Commencement

Class of 2026

UNIVERSITY OF SOUTHERN CALIFORNIA

ALMA MATER

All Hail to Alma Mater

To thy glory we sing;

All Hail to Southern California

Loud let thy praises ring;

Where Western sky meets Western sea

Our college stands in majesty;

Sing our love to Alma Mater,

Hail, all hail to thee!

ACADEMIC REGALIA

“(The) wearing of gowns by judges, ministers, teachers, and scholars is an ancient and impressive custom.... As the graduating students of American high schools, colleges, and universities march in academic procession on Commencement Day to receive their diplomas or degrees, they, too, (and perhaps, for some, only this once in their lives) wear the caps and gowns of this long tradition.... For a moment, they are wearing an ancient regalia, the proud badge of belonging to a great profession, that of student. Holding hands with students past and students present in a chain which goes back into history. Every detail should be keyed to stress the occasion as adventure, a turning point, something memorable and important.”

Frank C. Baxter (1896–1982)
Professor Emeritus of English
University of Southern California

At the end of the 19th century, colleges and universities in the United States were developing the kind of ruleless academic costume that emerged over the centuries in Great Britain. There and in the dominions, each university adopted its own costume without regard to what other institutions had done. The result was a confusing array of caps, gowns, and particularly hoods, each one of which must be separately memorized.

Recognizing this problem, American institutions responded in 1895 by creating an intercollegiate commission to consider a uniform code for academic costume. The resulting Intercollegiate Code regulated the design or pattern of gowns and hoods and the colors and materials to be used. The code was subsequently adopted by almost all of the colleges and universities in the country. It is still in use today, although slightly modified by successor committees appointed by the American Council on Education.

Gowns

The code provides for three types of gowns. Those for bachelor's students are made of black material and have long, pointed sleeves. They should be worn closed. The master's gown, also black, is made with an oblong sleeve, open at the wrist. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is also worn closed. In 2018, the university unveiled new custom regalia for bachelor's and master's students. The new gowns feature a cardinal band and the USC shield on the sleeves, along with cardinal piping. The custom regalia highlights the prestigious brand of USC in an elegant and timeless manner.

The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck and by three bars of the same material on the bell-shaped sleeves. It is cut much fuller than the other gowns and may be ornamented in color. (As a matter of

practice, except in the areas of philosophy and law—dark blue and purple, respectively—faculty colors are rarely seen on the gown.)

The standard cap and gown are almost universally worn, but there are some outstanding deviations, including Harvard, Princeton, Yale, Stanford, Columbia, New York University, the University of Chicago, and the University of Southern California. Cardinal and gold doctoral gowns were proposed for the university's centennial by Dr. Jerome B. Walker, centennial director, in 1980. Cardinal gowns with yellow velvet panels were first worn during President James H. Zumberge's inauguration in May 1981. For President Steven B. Sample's 1991 inauguration, the design for doctoral gowns was modified, adding red velvet panels framed by bright gold braids.

Caps

Although there is an exception, rarely seen, for women that allows them to wear a soft cap, the mortarboard or Oxford-type cap is worn. Only the doctor's cap may be made of velvet. The tassel worn with the cap has three variations: (1) it may be black for any degree, (2) it may be in the color of the faculty (field of learning) in which the degree was granted, or (3) doctors and governing officials, only, may wear a tassel of gold metallic thread. Black tassels are worn at USC for all bachelor's and master's degrees. Students wear their tassels on the right side before symbolically turning them to the left during the conferral of degrees.

The cap is an essential part of the academic costume and is worn with it at all times except, of course, when caps are removed during prayer or during the playing of the national anthem. The gold tassel of the doctor's cap is so fastened that it drapes over the left front quarter of the cap. From this design, it has become customary to leave the tassel draped over the left temple at all times.

Hoods

Of all the components of the costume, the hood is the most symbolic. It makes clear the level of the degree, the faculty in which it was given, and the institution that awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctors, by the shape. The hood is lined with the colors of the school awarding the degree; at USC, the silk lining is gold with a cardinal chevron. The color of the velvet band around the hood shows the department in which the wearer has taken his or her degree. All Master of Arts (white) and Master of Science (gold) degrees are bestowed by the Graduate School. The color of the velvet band around the hood for all PhDs is dark blue. Specialty degrees have individual colors based on the degree earned.

The academic regalia worn by the participants in the Commencement ceremony is not merely costume. It represents an unbroken chain uniting students and scholars since the Middle Ages.

Presidential Medallion of Office

The medallion of office is worn by the president over their official regalia at ceremonial occasions. It was created by Associate Provost Jerome B. Walker for the inauguration of President James H. Zumberge on May 10, 1981, to serve as a tangible symbol of the authority vested in the president by the Board of Trustees. For his 1991 inauguration, President Steven B. Sample asked Dr. Walker to design the medallion's current chain, which consists of shields identical to that found in the university seal, linked together 16 times.

The front of the medallion depicts the university seal in full, and the back lists the name of the current president and the date of their inauguration. Each president keeps their medallion after retirement.

University Mace

The mace is a ceremonial scepter symbolizing the authority of the Office of the President. The president of the faculty has the honor of serving as mace bearer in all academic processions for Commencements and other official university ceremonies.

The university mace was first used at the inauguration of President Norman Topping on October 28, 1958. The mace was designed and crafted by the renowned master silversmith, USC alumnus and professor emeritus Hudson

Roysher. The head of the mace depicts the university seal. Encircling the head of the mace is the hand-engraved inscription, "1880 University of Southern California." The names of the university's past presidents and the current president are engraved on the bowl. The crowning ornament is a depiction of the walled city of Troy.

Marshals' Batons

Designed for the inauguration of Dr. C. L. Max Nikias as 11th president of the university, a baton is carried by every marshal in the official procession. The batons are carved from walnut, with the university seal mounted in gold at the top. The fluted shape of the baton evokes the torch of learning, which is also found on the university seal.

At the University of Southern California, marshals are traditionally chosen from the ranks of the faculty to lead the student procession at New Student Convocation and Commencement. The university marshal and the president of the faculty march at the head of the procession.

Trustee Gowns

The cardinal robes of office worn by university trustees were designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration. Reminiscent of the university's doctoral gowns, the trustee robes feature red velvet front panels and chevrons on the sleeves. Bright gold piping outlines both the panels and the chevrons. Each of the front panels features an embroidered shield on the lapel, taken from the university seal.

The trustees wear a doctoral hood lined with USC's traditional gold satin with a cardinal chevron. The hood has a red velvet collar representing the university, in place of a faculty color representing a single discipline.

The university marshal wears a special gown that serves as a bridge between the trustee robes and the university's doctoral gown, with the university seal embroidered on the lapel.

ACADEMIC SYMBOLS OF THE UNIVERSITY

**Original University Seal**

The university's original seal was developed in 1884 to emboss the diplomas of the school's first graduating class. This seal depicted the year of USC's founding (1880) emblazoned on a scroll next to a palm tree (in heraldry, a symbol of righteousness and victory), with the name of the institution inscribed around the border.

**1908 Seal**

At the behest of university administrators in 1908, Jesse Ray Miller devised a new seal that introduced USC's official flower, the California poppy, a heraldic symbol of remembrance, hope, joy, and growth. The seal also included a shield bearing a setting sun and three torches. In heraldic tradition, the torch symbolizes learning, and the three torches displayed here represented learning in the arts, the sciences, and philosophy. The setting sun signified the West and, according to heraldic symbolism, power and life. Finally, enfolding the shield was a scroll displaying the university's new motto, "Palnam Qui Meruit Ferat." Freely translated, it means: "Let whoever earns the palm bear it."

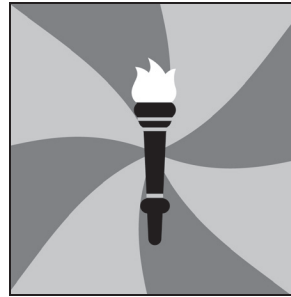

**Current Seal of the University of Southern California**

In 1948, the USC Board of Trustees approved an updated version of the university seal. In this version, the poppies appear next to the shield inside the outer band, which is now formatted as a scroll. The Latin motto is inscribed on a separate scroll at the base of the seal. This seal continues to be the imprimatur, or official signature, of USC to this day.

HERALDIC FLAGS

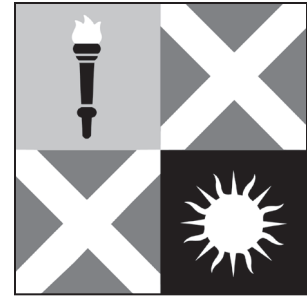

Originally designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration, heraldic flags for each academic degree-granting unit are displayed at Commencement and other academic convocations. These flags, carried by students, precede the faculty in the procession. By a long-standing tradition, most academic disciplines have used an identifying color, which is displayed on academic hoods to indicate the subject area in which the wearer obtained the degree. These identifying academic colors are used in the banners of the various schools and divisions of the university.

Found in the university seal, the torch of knowledge is a clear and honorable symbol, well suited to an institution of higher learning, and is one of the charges on the university's official seal. The university seal also contains a sun. Known as a "sun in its splendor," it has a perimeter featuring alternating straight and wavy rays. The straight rays represent the light and the wavy rays the warmth and affection that the university extends to its students and community. The torch and the sun are used to unite these disciplines under the flag of the University of Southern California.

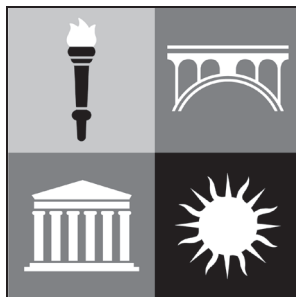

College of Letters, Arts and Sciences

Academic colors: white for letters, gold for sciences. The wide-ranging fields over which this college functions are symbolized by the intimate intertwining of letters, arts, and sciences in the heraldic pattern known as "gyronny." The torch of knowledge serves as a reminder that the college is the academic heart of the university.

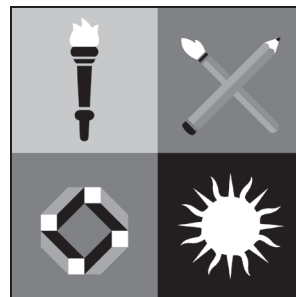

The Graduate School

Academic color: white for arts, gold for sciences, royal blue for the doctorate. In heraldry, the saltire (a corner-to-corner cross) symbolizes the wide range of disciplines over which this school presides and which the saltire unites in one unit.

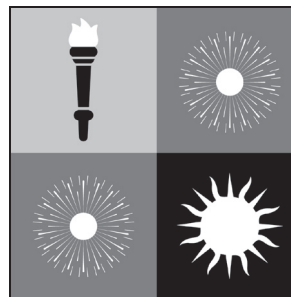

Architecture

Academic color: blue-violet. The Doric portico is used here as a symbol of beauty and proportions inspired by the early Greek architects, who continue to inspire the architect today. The modern bridge represents progress, connections, and stability. The blue background, representing the sky, suggests the almost limitless scope of architecture.

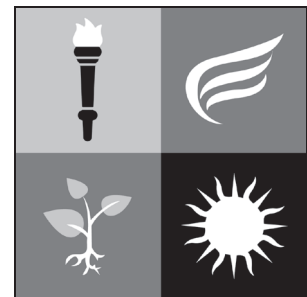

Art and Design

Academic colors: brown for arts, white for letters. Here the symbols reflect two important branches of art and design. The paintbrush and pencil symbolize fine arts, such as painting, drawing, and sculpture. The abstract symbol, with its pixel-like design, reflects the emergence and evolution of digital arts.

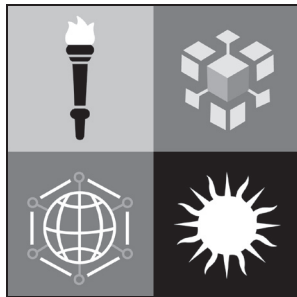

Arts, Technology and the Business of Innovation

Academic color: brown. The supernova, an astronomical event that occurs during stellar evolution causing the sudden appearance of a new, brighter star, represents the idea of disruption and the supreme energy exhibited by the founders and students of the academy. The flag's additional colors are described in heraldic language as metals: gold and bronze.

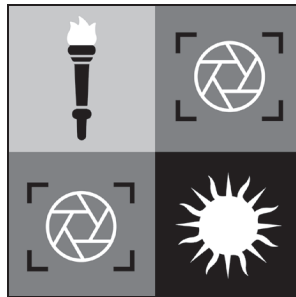

Bovard College

Academic color: white. The soaring sails symbolize confidence and agility in providing a student-centered approach to learning. The rooted plant is a symbol of the stability, growth, and abundance of opportunity. Colors featured in the flag are rendered as metals—gold, silver, and bronze—in traditional heraldic terms.

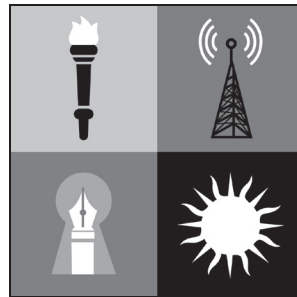

Business

Academic color: drab. The square figures that are symmetrically arranged on this flag are designed to symbolize the organizational characteristics of business in all its complexity. The interconnected sphere represents an enterprising and global approach to business.

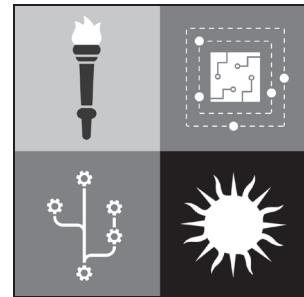

Cinematic Arts

Academic colors: brown for arts, white for letters. The six triangles represent the strength of the individual specialties, such as camera, editing, sound, writing, criticism, and aesthetics, that form the larger discipline of cinematic arts. When combined, they form an aperture, at the center of which is the human eye, representing the mediation essential to the discipline.

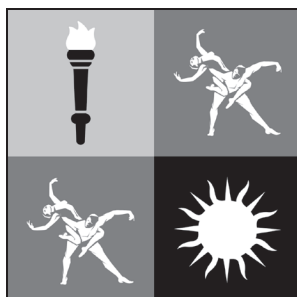

Communication and Journalism

Academic colors: crimson for communication, white for journalism. The three data waves emanating from the transmitter in both directions symbolize the fact that all communication has a threefold aspect—communicator, audience, and medium—all of which are involved in the interplay and sharing of a message. The quill tip within the keyhole represents freedom of the press.

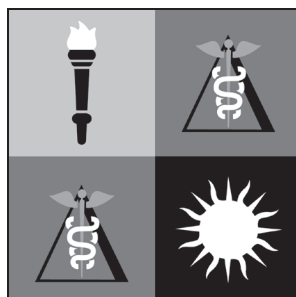

Computing and Artificial Intelligence

Academic color: orange. The circuit board and branching nodes of the flow chart signify the collaborative bonds that spark groundbreaking discoveries in advanced computing. The electrons orbiting the circuit board refer to quantum computing, and the gears in the Git branch nod to a tight-knit relationship with the USC Viterbi School of Engineering.

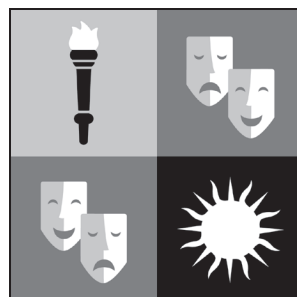

Dance

Academic color: amethyst. Dance is one of the oldest and most central expressions of humanity. The two interlocking figures represent creativity and innovation, and they capture the artistry of bodies in motion. The sun in its splendor represents the courage and power incumbent in authentic artistic creation, and white is the traditional heraldic color representing the arts and humanities.

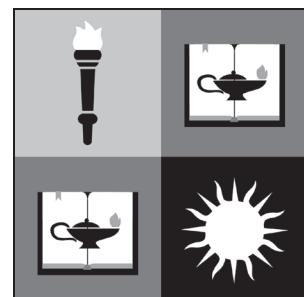

Dentistry

Academic color: lilac. Dentistry, like the other scholarly areas associated with health care, uses the traditional Asclepius staff and serpent—in this case, enclosed in a capital Greek letter, delta, an homage to the official emblem of dentistry.

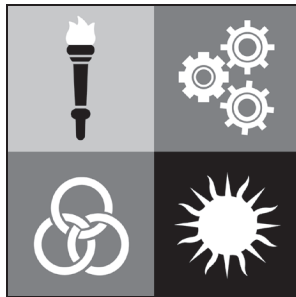

Dramatic Arts

Academic colors: brown for arts, white for letters. The classic emblem of comedy and tragedy is based on masks worn by actors in ancient Greek theater productions. They reflect not only the two main genres of the dramatic arts, but also the duality of the human experience.

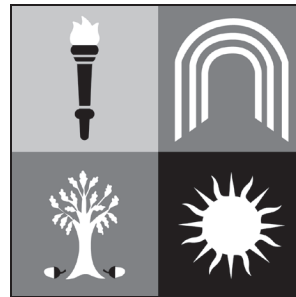

Education

Academic color: light blue. The book, illuminated by the lamp of learning, is a very widely used, traditional symbol for education, and occurs in many shields of arms. The flame from the torch of knowledge illuminates the tip of the lamp.

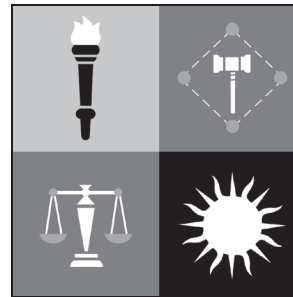

Engineering

Academic color: orange. The interlinked circles, inspired by the classic mathematical Borromean rings, join the cogs and gears in this flag to symbolize the way in which the profession of engineering interacts with math and the applied sciences to solve society's most pressing and wicked problems.

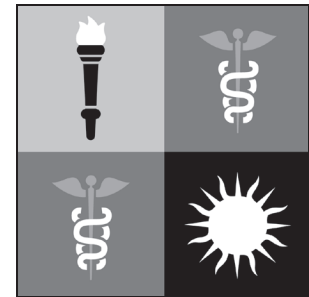

Gerontology

Academic color: white. The very characteristic architecture of this school is incorporated in the flag, along with the oak tree, symbolizing sturdiness and longevity, and acorns, representing the constant renewal of life.

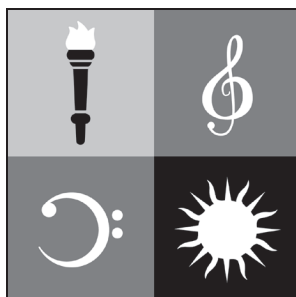

Law

Academic color: purple. The four points surrounding the gavel in this flag symbolize the levels at which the legal profession provides a bulwark and framework for our society: federal, state, county, and local. The scales of justice reflect the fair and impartial balance sought by the law.

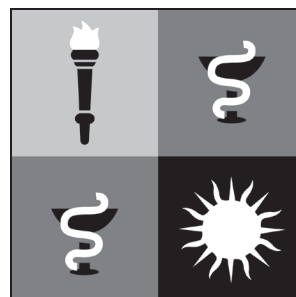

Medicine

Academic color: green. The staff of Asclepius, the Greek god of medicine, around which is entwined the harmless snake beloved of Asclepius, has been the symbol of medicine for many centuries.

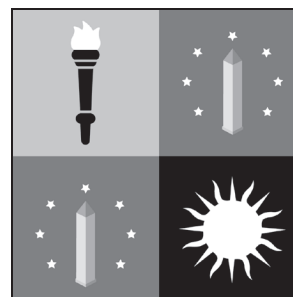

Music

Academic color: pink. Music is a universal means of communication between human beings, linking the past, present, and future. The treble and bass clefs symbolize music expressed in all its forms and styles, vocal or instrumental.

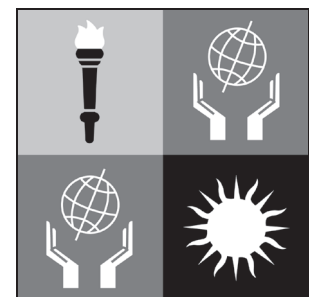

Pharmacy and Pharmaceutical Sciences

Academic color: olive. Pharmacy is symbolized by the bowl of Hygeia, the Greek goddess of health, coupled with the Asclepian serpent, showing the intrinsic relationship between pharmacy and medicine.

Public Policy

Academic color: peacock blue. The school's work is represented in triads, reflecting the intersection of three sectors, three levels of government, and three levels of degree programs. The three shapes come together to form the obelisk evoke those triads. The symbol of the obelisk surrounded by stars reflects structure, security, and liberty.

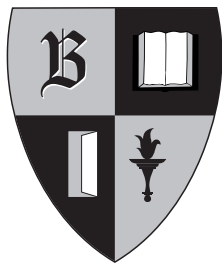

Social Work

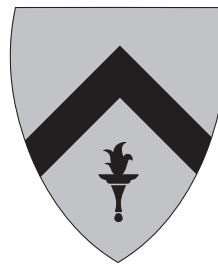

Academic color: citron. As symbolized by outstretched hands cradling the globe, social work by its very nature is about embracing our connections as human beings and inspiring the spirit of compassion and mutual respect that assists individuals and communities in reaching their full potential.

RESIDENTIAL COLLEGES

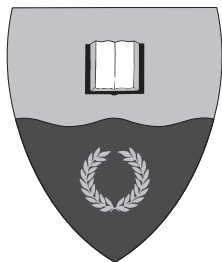

The University of Southern California transformed its first-year student housing into residential colleges in 2012, bringing special cultural programming, academic opportunities, and mentoring from faculty members to many more students. Along with this shift, the university unveiled official crests to represent each of these new colleges. Some echo the history of the university and its architecture, whereas others evoke the emerging themes of these new communities. All 14 crests are anchored in USC's identity, echoing elements from the university's official seal and embracing cardinal and gold as their dominant tones.

**Birnkrant**

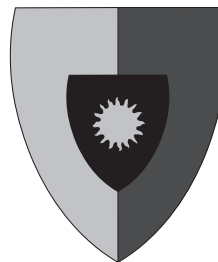

Dubbed “eight floors of open doors” for its social atmosphere, this college introduces residents to the diverse cultural and creative worlds of Los Angeles. The crest features a “B” for Birnkrant, the torch of knowledge, a book, and an open door.

**Bohnett**

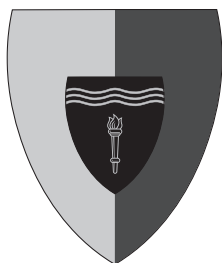

A community built around a core ideal of social action through entrepreneurship, this college embraces students seeking innovative solutions to social issues around the world. The torch of knowledge is framed by a chevron, a classic symbol of dutiful and benevolent service.

**Cale**

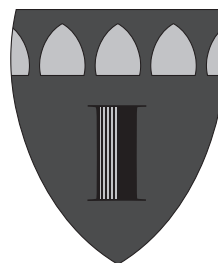

Home to scholars interested in global exploration, this community encourages cross-cultural interaction and critical dialogue regarding the ever-changing international landscape. Its symbols, the book and the wreath, reflect the exchange of ideas and triumph of humanity.

**Cowlings**

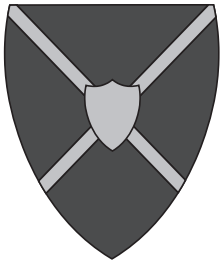

This college has arts and culture as its thematic focus, with an emphasis on the wealth of cultural experiences at USC and throughout Los Angeles. Residents are inspired to awaken their inner cultural explorer, reflected by the sun in its splendor contained within the crest.

**Ilium**

A community for sophomore honors students, this college brings together scholars who share a commitment to rigorous intellectual and academic achievement. Its crest emphasizes the torch of knowledge, a classic symbol that has been part of the university's graphic identity since its inception.

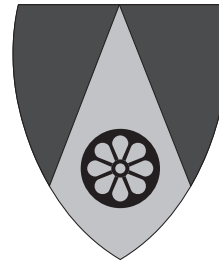

**Irani**

This college focuses on performance science; students living in this community explore their untapped potential in learning how to break down barriers inhibiting leadership, decision-making, resilience, or creativity. The pillar reflects stability and strength of character, and the windows along the upper portion of the crest echo architectural details at USC Village.

McCarthy Honors

Endowed by the Thomas and Dorothy Leavey Foundation, this college provides a home for exceptional scholars. The crest's design is inspired by McCarthy Quad, which was named in honor of Leavey Foundation Chair Kathleen Leavey McCarthy '57.

McMorrow

This community is a bastion of innovation, encouraging scholars to embrace their passions for technology, science, and design. Residents seek solutions to global challenges through creativity and novelty, a spirit emphasized in the crest's playful symbol.

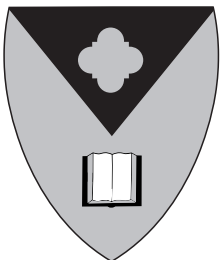

Nemirovsky

This college is home to students dedicated to sustainability and societal engagement. Its crest features the poppy, a symbol of growth and hope featured in the university seal, and pillars and a cornerstone, evoking the foundation of something lasting and monumental.

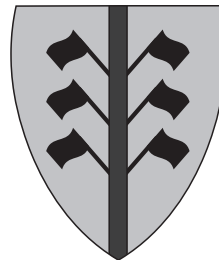

New North

This college is a hub of activity and combines four closely connected residence halls. The crest's interlocking angles, a classic heraldic shape, symbolize a collaborative environment.

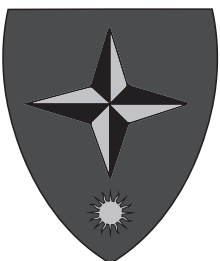

Parkside Arts and Humanities

This creative community is home to students of music, art, and literature. It's known for its performance and practice spaces. The crest draws from the nearby landscape of Mudd Hall, Hahn Plaza, and Nazarian Pavilion.

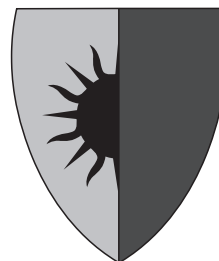

Parkside International

Global issues are a focus for this community, which brings together students from many nations. A display of flags on the crest represents the international traditions celebrated at the college.

South

Home to residents with a passion for personal growth and leadership, this community is represented by a compass rose, signifying exploration. The college includes two neighboring towers, Pardee and Marks.

West

This community focuses on holistic wellness and is fittingly located near several of USC's athletic and recreational facilities. The college's crest shows two adjoining colors, with the sun setting to the west.

*HONORARY DEGREE***Marcia McNutt***Doctor of Science*

Marcia McNutt is a trailblazing geophysicist and president of the National Academy of Sciences. Her inspiring leadership encourages millions around the globe to embrace and support the quest to deepen our knowledge of the world around us. She has also served as editor-in-chief of the prestigious Science family of academic journals, helping elevate the work of researchers in countless fields while bolstering the world's respect and appreciation for scientific truth.

Earlier in her career, from 2009 to 2013, Dr. McNutt served as director of the U.S. Geological Survey, the science arm of the Department of the Interior. During her tenure, she responded to several major disasters, including earthquakes in Haiti, Chile, and Japan, as well as the Deepwater Horizon oil spill. Dr. McNutt led a team of government scientists and engineers who helped contain the oil, cap the well, and estimate the rate of oil discharge during the spill. For her contributions, she was awarded the U.S. Coast Guard's Meritorious Service Medal.

Dr. McNutt has achieved many important milestones in her efforts to explore, survey, and preserve our natural ecosystems. As president and chief executive officer of the Monterey Bay Aquarium Research Institute, she oversaw the development of the first deep-sea cabled observatory in U.S. waters and the integration of artificial intelligence into autonomous vehicles for undersea exploration. She also chaired the Board of Governors for the Joint Oceanographic Institutions, which led missions to collect and study core samples drilled from the ocean floor.

As an earth scientist, Dr. McNutt studies the dynamics of the upper mantle and lithosphere on geologic time scales—work that has taken her to distant continents and oceans for field observations. She is a veteran of more than a dozen deep-sea expeditions, on most of which she was chief or co-chief scientist.

Dr. McNutt's peers have recognized her contributions with numerous accolades. She is a member of the National Academy of Engineering, the American Philosophical Society, and the American Academy of Arts and Sciences, and a foreign member of the Royal Society. Her honors also include the American Geophysical Union's James B. Macelwane Medal and Maurice Ewing Medal, in addition to 13 honorary doctorates.

For her outstanding scientific and environmental leadership, her groundbreaking geophysical research, and her continued work as a champion and protector of our planet, the University of Southern California is proud to honor Marcia McNutt with the degree of Doctor of Science honoris causa.

 HONORARY DEGREE

Joyce Carol Oates

Doctor of Humane Letters

In the world of American letters, Joyce Carol Oates stands among the most versatile and accomplished writers of any generation. For more than six decades, she has penned bestselling novels and critically acclaimed collections of short fiction, as well as celebrated essays, plays, poetry, and memoirs. Her remarkable literary industry—which includes her work as an editor and anthologist—spans forms, themes, topics, and genres. As the critic Henry Louis Gates Jr. has said, “Her oeuvre could easily piece together the whole of postwar America.”

Best known for her fiction, Ms. Oates has produced an extraordinary body of work that bravely engages with lived realities and examines them with honesty and care. Her acclaimed novels include *them*, which received the National Book Award; *Blonde*, a bold reimagining of the inner life of Marilyn Monroe; and *We Were the Mulvaneys*, a bestseller that follows the disintegration of an American family. Her short fiction further demonstrates her artistry and originality, including her most anthologized short story, “Where Are You Going, Where Have You Been?” Many of her works have been adapted into film, television, and stage productions—and her own legacy is the subject of the documentary *Joyce Carol Oates: A Body in the Service of Mind*.

Throughout Ms. Oates’ illustrious career, 40 of her works have been selected for *The New York Times*’ annual list of notable books. Her numerous honors include two O. Henry Prizes and two Bram Stoker Awards, as well as the PEN/Malamud Award for Excellence in the Short Story and the National Book Award. She has also received several awards for lifetime achievement, including recognition from the National Book Critics Circle and PEN Center USA. In 2010, President Barack Obama awarded her the National Humanities Medal.

A devoted mentor to young writers, Ms. Oates serves as the Roger S. Berlind Distinguished Professor of the Humanities at Princeton University, and teaches at both Princeton and Rutgers University. She is a member of the American Academy of Arts and Letters, reflecting the lasting impact and influence of her creative expression.

For her decades of distinguished creative achievement, her deep wisdom and penetrating insight into humanity, and her unparalleled contributions to the literary world, the University of Southern California is proud to honor Joyce Carol Oates with the degree of Doctor of Humane Letters honoris causa.

*HONORARY DEGREE***Maestro Gustavo Dudamel***Doctor of Music*

Gustavo Dudamel harnesses the power of art to inspire and unite people worldwide. His dynamic presence in music and beyond reflects his lifelong mission to share the joy of classical music with new and ever-larger audiences. From his beginnings in Venezuela to his achievements in music and education, he has demonstrated how the arts bring a deeper meaning to life while fostering harmony across generations and cultures.

Maestro Dudamel serves as the music and artistic director of both the Los Angeles Philharmonic and the Simón Bolívar Symphony Orchestra of Venezuela. Later this year, he will become the music and artistic director of the New York Philharmonic, continuing a legacy that includes luminaries such as Gustav Mahler, Arturo Toscanini, and Leonard Bernstein. Throughout his career, he has embodied the values of El Sistema—the national music education program established by Venezuelan conductor José Antonio Abreu—with his visionary artistic leadership, rigorous musicianship, and community advocacy.

A passionate champion of the arts, Maestro Dudamel has used his podium to elevate the role of music in education and social development. His own transformative experience shows how music can help young people rise above challenging circumstances, and he has shared this message with global leaders from the United Nations to the White House. In 2007, he co-founded Youth Orchestra Los Angeles, which has provided more than 1,700 local students with instruments, music instruction, academic support, and leadership training. He also serves as co-chair of the Dudamel Foundation, expanding access to opportunities in the arts and shaping the creative future of underserved communities.

As a conductor, Maestro Dudamel has achieved a rare breakthrough into popular culture. He has worked tirelessly to connect with audiences everywhere, becoming the first classical music artist featured on the cover of *Billboard*, as well as the first to participate in the Super Bowl halftime show. He also made history by leading the first professional symphony orchestra to perform its own set at the Coachella Valley Music and Arts Festival, building on his collaborations with well-known artists including Billie Eilish, LL Cool J, Coldplay, and Cynthia Erivo.

For his profound cultural impact in Los Angeles and around the world, and for his enduring commitment to advancing arts education in every community, the University of Southern California is proud to honor Maestro Gustavo Dudamel with the degree of Doctor of Music honoris causa.

Candidates for Degrees and Certificates

SPECIAL AWARDS

Student Commencement Speaker

Kash Amos, *USC Annenberg School for Communication and Journalism*

Academic Honors

Phi Beta Kappa Undergraduate Recognition Award

Devoted to liberal learning in arts and sciences, Phi Beta Kappa, founded in 1776, presents undergraduate awards to honor creativity, scholarship and leadership in faculty–student community relations.

Magdalena Albright, *American Studies and Ethnicity*

Carson Chivers, *Cognitive Science/Dance*

Helen Highland, *Chemistry*

Ranay Sah, *Law, History and Culture & Political Science & Communication/Mind Body Studies*

Dane Sprague, *Applied Economics and Econometrics & Economics & Philosophy*

Phi Kappa Phi Student Recognition Award

Founded in 1897, Phi Kappa Phi is the oldest interdisciplinary honor society at USC. It recognizes scholarship and awards prizes annually to graduate and undergraduate students for creative and scholarly achievements.

Katie Bradshaw, *English*

Nicholas J. Kim, *Biomedical Engineering/Geroscience*

Issay Matsumoto, *History*

Rachael Somers, *Philosophy, Politics and Economics*

Rockwell Dennis Hunt Scholastic Award

This honor is awarded to an alumna or alumnus of USC who is pursuing a graduate or professional degree at the university and who is most representative of the Trojan Family's traditions and values.

Beatrix M. Heard, *Urban Planning*

Outstanding Teaching Assistant Award

This honor is awarded to three graduate teaching assistants—from diverse areas such as the natural sciences and engineering, social sciences, and humanities and arts—who have exhibited consistent excellence in the classroom and symbolize the university's dedication to the education of scholar-teachers.

Discovery Scholars

The Discovery Scholars program recognizes undergraduates who have produced exceptional original scholarship or creative work at USC while compiling a distinguished overall academic record. All students compete for a select number of annual Discovery Scholar Prizes of \$10,000, awarded at graduation for the purpose of postbaccalaureate study.

Steven and Kathryn Sample Renaissance Scholars

Steven and Kathryn Sample Renaissance Scholars are students who graduate with a major and minor or two majors that are in widely separated fields of study. A faculty panel certifies the breadth of their academic programs. To earn this academic honor, students must graduate with no less than a 3.5 overall grade point average and no less than a 3.5 grade point average in at least two distinct fields of study. Each year, 10 Renaissance Scholars are selected to receive a \$10,000 prize toward graduate study.

Student Recognition Awards

Order of the Laurel and the Palm

Exemplary leadership and high achievement characterize those selected for the Order of the Laurel and the Palm, the highest honor accorded to undergraduates completing their programs of study. Recipients display significant leadership that touches multiple facets of university life and have made notable contributions that leave a lasting impact on the university community or the world at large through their commitment to service and valuing of the university's highest goals and ideals. Less than one percent of undergraduates earning their degrees are selected for this honor.

Order of Troy

Recipients of the Order of Troy have distinguished themselves beyond their peers in at least one facet of university life and have made notable contributions to the university community as active leaders or critical contributors in service to their peers, the university community or the world at large. These students have pursued academic excellence while devoting extensive time and energy to service outside the classroom.

Order of Areté

Areté, taken from the Greek, means virtue or excellence in attaining one's utmost human potential. Members of the Order of Areté have distinguished themselves among their peers through campus or community leadership roles beyond those required for their programs of study, often making notable contributions to the university, academic discipline, community or world at large. In these leadership roles, members demonstrate significant depth and scope of responsibility, and they are recognized for upholding value and meaning over individual achievement. The award represents the highest honor accorded graduate students upon completion of their academic programs.
