Other Job Factors

JOB ACCOUNTABILITIES

	% Time	Essential	Marginal	N/A
Conceptualizes integration architecture by identifying business requirements, designs, prototypes, and conducting testing activities and training. Establishes and manages a repository of documentation related to integration architecture standards, protocols, frameworks, and techniques. Develops standards, guidelines, leading-edge practices, and approved integration techniques and approaches. Builds road maps, processes, templates, patterns, workflows, and other documentation that meet current needs and anticipate future needs.				
Analyzes broad problems, escalations, and trends, and performs root cause analysis. Participates in regular touchpoints with department leaders, data integration teams, and vendors. Gains insights into and anticipates customer pain points, challenges, and needs for integrations. Identifies business value opportunities for customers, partners, and key stakeholders in administrative and academic units. Engages with system and business owners to identify and recommend solutions for problem resolution and prevention.				
Continually develops skills, knowledge, and abilities to maintain currency with new developments in integration architecture and related areas (e.g., APIs, data management). Researches data tools and services and makes recommendations, leveraging the latest industry knowledge and taking the initiative to experiment with new ideas and technologies.				
Supports the enterprise data and analytics team's vision, and maintains currency with technology, standards, and best practices. Works closely with management and team members to implement and support effective solutions for integrations as well as process improvement efforts within the team and across ITS. Builds and maintains collaborative relationships with diverse team members, peers, and leaders. Contributes to a culture of trust and transparency, sharing information broadly, openly, and deliberately. Actively embodies ITS values and behaviors (e.g., accountability, strong ethics, best-in-class customer service).
