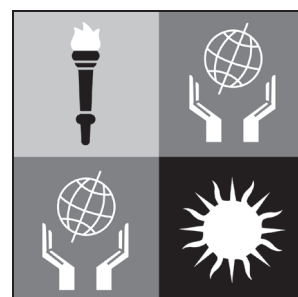

Pharmacy and Pharmaceutical Sciences

Academic color: olive. Pharmacy is symbolized by the bowl of Hygieia, the Greek goddess of health, coupled with the Asclepian serpent, showing the intrinsic relationship between pharmacy and medicine.

Public Policy

Academic color: peacock blue. The school's work is represented in triads, reflecting the intersection of three sectors, three levels of government, three locations, and three levels of degree programs. The three shapes that come together to form the obelisk evoke those triads. The symbol of the obelisk surrounded by stars reflects structure, security, and liberty.

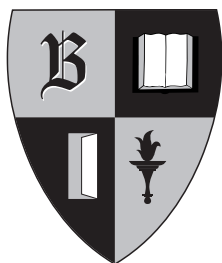

Social Work

Academic color: citron. As symbolized by outstretched hands cradling the globe, social work by its very nature is about embracing our connections as human beings and inspiring the spirit of compassion and mutual respect that assists individuals and communities in reaching their full potential.

RESIDENTIAL COLLEGES

The University of Southern California transformed its first-year student housing into residential colleges in 2012, bringing special cultural programming, academic opportunities, and mentoring from faculty members to many more students. Along with this shift, the university unveiled official crests to represent each of these new colleges. Some echo the history of the university and its architecture, whereas others evoke the emerging themes of these new communities. All 14 crests are anchored in USC's identity, echoing elements from the university's official seal and embracing cardinal and gold as their dominant tones.

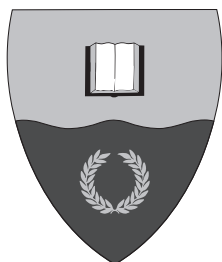

Birnkrant

Dubbed “eight floors of open doors” for its social atmosphere, this college introduces residents to the diverse cultural and creative worlds of Los Angeles. The crest features a “B” for Birnkrant, the torch of knowledge, a book, and an open door.

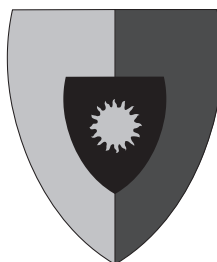

Bohnett

A community built around a core ideal of social action through entrepreneurship, this college embraces students seeking innovative solutions to social issues around the world. The torch of knowledge is framed by a chevron, a classic symbol of dutiful and benevolent service.

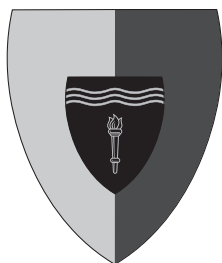

Cale

Home to scholars interested in global exploration, this community encourages cross-cultural interaction and critical dialogue regarding the ever-changing international landscape. Its symbols, the book and the wreath, reflect the exchange of ideas and triumph of humanity.

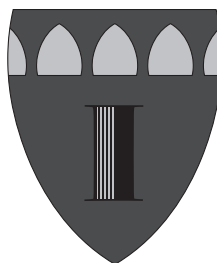

Cowlings

This college has arts and culture as its thematic focus, with an emphasis on the wealth of cultural experiences at USC and throughout Los Angeles. Residents are inspired to awaken their inner cultural explorer, reflected by the sun in its splendor contained within the crest.

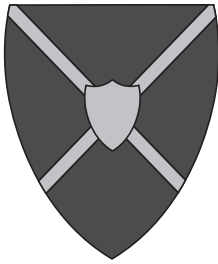

Ilium

A community for sophomore honors students, this college brings together scholars who share a commitment to rigorous intellectual and academic achievement. Its crest emphasizes the torch of knowledge, a classic symbol that has been part of the university's graphic identity since its inception.

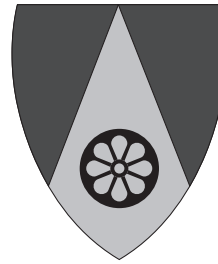

Irani

This college focuses on performance science; students living in this community explore their untapped potential in learning how to break down barriers inhibiting leadership, decision-making, resilience, or creativity. The pillar reflects stability and strength of character, and the windows along the upper portion of the crest echo architectural details at USC Village.

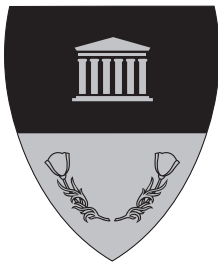

McCarthy Honors

Endowed by the Thomas and Dorothy Leavey Foundation, this college provides a home for exceptional scholars. The crest's design is inspired by McCarthy Quad, which was named in honor of Leavey Foundation Chair Kathleen Leavey McCarthy '57.

McMorrow

This community is a bastion of innovation, encouraging scholars to embrace their passions for technology, science, and design. Residents seek solutions to global challenges through creativity and novelty, a spirit emphasized in the crest's playful symbol.

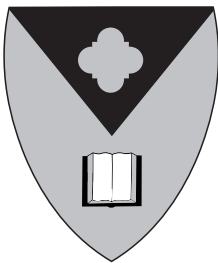

Nemirovsky

This college is home to students dedicated to sustainability and societal engagement. Its crest features the poppy, a symbol of growth and hope featured in the university seal, and pillars and a cornerstone, evoking the foundation of something lasting and monumental.

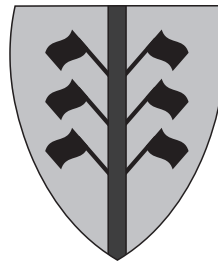

New North

This college is a hub of activity and combines four closely connected residence halls. The crest's interlocking angles, a classic heraldic shape, symbolize a collaborative environment.

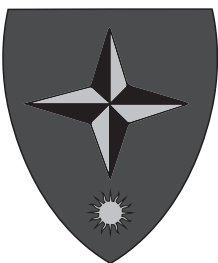

Parkside Arts and Humanities

This creative community is home to students of music, art, and literature. It's known for its performance and practice spaces. The crest draws from the nearby landscape of Mudd Hall, Hahn Plaza, and Nazarian Pavilion.

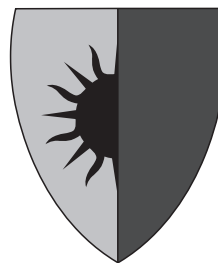

Parkside International

Global issues are a focus for this community, which brings together students from many nations. A display of flags on the crest represents the international traditions celebrated at the college.

South

Home to residents with a passion for social change, this community is represented by a compass rose, signifying exploration. The college includes two neighboring towers, Pardee and Marks.

West

This community focuses on holistic wellness and is fittingly located near several of USC's athletic and recreational facilities. The college's crest shows two adjoining colors, with the sun setting to the west.

HONORARY DEGREE

Maria Rosario Jackson

Doctor of Humane Letters

For more than 30 years, Dr. Maria Rosario Jackson has focused on understanding and elevating arts, culture, and design as critical elements of healthy communities. Her work blends social science with arts and humanities-based approaches to comprehensive community revitalization and systems change. She also examines the dynamics of race and ethnicity, and the roles that arts and culture play in building thriving communities.

Most recently, Dr. Jackson served as chair of the National Endowment for the Arts, which has nurtured artistic excellence across our country for almost 60 years. She was the first African American and the first Mexican American woman to lead the NEA. During her tenure, she advanced nationwide programs that affirm how the arts and creativity can strengthen our well-being. Prior to becoming the NEA's chair, she served on the National Council on the Arts for nearly a decade.

Dr. Jackson's strategic planning, policy research, and program administration have informed educational, public sector, and philanthropic endeavors that enrich the lives of millions. She is on leave as a professor at Arizona State University's Herberger Institute for Design and the Arts and the Watts College of Public Service and Community Solutions. For nearly two

decades, she was based at the Urban Institute, a national policy research organization in Washington, D.C., where she led pathbreaking work on the arts in communities. She also has been a senior advisor at the Kresge Foundation, and helped inform and guide programs at a variety of other national, regional, and local foundations.

Dr. Jackson brings much-needed attention to the places through which people experience art and culture. By identifying "cultural kitchens" that help communities preserve their unique traditions, develop new forms of expression, and address community challenges and aspirations, she urges people to respect and value America's rich cultural tapestry, including their own cultural contributions. Her tireless support for all people to have the opportunity to lead artful lives has extended to her service on the advisory and governance boards of numerous organizations including the Smithsonian Center for Folklife and Cultural Heritage, the Alliance for California Traditional Arts, the Performing Arts Center of Los Angeles County, and L.A. Commons.

Dr. Jackson's love of the arts stems from her parents, who encouraged her to explore and affirm her own cultural heritages, as well as those of others, while growing up in Los Angeles. She earned her doctorate in urban planning from UCLA, in addition to earning her master's degree from the USC Price School of Public Policy—where she has been a wonderful mentor to USC's students—and her bachelor's degree from the USC Annenberg School for Communication and Journalism.

For helping weave the diverse threads of our nation's cultural tapestry, and for her impassioned efforts to foster communal well-being through the arts, the University of Southern California is proud to honor Maria Rosario Jackson with the degree of Doctor of Humane Letters honoris causa.

HONORARY DEGREE

Terry Tempest Williams

Doctor of Humane Letters

Renowned author and educator Terry Tempest Williams stands at the vanguard of the global conservation movement. She has been called a “citizen writer”—a voice that speaks out eloquently on behalf of an ethical stance toward life. A fierce advocate for freedom of speech, she consistently demonstrates that environmental issues are also social issues that ultimately raise important questions of justice. At the heart of her work is a thought-provoking notion: What does a different kind of power look and feel like, and can power be redistributed equitably, even beyond our own species?

Ms. Williams’ career defies simple categorization. She is a thought leader, an environmental activist, and a champion for the protection of public lands and endangered species. She has also testified before Congress on women’s health, been a guest at the White House, camped in remote regions of Utah and Alaska, and worked with survivors of genocide in Rwanda. Everything she does helps reframe our understanding of our planet, particularly in realizing the difference between living on the Earth and living alongside it.

Known for her impassioned and lyrical prose, Ms. Williams is the author of more than 20 books. Her writing is rooted in the history and traditions of the American West, as well as her own ecological consciousness. Her many acclaimed works include her classic memoir, *Refuge: An Unnatural History of Family and Place*, as well as *Finding Beauty in a Broken World*, *Erosion: Essays of Undoing*, and *The Hour of Land*, which chronicles our country’s National Parks.

Ms. Williams’ numerous accolades speak to her far-reaching impact. She has received the Center of the American West’s Wallace Stegner Award and the Wilderness Society’s Robert Marshall Award—the group’s highest honor given to an American citizen. She is also the recipient of a Lannan Literary Fellowship and a Guggenheim Fellowship. Admired among her literary peers, she has earned the Western Literature Association’s Distinguished Achievement Award, the *Los Angeles Times*’ Robert Kirsch Award, and the Henry David Thoreau Prize for Literary Excellence in Nature Writing.

Currently, Ms. Williams serves as a writer-in-residence at the Harvard Divinity School. Her work has appeared in *The New York Times*, *The New Yorker*, *Orion Magazine*, and numerous anthologies worldwide. A member of the American Academy of Arts and Letters, she continues to inspire people everywhere to become guardians of the environment and advocates for social change.

For her decades of passionate ecological activism, her pioneering contributions to environmental literature, and her determination to lead our society in a more ethical direction, the University of Southern California is proud to honor Terry Tempest Williams with the degree of Doctor of Humane Letters honoris causa.

HONORARY DEGREE

Jon M. Chu

Doctor of Fine Arts

Jon M. Chu is an exceptionally creative director, producer, and storyteller known for his visually stunning films. His kinetic work across various genres captures the hearts and minds of audiences around the world, from groundbreaking blockbuster movies and television series to innovative commercials and digital media.

Mr. Chu's most recent film, *Wicked*, is a global cultural phenomenon. The first part of his highly anticipated two-part adaptation of the hit Broadway musical, it was nominated for 10 Academy Awards and won two, receiving honors for its costuming and production design. *Wicked* also received a Golden Globe and was recognized as 2024's best film by the National Board of Review, further cementing its status in the international cinematic canon. In 2018, his film *Crazy Rich Asians* became one of the top 10 highest grossing romantic comedies of all time—and the genre's most successful entry in a decade. It was also the first contemporary studio picture in more than 25 years to feature an all-Asian cast and opened up a new chapter for Asian American representation in Hollywood.

As a filmmaker, Mr. Chu continues to produce an eclectic body of work that speaks to his technical skill and his passion for telling a wide variety of stories. His projects include the critically acclaimed adaptation of Lin-Manuel Miranda's Tony Award-winning musical *In the Heights*, as well as the films *G.I. Joe: Retaliation*, *Now You See Me 2*, and *Justin Bieber: Never Say Never*. He is also in development on his first animated feature, an adaptation of the Dr. Seuss classic *Oh, the Places You'll Go!* In total, his films have earned more than \$2 billion at the worldwide box office.

Mr. Chu's unique storytelling ability has earned him the esteem of his peers and colleagues. He has been recognized on *The Hollywood Reporter's* Power 100 list and was named among *Variety's* New Hollywood Leaders. An alumnus of the USC School of Cinematic Arts, Mr. Chu is a wonderful mentor and role model for students, fellow alumni, and the entire Trojan community of artists. He is on the board of the Princess Grace Foundation, an organization that recognized him with its Cary Grant Film Honor during his time at USC. He also funds the Jon M. Chu APAA Cinematic Arts Scholarship, which is awarded to students whose projects focus on Asian Pacific culture in film, television, and interactive media. His work sparks creativity in filmmakers everywhere—and inspires joy in everyone striving to be seen and heard through their own stories.

For his stellar contributions to the culture of cinema and the creative arts, and for his meaningful efforts to advance representation in media, the University of Southern California is proud to honor Jon M. Chu with the degree of Doctor of Fine Arts honoris causa.

*IN MEMORIAM***Dr. John Callaghan***1930 – 2024*

Dr. John Callaghan was a central figure at USC's commencement ceremonies for decades, serving as university marshal from 1992 to 2016 and overseeing beloved festivities that drew tens of thousands to campus. He was also an associate professor emeritus of biological sciences at the USC Dornsife College of Letters, Arts and Sciences, and taught anatomy, kinesiology, and sports psychology to generations of students for nearly 40 years.

Dr. Callaghan was born in Liverpool, England, in 1930. He discovered his lifelong passion for athletics while challenging his friends to table tennis matches at his local youth club, and would later go on to play tennis and rugby competitively. After serving in the Royal Air Force, he earned his diploma in education from Loughborough College (now Loughborough University) in Leicestershire and began teaching mathematics and physical education.

During this time, Dr. Callaghan enrolled in a year-long master's program at USC. Impressed by the faculty and fellow students—and by the powerhouse Trojan athletics program—he stayed on to complete his PhD in sociopsychology of sport in 1971. He eventually became a USC professor as he and his wife, Mary Elizabeth, settled in America for good, raising four children who would all become Trojan alumni.

By the early 1990s, Dr. Callaghan was appointed university marshal, a post responsible for organizing the university's annual commencement and convocation ceremonies. He chaired four committees annually, overseeing hundreds of staff and volunteers, and marched in the academic procession at the start of commencement festivities until his retirement. Thanks to his suggestion, USC began a special hooding ceremony for PhD graduates, a tradition that continues to this day.

The Trojan Family will always remember Dr. Callaghan as an inspiring leader, a dedicated teacher, and a caring friend whose warmth and enthusiasm uplifted those around him. For 25 years, he infused the university's keystone academic events with his enduring sense of joy and wonder—and the ever-present twinkle in his eye shone especially bright at commencement time.

Candidates for Degrees and Certificates

December 18, 2024 / May 16, 2025 / August 12, 2025

The University of Southern California has one Commencement ceremony per year and provides a program listing all eligible candidates for that year. Only candidates who are eligible for graduation during the semesters listed above are published in the May Commencement program.

SPECIAL AWARDS

Student Commencement Speaker

Meghan Anand, *Business Administration/Legal Studies*

Academic Honors

Phi Beta Kappa Undergraduate Recognition Award

Devoted to liberal learning in arts and sciences, Phi Beta Kappa, founded in 1776, presents undergraduate awards to honor creativity, scholarship, and leadership in faculty–student community relations.

Emerson R Damiano, *Environmental Studies & French*
Jonathan Hayden, *East Asian Languages and Cultures & English*

Mohammed Zain Shafi Khan, *International Relations & Journalism*
Kenneth Nguyen, *Quantitative Biology*

Phi Kappa Phi Student Recognition Award

Founded in 1897, Phi Kappa Phi is the oldest interdisciplinary honor society at USC. It recognizes scholarship and awards prizes annually to graduate and undergraduate students for creative and scholarly achievements.

Georgia Burki, *Fine Arts & Cognitive Science*
Isabella Gonzalez Villareal, *Economics & Geodesign*
Raktim Mitra, *Computational Biology and Bioinformatics*

Soha Niroumandijahromi, *Computer Science & Mechanical Engineering*

Rockwell Dennis Hunt Scholastic Award

This honor is awarded to an alumna or alumnus of USC who is pursuing a graduate or professional degree at the university and who is most representative of the Trojan Family's traditions and values.

Dimple Sarnaik, *Physics*

Outstanding Teaching Assistant Award

This honor is awarded to three graduate teaching assistants—from diverse areas such as the natural sciences and engineering, social sciences, and humanities and arts—who have exhibited consistent excellence in the classroom and symbolize the university's dedication to the education of scholar–teachers.

Ayala Haddad, *Philosophy*
Shelby Smith, *Public Policy & Urban Education Policy*
Yanfei Zhou, *Business Administration*

Discovery Scholars

The Discovery Scholars program recognizes undergraduates who have produced exceptional original scholarship or creative work at USC while compiling a distinguished overall academic record. All students compete for a select number of annual Discovery Scholar Prizes of \$10,000, awarded at graduation for the purpose of postbaccalaureate study.

Steven and Kathryn Sample Renaissance Scholars

Steven and Kathryn Sample Renaissance Scholars are students who graduate with a major and minor or two majors that are in widely separated fields of study. A faculty panel certifies the breadth of their academic programs. To earn this academic honor, students must graduate with no less than a 3.5 overall grade point average and no less than a 3.5 grade point average in at least two distinct fields of study. Each year, 10 Renaissance Scholars are selected to receive a \$10,000 prize toward graduate study.

Renaissance Scholar Prize Winners*Warren Bennis Scholars**

The Warren Bennis Scholars Program is a university-wide initiative offered by the Office of the Provost through the Brittingham Social Enterprise Lab at the USC Marshall School of Business. Each year, a select number of students across academic disciplines are selected at the end of their sophomore year to receive intensive leadership training and access to top USC professors. The program honors USC Distinguished University Professor Warren G. Bennis, an internationally recognized authority on leadership who mentored countless students during his distinguished 35-year career at USC.

Nationally Competitive Scholarships and Fellowships

Astronaut Scholarship

The Astronaut Scholarship Foundation's mission is to aid the United States in retaining its world leadership in technology and innovation by supporting the very best and brightest scholars in science, technology, engineering, and mathematics while commemorating the legacy of America's pioneering astronauts. The foundation awards over 50 scholarships annually, each worth up to \$15,000, to exceptional college students who exhibit motivation, imagination, and exceptional performance in the science or engineering field of their major.

Miguel Ornedo Mercado, *Mathematics & Physics*

David L. Boren Scholarship for International Study

The David L. Boren Scholarship for International Study provides funding for U.S. undergraduate students studying in Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. Boren Scholarships require rigorous language study, and the majority of awardees spend a full academic year overseas. In exchange for funding, Boren Scholarship recipients commit to working in the federal government for at least one year after graduation.

Student Recognition Awards

Order of the Laurel and the Palm

Exemplary leadership and high achievement characterize those selected for the Order of the Laurel and the Palm, the highest honor accorded to undergraduates completing their programs of study. Recipients display significant leadership that touches multiple facets of university life and have made notable contributions that leave a lasting impact on the university community or the world at large through their commitment to service and valuing of the university's highest goals and ideals. Less than one percent of undergraduates earning their degrees are selected for this honor.

Order of Areté

Areté, taken from the Greek, means virtue or excellence in attaining one's utmost human potential. Members of the Order of Areté have distinguished themselves among their peers through campus or community leadership roles beyond those required for their programs of study, often making notable contributions to the university, academic discipline, community, or world at large. In these leadership roles, members demonstrate significant depth and scope of responsibility, and they are recognized for upholding value and meaning over individual achievement. The award represents the highest honor accorded graduate students upon completion of their academic programs.
