

USC Students Joining the Chevron Workforce

Resulting from the partnership between USC and Chevron, four of CiSoft's members have accepted full time employment offers to start working at various Chevron Corporation locations. Mohsen Heidary-Fyrozjaee, formerly working on Control of Displacement Front in Porous Media by Rate Partitioning for CiSoft, will now join Chevron's team in San Ramon, CA. Feilong Liu was working on CiSoft's Waterflood Management project and will now relocate to Chevron's Bakersfield, CA group. Chevron's Houston, TX organization has recruited CiSoft's husband and wife combo, Cong Zhang and Ling Zhuo, who both worked on the Integrated Asset Management project with CiSoft. On the bounds, CiSoft also has seven members that have accepted summer internships at Chevron: Parham Ghods, Nelia Jafroodi, Heng Li, Liu Peng, Richard Seymour, Kai Song, and Dongrui Wu.
